Daily Prayer

Shake sleep Awaken shape dreams

From potentiality to its actuality

The truth of all our rare talents

Becomes reality shared in actions

A sure sign or design of insight

So rise up and shine divine light

All will see their reflections in your mirror

The created creating one with our creator

Feelings the reason sounds reach our ears

For our beings are such pure sights to see

If God is our origin

Love is our Religion

Generosity of ambition

Honesty's true wisdom

Where truth comes into vision

There, nature favors decisions

Success is within this kingdom

And trust keeps the system living

Word Play

Double edged, our words
Create or Destroy Worlds
Where love is our true magnet
There words are like pure magic
Loveless words are cast into hell
Loving words supporting us well
Minds are like computers
Gossiping infects systems
Loving words rid toxic emotions
And dispel our fears of freedom
Taking things personally bothers
Making all important, prospers
Becoming immune to problems
Loving beings must solve them
Excuses made for controlling
Allies supplying short comings
Things taken less personally
Accepting separate realities
Seeing and hearing, selectively
Doing our best, we live intensely

Go Spellz

O our Heavenly Father,
Holy are your followers.
Your kingdom has come,
Your volition will be done,
On earth as it is in heaven.
Please give us our daily provisions
Forgive us for failing commitments,
As we forgive those not committed
Lead us away from temptation,
And lead us on the way of salvation.

Living every moment as a privilege,
Actively patient in the situation given,
To accept responsibility and evolve consciously.
Taking this unfaithful world as it is,
Faithfully making it as we want it.
Believing that everything happens for a reason,
especially when we understand nature's seasons.
Recognizing our blessings we feel more blessed,
And receive more insight to solve problems.

O Creator, grant your Beings Peace
To accept the things we cannot change
The Bravery to change the things we can,
And the Wisdom to know the distinction.

O Creator, I regret all the times I have caused offense or have taken offense
Understanding that instances of resistance have persisted from my insistence
Knowing fear exists when invested in defense can't serve mutual interests
This can be a definition of sin or being without respecting love's benefits.

G-O-D

A day in the life of the high rhymer
That's guaranteed, to splash light AmiRimA
I got the dopest flow spit on beats 'liva
So hallA, we all hustle for scholar's dollars
From Rapresentin' the original G.O.D
We drippin' L-O-V-E the beats speak
Swaggin, strikin' mic's to light mind's fires
Cash Rules Everything Around Me like C.R.E.A.M
Greater good tends to be free from guilty consciences
Good Orderly Directions always finding the path
Get in where you fit in, different spokes of the Wheel
Mind over matter, Conscious energy
Stays true to its aim of hope, let's propose a toast
To dreams becoming realities of our Holy Host
Spiritual lyrical miracles so habitual like rituals
Words impact whatever they come into contact with...

L-O-V-E

Life is Light Love is Seeing

Life is Love Light is Being

Life is Love, Love is Giving

When we live to give Love it gives Life real meaning

When we live to give Love it gives the best feeling

The gift of Love's priceless

LOVE's infinite & timeless

True Love is Unlimiting

Pure Love has no beginning

And it has no ending

It always was, is, and will be

Real Love's the Always reality

Unlimited and Forever free

Unlimited means for Eternity

LOVE

Love is life & life is living
living is love & love is giving
when we live to love
it gives life meaning
when we live to give love
there's no greater feeling
it's a feeling of kindness
that this love's inside us
nobody could sell or try to buy this
cause love is priceless and it guides us
lifts us up and it ignites us
love can bind us and it can remind us
love has no limit because love is timeless!

Unconditional LOVE

Whatever we get, we take for granted

What we don't possess, is our obsession

Real Love isn't attachment,

it's a natural progression

Attachment turns love into possession

Be independent individuals

Unite, but don't possesses

then there'll be no bondage

Aware of our Lovingly Conscious Presence

We share with no conditions, expectations

look wholly within

see nothing missin'

accept your completeness

extend by joining others

seeing no difference of self

don't deny truth it's reality

we have relationships so holy

Love Life

If it's Love that involves our Souls?
What's this World? A revolving whore?
Puppet master's slaves chopping trees!
Running the paper race chasing money!
Mummies, zombies choking on the green!
Speed's addiction, charging us to breathe!
World's war for its resources an insane fate
Soul's torn from their source, cause of hate
Resist the endless temptations of excess
Relentlessly lead nations toward progress
Knowledge's conquest conquers cowards,
Acknowledge power's presence to empower

If it's Love that involves our Souls?
Want some more? Revolving stores?
Have we become prisoners of our phones?
Have we become victims without homes?
Evicted from our cells, we still aren't free!
Searching for visions, we still can't see!
Corporate mentality locking away the key
Conglomerate reality knocking for victory
Stop raping the Terra Firma we call home
Star maps gazing on Merkabah's Throne
The information programs our formation,
Hacked not be too attached to its location.

The Drug of Love

Being is crystallized truth
Consciousness that moves
Ascension's Love's flight
Kids loving the child-like
The unhurt innocent and pure
Being closer to inherent nature
Nurturing the soul's sheer virtue
Increasing the dose of our love
Reveals the valued worth of us
Silence doubt, listen to acceptance
Practicing the quality of patience
Privileged humans being authentic
Extending permission's principle
The goal of our physical mission
Visions memory benefits decisions
Represents life's factual experience
Selflessly giving Self to existence

LoveDrunk

I'm not from any religion or political/cultural system.

I'm not out of the Sky nor made from Fire,
don't come from Sea or through the Earth,
not composed of elements not natural or ethereal,
I never existed as a worldly entity,
Didn't come from origin stories.

My place is placeless, a trace of the traceless.
The Truth has shared so much of Itself with me
That I no longer call myself man, woman, angel
Neither body or soul, I belong to the Beloved,
Love has befriended me ever so completely

It has freed me of every concept my mind has known.
seen the two worlds as One and that One call to and know,
first, last, outer, inner... just A Being Witnessing LOVE.

The Power of Love

Love and Power co-exist as extreme opposites

Less need for power more evolved consciousness

Not demand it, assume authority will a sensible person

Your boss has less authority than your sincere servant

The less you love, the more pronounced your power

The greater your Love, subtler your sense of power

The day that power of Love increases

Over love of Power we will have peace

Touch of Love

Like the hot Sun rises
Hearts are pumping love
& feeling peace multiply
All around, below & above
Lo and behold the wise
Turn into gold what they touch
Learned the soul is beyond price
Being infinite and eternally one
Features of the High Divine
Give the gift of knowledge
And you will receive power
Be true acknowledge yourself
And you will become free, discover
Your wealth is your health
And others are sisters and brothers
Each one teach one to live proper
Helping us all elevate and prosper!

The Midas Touch

Staying in personal power is
The key to leadership success
Remaining unconditionally loving & forgiving at all times
Staying attuned to your mighty I Am Presence at all times
Remaining balanced in everything you do
Strive to become completely free of ego
Remain the cause of your own reality at all times
Never give in to fear, separation or self-centeredness
Take the vow of the bodhisattva and dedicate yourself completely to humanity
Pray and Meditate constantly
Develop unchanging self-love & self-worth
Recognize you are maintaining an individual & a group body & nurture both
Be attached to nothing and have only preferences
Purify physical, emotional, mental, etheric and spiritual body of all physical toxins, negative
thoughts/emotions, alien implants, astral entities & imbalanced energies
Remain in Christ/Buddha mind at all times & never interpret reality from lower-self mind
If you can maintain these simple principles in daily life
You will have the Midas Touch
Everything you think, say and do is pure love
And since Love Is God, it will turn to the gold that is GOD.

It's All Good

We create the system, to serve our wisdom's target, US
Started as just a Thoth, now whirlin as Star Dust
How light years later spinnin' in a custom Navigator
Counting my blessings better than confessing my sins
I just echo, my eros philia seeking complete peace
Fine tune adapt and attract Grand Plan's easily
All loyal students of Love, life's art unites like weavers
And young knitters, sewing with each five fingers
Some of us know atheletes, some of us actors and artists
Some of us hustle n bustle in the city
Send cupid's at Club Nikki's for single's to mingle
Drippin' out of faucets tap's sprinklin facts
Todo esta bueno, musical maestro like Vivali
Drink a thirsty drop in the lake and rock the spot, properly
Making something like ICE
From could to wood and should, live to give back to life

Present of Life

This very life we live is a present and gift
By giving to others we get to open our gift
Our genes and environment are the wrapper
Rushing to open our gift ruins the wrapper
And as we hurry in love, we spoil life's present
Enduring patience make the gift of love present

Now Here

Content essence perception

Pleasure's Measure

When you take the measure

To give the other pleasure

Start travelling on the distance

To be of support and assistance

Then you will begin getting glimpses

Of your infinitely rich giving spirit

Which knows no-limits and conditions

It shows up to remind and give wisdom

Which helps us with making decisions

Our vision expands due to intuition

Feeling is the language of the spirit

Listen to your body, be in tune with it

Universe flows for us all to be in synch

Sacred Treasure

Infinity's Affinity

The epitome of my affinity with infinity keeps me

In motion, flowin' like existence's ocean

Mind-open, Heart set-out on devotion

Senses sent to us for our ascension

From the 4th to the 5th Dimension

Through the surface we reach the depth

To know the purpose of each chartered step

Or show the service of each and every breath

All is a call to come back to yourself

Within you lies the greatest wealth

The soul's loving presence is acknowledged

Our goal of living is passing on knowledge.

True Consciousness

Thinking out LOUD, Thinking out LOUD

What's this World revolving around?

Have we become slaves chasing the paper?

Have we become crazed beings of nature?

We're enveloped in greed, still are in need

We've developed speed, we still aren't freed

Our knowledge has made us cynical

Acknowledge what makes you spiritual

Those of you who need to control

Peace comes in Uniting the World

If all men are created Equal

Then Hu are you to kill my Ego?

When we love things and use people

The way of Life is beautiful

We dropped from grace by hate

For resources made wars our fate

Bosses only make more Followers

While Leaders create more Leaders

We're all sisters and brothers

Miss and Mister Lover Lover

Know Yourself

Angelic souls elevating,
to its goal that keeps creating
This world is ours for the taking
Making all kings, queens moving toward a new world order
A normal life is forming, but super stardom's forms the most awoken
It only grows smarter, only goes farther
He throws us off with these robots and machines
Coast to Coast shows, he's known as the globetrotter
Lonely roads, got only phones, we've grown in distance
We come home and barely know each other's existence
But hold your own Love, here flows the Soul's water
His home won't want him to go, he's gold product
They grooved on with his next CD of flows, the soul is frozen
Chosen Lover grew, rose up and spoke to the beat of the song

To Know Yourself

Grow more humane, I'm a stay what you call a sage
Swear this brotherlovin' proof was the life of you that had changed
I was learnin' in the beginnin', all the rules of Life's Game
I been through a lot to get to Love's domain
But I kept trying to get the right experience, deciding
Best relive somebody's pain than try it myself
All the same inside exemplified by the fact
that I am set in life with my nine to five
and I can provide the right type of Life
for my family I've got a plan, breed Love and food
can not only find refrigerators also it can get in tummies, rest in peace Spike forever
That's my Bulldog smiling down from heaven, bless him
Damn, can I live to feed and water my seeds, plus
See your honor being a Loving husband and father
Baby, mama loves you dreamin' on and on too much
You assure me to want to stay in love, with no other woman
Have taken me to the peak, I'm high sailing in your Love
Truly celebrating all we got before we end gone from this dot
Success is my only motherlovin' option, failures not
God, loves you, grants Holy Grail for you to know you can be forever young Saints
Thanks a lot Hail Mary I guess space is meant for our destiny to co-create our fate

The Human Condition

Imagine no racial discrimination & prejudice

Fathom all living the dream of liberty & justice

No terrorists, religious fanatics & dictatorships

No mass media sensationalism or censorship

As our power, greed & politics have affected the dangerous balance

Of biodiversity that boosts ecosystem productivity

Global warming is a Human warning

Stating action is cheaper than inaction

Literally a billion of us are illiterate

We need less than 1% spent on weapons

To make sure all children get an education

Over 3 billion people live on less than \$2.50 daily

I wonder if we can conquer these monster

War-mongers causing more world hunger

Poverty has become the latest commodity

Making non-profit charities one of the greatest novelties

Facts of Life

The world doesn't owe me since it existed before me

No difference of where I live, the real life is inside me

The world is like a camera so I always smile

If no one smiles at me, I seek the cause in my closed lips

A straight line is the shortest way in geometry also in life

Life is swimming in the present pool

In life's play sometimes I need to change the area of the play

Life means living every day and every hour

Still alive because I have more to do

I divide time by my work not to leave any unfinished work

I convert my life to a school for learning

I don't convict my yesterday behavior with today awareness

I always care about my second mistake, the first one is my right

Making mistakes is a necessity of human beings and forgiving is a necessity of being heavenly

I always live in the present time, toward future by taking lessons from the past

Love is a huge ocean that joins two shores to each other

I fall in love with someone who insists on mutual love

Love is the best form of ownership and ownership is the worst form of loving

If I judge people, I don't have time for loving them anymore

To love is the most beautiful and shortest way to God

There is no need to get a visa to seek asylum in God

Facts of Life II

How can I love God who is not seen if I can't love people whom I see?

My service is the cost of the rent I pay to live on earth

I try to be kind without any plan and reason

I clean and polish my heart as well as a crystal

To find the diamond, dig the ground

To make a decision I close the hesitation doors

If I move, I might lose but if I don't move, I'll surely lose

Sometimes I have to destroy in order to build up

Peace's fruit is hanging from the silence tree

I use not only my brain but also others' brain

If you think well you don't need to think much

Thinking heavenly and living earthly means welfare

Winning really means to be better than before

Chance is something like the wind, I don't miss it

Frustration is a delay not a failure, it is a detour not a dead-end

Being unlucky can teach me to be lucky

No one thanks a dry river for its past

For every 10 minutes of anger 600 seconds of happiness are lost

Always the warmest and sweetest sunshine rises after storm and darkness

If you are supposed to shine you must bear burning as well

If u want to change the game rules, first learn the rules

Most of the people don't pray, they just beg

Repeating new behaviors is the only way for changing habits

Practice of High Status

Don't kill, be a vegan & don't wear clothes made from animals

Don't steal, forsake the mates of others & refrain from the false
divisive, harsh & senseless speech, totally forsake covetousness

harmful intent and the views of Nihilists

Don't drink intoxicants, practice non-harm & have a good job

With respectful giving, honoring the honorable & do Love

One who practices High Status

Will come to Definite goodness

High Status is considered to be contentment

Definite goodness is considered liberation

Their means is briefly faith & wisdom

Having faith one relies on the practices

One truly knows having wisdom

RAISED

I was raised, I didn't just grow up
Taught to speak when I show up
To say both thank you and please
Taught to respect my elders, indeed
Lend a helping hand to those in need
Hold doors for the people behind me
Say excuse me and sorry if need be
And to just love people for themselves
Not for what I can get from them, well
I have learned to treat people equally
The way I want to be treated mutually

7 Stages of illumination

First, recognized are the challenges to escape mental tyranny

Second, causes of the challenges are worn away

Third, clearly perceived is the way of escape

Checking psychic disturbance by contemplation

Fourth, clear discernment is the means of escape

These releases belonging to insight are 4-fold

The final release from the psychic is 3-fold

In the fifth stage, the dominance of its thoughts end

In the sixth stage, dissolving are the potencies of personality

In the seventh, the spiritual being stands in own nature as light & purity

Chosen Ones

Endless beginnings - How near?

Non-Existent Self, Now Hear!

Rest assured, serving what serves us

The Supreme, being beyond success

A considerate conscience

Consider it: Consciousness

In the process of becoming

Progressing into Oneness...

Expressing Self through actions

Extending help improves reactions

Abundance is a kind of detachment

Abundance is this kind dispassion

Living to give Love's gift or presents

Gets blessed with energy and strength

Witness investing sense in the Sacred Chest

Royalty interests sent toward our Ascent...

Volunteers

One who comes to help

Without being asked to help

One who is inspired, self-motivated

Who aspires for others, work dedicated

From spiritual practices a volunteer gains integrity

Acknowledged needs to be authority

From accepted challenges comes the strength of a volunteer

Moving beyond boundaries finding he/she is able to do more is a volunteer

A true volunteer does not expect appreciation or reward

A volunteer has such a joy-that joy, itself, comes as the reward

Realizing this filled with gratitude is the volunteer

Waivering from within, the support system is knowledge & good friends to the volunteer

Eternal Soldiers

Who wrote the Bible? Who wrote the Qur'an?
And was it the collision of asteroids
That gave birth to the Earth
For the earthquakes to undertake dinosaurs!
Who made up words? Who made up numbers?
And what kind of spell is mankind under?
Everything on the planet we preserve, can
Microwave and try it no matter what we'll adapt to survive it
What's hue? What's man? What's human?
Anything along the land we Producing
Consuming, eating, depleting trees chasing paper
Gotta have land, stocks of crops on acres
So I can rap facts just for your Love of Money
No pressure frees the natural force to come through
In a world full of 62 fake shapers
Gypsies, seances, mystical prayers
You superstitious? Get some incense lit
With a wish for the sight of life
Like a few forgot God is All Love & Light
Giving heals all parts of me plus I feel it
Sometimes it's like a part of me, but I got a real big spirit
I'm fearless, yes LOVE's fearless
Don't you try and control my soul
We're unstoppable as Eternal Soldiers

4 Stages of Meditation

Buddhists and Hindus use “Samadhi or Dhyana”

To describe the penultimate stage of yoga

For higher states of profound contemplation

Of beings experiencing deep meditation

First, is one-pointed mind concentration

It excludes desire but not discernment and judgement

Dropping off in stage two is our intellectual function

But what remains is the satisfied state of unification

In stage three, that part of satisfaction departs

As our memory and recall starts returning,

Self-consciousness begins with indifference

Memory, indifference and self-consciousness

In the final stage four, reach ultimate perfection

Transcendental Meditation

Thanks to His Holiness Maharishi Mahesh Yogi

Close to 7 million of us perform TM

By sitting comfortable, turning our sight within

Breathing deep become aware of the body

Waiting about a half minute to bring the mantra in

A mantra is a specific sound, also known as a vehicle of the mind

To experience the source of thought, pure consciousness or the infinite

Om (pronounced AUM) means immortal, eternal, infinite

Subtly repeating Om with no definite pattern or intensity

In between, thoughts may come due to increased mental activity

Or there may be slight movement or some physical activity

Don't worry that's just stress being released

It's all natural on the way to increased health, happiness & peace

This technique is effective to skeptics and those who believe

Get connected to the eternal transcendental Being

This is known as automatic self-transcending

TM is done twice daily for 20 minutes in the final 2 the mantra leaves & we just are witnessing

At night before sleep, with the lights off, we sit on our bed and close our eyes

Keeping eyes behind eyelids focused ahead as if in a cave of light

Do it for five minutes and then we sleep with our gaze on the tunnel of light

Being Conscious in sleep & dream states, with Cosmic & God, we unite

Guided Meditation

Please sit comfortably...now close your eyes...imagine yourself to be in your ideal space, wherever you feel the most love & peace the place where no one can invade and where you feel completely safe deepen your breathing from the belly as you inhale feel more love & peace enter your being feel each and every muscle beginning to expand and relax & breathe out any tension you have. Let your feeling, the soul's language, be giving thanks to all who have worked for our creation, survival and evolution, people of all walks of life created from and for love needing to practice honesty, humility, and non-violence to go beyond fear, desire and anger negating the ego and silencing the mind to find a state of pure consciousness & awareness that is beyond word and thought in which there is peace, ecstasy, compassion & liberation. Aha That's Life's Goal. Don't forget to keep breathing and smiling on the way to Life's Goal!

The Benefits of Meditation

With Meditation our physical, mental, emotional health improves
Memory, intelligence, clarity, concentration and creativity improves
Increasing longevity, vitality, happiness and sense of well-being
Strengthens immune response, reduces stress, anxiety aids sleep
Lowers blood pressure, reduces constriction of blood vessels
Harmonizes our endocrine system, and helps our weight loss

Double-Pointed Knowledge

Don't forget it in the object,
also remember the subject

Two ways can be our witnessing

One the mind can listen to the speaker

meanwhile forgetting the listener

Then you forget the listener but know the speaker

While listening know the speaker and the listener

Then your knowledge is double-pointed,

to the known and the knower its pointing

When reading simultaneously be aware of the reader

This is a practice for becoming the third or observer

ALL 4 1 & 1 4 ALL

The reason the Universe exists

To Experience Consciousness

Indwelling being, the higher self

Not body nor mind, the inner self

It's the underlying consciousness

Primal matter is not conscious

The mind is something material

Like Emotions, Thoughts & Ego

Primal matter's manifestation exists

For our indwelling being's experience

To gain mastery over external factors

And our true nature has the answers

Detached consciousness of external

We start to detach from the physical

Then from emotional, mental, egotistical

Returning to nature of Pure Consciousness

This is Self-realization or True Liberation.

Transcendental Consciousness is Pure Consciousness

Of Beings connection with Consciousness

In Cosmic Consciousness there's a silence

That pervades waking, sleeping, dreaming

Forever, Happy is Transcendental Being

Universal Love overflows God Consciousness

Cosmic Life becomes Absolute Contentment

As Above, so Below

When we first took on a physical existence
We could maneuver just as Gods
Now that's how you get your Atlantean periods
In those particular days the physical world was like a faint shadow
While the spiritual world was clear as light
As the vibratory rate fell and we became more entasted to the physical
The spiritual world became a faint shadow and the physical world became visible
And we sunk lower and lower into HUEmenism
We used to have multiple gifts of clairvoyance, clairaudience
That was reduced down to the five senses
That God form was covered over with the elder seal of an elder sign
And it was covered over with the physical brain
So the physical brain is the enemy
HUEmanity is the enemy
Just under the physical brain is the primal world which is the pineal gland
We're talking about an incubation period which the inner world (the pineal gland, kundalini, the chakras)
And in space the stars are the souls that are down here in our bodies
And we are dreaming outwardly and we have a series of dreams
That we call the illusion of the phenomenon known as reality
It's nothing but a trip from the brain that gives us a series of illusions that don't exist
While the soul slept and as the soul slept the series of dreams became known as the ego
The ego the self that you identify with now that which you call yourself a HUEmen

Chain Reaction

Thinking out LOUD, LOUD
What are we revolving around?
Don't we need trees to breathe?
Technologies increased our needs
Treatments price Preventions fees
Minorities owning banks & companies
Loaning majorities cars & residences
System forces us to watch the media
To work for money, its main criteria
With the system in debt, real knowledge, huh
Why not invest in sense of the chest?
Be more interested in Essence's inventions
For Life's Light is Love minus attachments
When we love things and use beings
We lose grace's glory due to greed
When the Artificially Intelligent feed
Superficial needs, how can we get free?
For sufficient resources we compete
Instead of co-operate to share energy
When all of us were created Equal
Then who are you to cremate Egos?
Bosses just making us follow
But it takes leading by example
Each one, Teaching the others
We're all sisters and brothers
Potential Fathers or Mothers
Actual Lovers of one another.

ToGetHer

I treasure yoU my endless pleasure

Whenever, Wherever let's Be together

Life with yoU just gets better and better

I want to Be with yoU Forever and Ever!

The Cosmic Being

The Universal head gives & receives thoughts
The passing clouds are like our passing thoughts
The rainforests, forests & jungles are lungs
The rivers & lakes our veins & arteries
leading to the sea & ocean of our heart
heart beats love like the sun radiates to life
And the moon in the mind reflects its light
The mountains & hills our butts & breasts
The winds are in motion like arms & legs
Sweat & tears fall like snow, hail & rain
Sexual intercourse is the meeting of yin yang
And giving birth is like repeating the big bang

Achaemenid Lineage

Some of the smartest money
Can't teach the average political dummies
Firing missiles, turning the youth to mummies
Yet can't find food for the starving tummies
It's not like your future depends on it
Yet keep the animals in the zoo
Because they make big money
This is how the media pillages
On the TV the picture is savages in villages
And the scientist still can't explain the pyramids, huh?
Stereotyping the image of the images and this is what the image is
You paint your nails black and all of a sudden you become Gothic
Man's belief told for the relief of his soul and even the buried bones
Some of the worst were Nazis the world has ever known
Now Jews put the worst on display so the world can see
And that's all the media will ever show, so can we ever feel at home?
Tricked by the beast, where they going for the monster is fully grown!
Achaemenid lineage Rome still can't defeat and could never clone
My ancestor's DNA imprints my soul to be forever grown, Lord...

HAFEZ

The interconnectivity of things creates God out of none,

Is a mystery that no created being has solved.

The chamber of my vision is your threshold

Show courtesy and respect for this house is also yours

O Beloved! What idol has your religion converted to?

When is our blood more lawful than the milk of our mother?

What shall I call "Existence" when the knowledge I have isn't me?

And to whom should I claim "Non-existence" when all I see is She/He?

Wearing my heart on my sleeve believe my soul longs to be consoled by you

Am I coming or going? For I'm looking forward to hearing from you...

The holy musician creates the Sema sphere for those bound to be ecstatically eager

Now the melody of thy assembly makes the sky dance

That **Hafez's** sweet poetry is the speech of romance

HAFEZ II

All who come into the world have the mark of the beast

Don't ask where reason has gone, in the belly of the beast!

Like the dust our bodies don't ascend as from the stardust we've descended

Count your blessings to receive more in consequence!

How can I practice patience when I am so dependent?

Who of you will send this prayer to the King's servants?

Not neglecting beggars, sovereignty is a true privilege!

The dervish, thou doesn't ask? And I fear what it isn't!

The worries of recompense and concerns for forgiveness

Do you know what that mole is on your eyelid?

A dot that fell from the i, dot it, to not doubt it!

HAFEZ III

I am one bit by your very own Adam's apple

Beneath your dimpled-chin are many souls

O Heart! Hear the wise counsel that is closer to the Soul,

For youth to prosper, heed the wise man's counsel.

The tavern's water has flooded the ascetic's cloak

The tavern's fire has lit our reason up in smoke

Hafez! Wash your religious garment and now be reborn

For from the religious garment of hypocrisy fire has formed.

Within the shape of the rose leaf, the rose-water hides

Everything happens on time, like blessings in disguise

The bar closed for us to open up to detoxing, we realized!

Abandon idle talk; and consume the mind-illuminating wine

For the candle burned idly, while we were conversing last night.

Whether shepherd, king, conscious or high,

In life's raffle a ticket is necessary to buy.

HAFEZ IV

For every form witnessed has its archetype in Infinity
The form has transformed matter to rest in Eternity
Every face you've seen or names you've heard
May've passed but don't regret that they've left
Discovering the body's temple uncovers our soul,
The world's cup is pure love, all who drink are whole.
When the tavern's host becomes my heart's companion
My blood ferments to wine my heart's cooked filet mignon
When our vision's decision sees all as God's Children
Thy will be done, Holy Grail your Trail we'll see Wisdom
Love's work goes under the covers to purify us lovers
Involved for us to solve and evolve into our Beloved
When all of a sudden my heart saw Love's Sea,
It left me and leapt up singing, "Where are we!"
The radiating light of the Sun's resplendent rays
Trace the sky like passing clouds on any given day

HAFEZ V

Last night I delivered a message to the stars
Sent the moon my regards to take care of us all
I prostrated myself in prayer saluting the sun
That transforms stones to gold by reflection
I bared my breast and showed my beauty scars
Cheers to the Beloved, who drinks our blood
I sought to and fro to quiet my inner child
Hand's that rock cradles, also raise child's
True nature-fed inner child's stop weeping
Surely mature best the time we start weaning
The heart's home has always been our Unity!
How long will our monkey mind climb trees?
I am speechlessly selfless for you must realize
Mortals are given life just to become Immortalized!

HAFEZ VI

Now Here is nearest for seeing with proper vision
Where the body becomes the Soul's instrument
Conscious of hidden treasures within the chef's recipe,
The soul kitchen's main ingredient is Love's specialty.
In this world's marketplace don't seek contentedness
For the Creators are the most joyous and conscious
Those with purely polished mirrors as hearts
Are capable and able to perfectly reflect life's art
If the poor lover scattered his heart's counterfeit part,
Don't worry for his matter completes another's part.
Although I am far from you, you are far from none:
For my hope of union with you has never gone!

HAFEZ VII

Hafez's tears have cast pearls into the sea of patience and wisdom:

He understands the pleasure of love's pain remains forgiving.

Of Supreme Excellent Intelligence is the holy soul of **Hafez**,

For our gray matter, none better lights those stardust particles.

If I am good or bad, you just work on yourself:

In the end, every one reaps the seed he has sowed!

Since then the time has passed when I judged people

For only when beings are in love they all feel equal

I shed so many tears praying for rain in our soul

For I want to plant love's seed in the heart of all

You may say that our conversations save nations,

Or to rephrase it, human relations shape nations.

RUMI's SHAMS

Where art thou who went to Mecca
For thou art the host of the Kaaba
Return to serve The Beloved Here
You will see your Lover everywhere
You spoke of that places fine signs
Make known signs of its designer
What are flowers relative to the field
Or pearls for souls swimming God's Sea

SEMA

Which is the ecstatic dervish mystical dance
On opposite shoulders we place both hands
It may be easier to pivot on the ball or the heel
Start spinning counter-clockwise like a wheel
Gaining momentum, our arms go to our sides
Right hand's palm faces up for the sky
Left hand's palm down to the ground
Sema is done with surrounding sound
With a free mind state from time & space
There our heart's become the prayer place
Where the 5 senses become our prayers
Connects us to our true spiritual nature

Divine Dance

I'm like Wizard Merlin
Whirling, twirling, swirling
As the worlds are spinning
Counterclockwise turning
Sema (heavenly) dance
Ecstatic, Euphoric trance
Poetical Mystical romance
Where dancing, dancer and dance
Fuse for truce, issues diffuse
Soothes moods to improve
Moves you to fine tune
Inner and outer volumes
Find your groove and resume
Spinning around like spinners
Knitting the ground to sky like knitters
Essential sounds and signs deliver
Selflessly you'll return to the Giver
Of the Ocean's Soul from its rivers

Spiral

Twirling, whirling epitome of cyclic infinity
Concentric, eccentric, eclectic perfect symmetry.
Icon of the self-revolving, always-evolving mind
That accelerates at an undefined pace
Yet simultaneously creating space
As we contort higher and higher,
Longer, yet stronger from our seminal womb
Spiral of the worlds, creator and cremator.
From the microcosmic, ubiquitous double helix, spanning
All the way to galactic proportions of demands,
Dwarfing stars like morphing atoms, whirling
Let us spin, encircling life, elevating with every twist,
Following only the path we set before despite discord;
Who could have even imagined this?
Growing, never slowing, taller so wild,
Connecting this innocent brainchild
To ever-expanding wavelengths of knowledge
Powerful only when it gets acknowledged
Indiscernible to sequential thoughts of college
Kinky, ever so slinky celebration of the circle's cycle.

TRANCEnDANCE

Regarding the real as invisible
Opens our eyes to life's miracles
I said, 'O heart may you be blessed
The circle of lovers you've witnessed
And also have the insight to foretell
What comes up out of our heart's well
O soul, how far you go with each breath
O heart, how you beat with every step
O bird, how you speak tweets and chirps
From water and clay baked our bodies
That Stir-Fry in the material kitchen
To jump up out the pan of existence
Then I was cooked into shape and shade
That's when I was given a face and name.'
The day soul's take flight due to your scent
They know the Beloved is all that's meant
As soon as the perfume's fumes have left
Our neurons desire for synapses to connect

TRANCEnDANCE II

I've cleaned the skeleton's out of my closet
For unconditional love I will become selfless
To gamble in this love is our soul's best bet
Peace is the cost we're paying to ascend
My soul in pursuit of that Sun of Eternity
Is hovering all around Existence's Sea!

Ecstatic when we are seated on top of the world
With two different bodies but with the same soul
Green Gardens and scenes of birds transporting
Us into the forest where the stars were glowing
United we can show them the moon's shadows
The greatest marvel is that in a seated position,
Our soul travels by visual astral-projections!

Soul's Romance

Her every glance is the high of romance
Every man dies just to hold hands
And go where soulmates dance
Those uninvestigated lands
Unbuttoned shirts and unzipped pants
As man enters woman both give thanks
For fully uniting and trusting instinct's plans.

The Cipher Session

Now is the moment of truth
how about atonement to regroup
Interacting consciously in a group
as the members speak in any group
remember solely one and only one
will have the most powerful thought
at any one point in the discussion
So focus your energy on this person
for the thought to be better brought out
when it's your turn to share: Speak up
be heard, but not at the cost of the crowd
nor the price of others receiving messages
Value speech to increase energy passages

StuDio

In the Stu-to-Do whateva I assign my mind to
Zero to sixty in seven point six seconds
Wind surfing out the window dancing love
Shifty head's like "You doin too much!"
Checking the flow poetry's perpetual, remarkable timin'
Stop the chase, we'll be meetin beyond night and day
We don't fall out, boys will continue to make noise
It Be I, and class is still in session, aristocrats wear the crown
Of true hearts pumpin' blue blood down our sleeves
Me in the mood to be nude, don't get no attitude
Heal figures go with the groove of gratitude
"L.A. Lakers got a legendary team!
Like King James getting four rings"
Maxin' Wells for whateva, whenever, whereva...

Dope Music

I care to share

For the welfare

Of all out there

So I prepare

Rhymes in pairs

In my spare...

Time, entire couplets

Aspiring up inside the mind's cupola

Rare designs of the mastermind's signs

Prepared to spellbind give sight to eyes

Seeking to rise and climb on Divine stairs

Allies aligned and assigned in lines of chairs

Our soul's lying bare smilingly stare

Singing song's lyrics in times of despair

Music's drug being prescribed everywhere

ART

Art's a direct communication
Between Artist's imagination
And the witness's imagination
Reason comes from imagination
Art is its clearest, manifestation
Creator is Light, Life is creation
All else is empty in comparison
Music being our common language
Poetry's the language that manages
Reflecting our Soul's understanding
Art between poles of opposite expression
Is known as rhythmic balanced interchanges
Love is religion's highest knowledge
Scriptures are poetic, no coincidence
That significance showing the affinity
Closeness between Poets and Mystics
Poets are Mystics in some moments
In which they are given glimpses
Of the Love World mystic's live in
And through the heart, mystic's live,
Poets sometimes arrive at the heart
For moments, but live in the head
Reality experienced, needs a passage
Whatever mystic's do is poetic
For mystic's prose is also poetic

Within the ink of a pen

-Within the ink of a pen-

Ahead of time genius can be found

where words wait in lines for now

-within the ink of a pen-

For hands to extend and write down

about sacred feet touching holy ground

-within the ink of a pen-

Graphic paragraphs surmount and surround

Dependent & Independent clauses abound

-within the ink of a pen-

Musical lyrics are written for songs to amount

Spiritual antics of fans sing praises out loud

-within the ink of a pen-

Visions are uncovered by writers

In between the minds of readers

-Within the ink of a pen...

P-O-E-T

Now supporting the club's saints dancing with scholars
We got a thing for that groovy, happy friendly, bravada
That B.C.A.D., Word play, Sources Mowlana
We need unfulfilled fantasies, they appear making us happier
I'm hip like hop, man, and my scotch got her to talk
A hour later put the magic stick in the love doctor
Them sick figgas in her ear saying they think about her
I got the chick by the bar trying to get a drink up out her
She like my style, she like my smile, she like the way I talk
She from the country, think she like me cause I'm from LA
I ain't that figga writing to Allah cause I want to get ahead
I'm that figga rhyming for Allah cause I want holy bread
I should care less, global reform happens in our beds
Slick, spit that back, rant and rave, rap some, play the kid
Look baby this is simple, you and me
You evolving with me, you involved with a P-O-E-T
I was told before Life's a school, 'veryday we learn a'new
I keep my friends, some ends, and some jewelz
My dolla's on knowing self 'til I'm focused
I got on way less; She? Got on skater shoes
I'm stopping at our villa in the summer, by the Sea-
Shore you can have her, when I'm done I ain't gon' keep her
Man, beaches come and go, every figga living knows
You saying it's secret, but you ain't gotta keep it on the low
Chick, choose with me, I'll have you stripping in the beat
Put my other clothes down and you get to have a seat
Now Nikki's my chosen queen, she always comes out ahead
The last figga she was with cooked delicious with her bread
Getting her dough out of pocket, all good charges and a tip
Sowing the seed for need not greed the matta to fix
You give and take in this life, again its two ways, that is

MystiCal Poem

See a world in grains of sand
And heaven in the flowers
Hold infinity in your hand
And eternity in an hour
All this cosmos is suffused
By me in form Unmanifest,
In me all Beings must exist
Although in them i never rest
The earth, the seas and skies
Sun, Moon, and Stars are mine
Within clouds, silver linings find
The Creator of every being's kind
It were a vain endeavor
Although i gaze forever,
From outer forms i can't win
The inner glory that's within
Essence is the Soul of Universe
Not existence nor nonexistence
The formless is the Self itself
That through forms is expressing
Preparing the endless festivity
Elevating souls from down deep
Uplifts them in palaces of peace
They shine in gardens redeemed

Abstract Rap

Your glance is the moon's laugh
Seen through colorful dreams
Eternal purity of everything!
Water, Flowers, Gardens
Your sight is infinite
Candles, Lights, Moons, Suns...
O forever rising dawn,
The pure light of altars
The righteous virtue of all
The laughing moon's altar
That laugh is the Sun's mirror
In your gaze: freely dancing deer's
Deeper roots, sweeter fruits from life's tree
That loving green field with no peak
Leaves fall from your Garden of Speech
The existence of Gardens and rain its fee
Your enlightenment's within Love's Divinity
The Sun and solar systems
A green spring sees my vision
Enlightening my 'i' sight
A spring day's wide smile
The soul's scent fresh in memory lane
Of morning breeze and the smell of rain

RAP GOD Rendition

O you Mi Amor and I your Corazon, Love's the road to Freedom
Get on then I'm boarding immediately with these songs I've spoken

And we should have rosen

I'm the walking dead, lovestruck talking head, a mummy floating

Trust my guts for love keeps growing

I'm out of comments to doodle, we have something in common, google

I'm a sober man, save yourself the harm and pay homage, pupil

Fix we, apply transparency's crucial

But it's honestly futile if I don't utilize what I do though

For good at least once in a while

So I wanna make sure somewhere in this chicken scratch I scribble and doodle

Enough rhymes to maybe try and help get some people through tough times

But I gotta keep a few punchlines just in case cause even you unsigned

Rappers are hungry looking at me like it's lunchtime

I am where love and life come together

Man's king of the Motherground, but I feel that life is on a narrow march grind

Flow to crunchtime, but sometimes when you combine

The Grim reaper with Father Time

You get a mixed bag when they want to fight,

Treasure your life at all times instead to deny that is the wrong answer

Life for its sake trying to make a way for heaven to form Celestine

Put all the arms in a fire of our oven to slaughter the evil mind

Free to bless always wishing that now is great with love for God, our Light

Morphs into an immortal coming through the portal

You're stuck in a time warp from 2000 though

And I don't know other than Love what you rhyme for

You're anointed as Rap God: a BeLoved reborn

I Promise

Love always above everything else

Virtues forever in Beings Self

EDucation

Education actualizes our potentials

Real education is to give us outer and inner wealth

Right education is to bring us more health

True education teaches you to be yourself

Earth is a school to learn about ourselves

We ultimately are an expression of cosmic intelligence

We are here to show ourselves in thoughts, speech & deeds

And through our daily lives we go through all kinds of experiences

Experience means knowledge gained through tests

Every experience in life is a set of tests

To demonstrate our divinity in thought, words & action

Passing tests of thinking, speaking & acting with love, self-mastery, wisdom

We get to know ourselves and others on a deeper, closer level.

The more we pass these tests the more we identify with our Divine Self

The degree of total purification means graduation from planet Earth.

DREAMers

Lying under blue skies,
Miles away from home.
Breaking free of ties,
Letting our minds roam.
Dreaming endlessly,
Making new plans.
Seeing as far as I can see.
Drawing hearts in the sand.
Driving on winding roads
With no set direction.
Not worrying what the future holds,
Just knowing there's a connection.
Watching the sun set under clouds.
Counting the stars, sharing wet kisses.
Our bodies wrapped in golden shrouds,
We decided to exchange fuck faces.
Rolling down golden green hills,
Bringing up childhood memories.
Laughter echoing those thrills,
Events unfolding into stories...
Told as the aftermath of History

Trust and Doubt

Whenever we do believe
then and there enters disbelief
Disbelief is a shadow of belief
belief naturally brings disbelief
First is belief, secondary is disbelief
Stopping beliefs drops disbelief
Starting to trust in our doubt
we'll adjust within and figure out
that what was inside real doubt
transforms within and turns around
into true trust just being found
Trust and doubt are within, belief is from out

I don't speak, I float in the air wrapped in a sheet
I'm not a real being, just a ghost trapped in a beat
Speaker boxes release me of my trance, so party and dance
I translate as my voice is read through an echocardiogram
The noise instead transmitting Life Lines straight ahead
To uplift all spirits becomes the only choice that's left
Right now see your soul Opening wings take flight
Like the GOAT Michael "Air" Jordan in his prime
Teach tongue in cheek let students stick out their tongues
Begin French kissing miss and mister now speak in tongues
There's a certain intrigue within our physique, a witnessing energy
Its mystique seeks to show the unique, even though it knows unity

Hiding in the cloudy mind

There is no Truth to find

Where to see the Light

Never Frees the Mind

Then why do we confine

Risks daring us to be Alive

Taking us to the other side

Of the beliefs we've defined

To change our dream of life

Will sees a need to decide

Sober

Triple 5 Soul

Always "life's game, never life for life's sake!"
What can I say? If my life was a bridesmaid
And the bride was our aim, I'd be working five days
Seeking my life's fate, wide awake while slicing the pie, five ways
That's why I may have come at you with five plates
How can I have five dates and keep my mind straight?
Now I can't go out on blind dates with blind faith!
Life's Art can give back love it's divine grace,
What else can I say? Rhyming's fun as child's play
Yes, I really would love for you to smile all of your days
As if there were no clouds in your sky filled with sun rays

The Ride of Life

Yo, I got the munchies for rhyme productions
Speaking the truth my sweet tooth's function
My definition of success is your consumption
 Perfectly presenting love's expression
 Can the infinite be given an extension?
 Commitment grants us with perseverance
Education's graduation is in living selflessly
I'm eager to work, how can you employ me?
Paying those bills while you buying these styles
Swallow pride to shrink egos on this thrill ride
Loving our heart's space with Life's flowing Art
 The Supreme Peace of Unconditional Love
 Both sides Receiving to Give and take part
In Existence's Meditation, breathe to get higher
Souls responsibly driving street cars named desire
Witnesses experience displays of light and dark
Who's gotten out alive from this amusement park?

Relay Some Sips

The soul's purpose to be of assistance

Taking pleasure's measure is significant

I want to relay echoes and reflections of eternity

Messages of love spoken with affection for infinity

The reason for the rhyme & uplifting vibes of music

As our feelings are the universal lingua of the spirit

Getting the mood right with soul food, sublime

Fine mind wine spillin', filling up on divine light

Seeing witnesses beyond space, energy, time

Unites us on the transcendental air flight

Mi Amor

LOVE is as high & wide as the whole universe

Giving birth to many suns, moons & earths

LOVE is our Soul's reflection

Shining the World's perfection

LOVE is living to give affection

It is giving directions for protection

LOVE is the treasure that makes us better

Living it is a pleasure beyond measure

LOVE forgives & forgets itself

And lives to give of itself

You are always on my mind...

With you I transcend space & time

The state you bless me with is the highest mastery & art

Positively changing days from sunrise till after dark

In my mind's eye you are all I see, near & far

The way home is through each other's hearts

Lovers together each other discover & find

I wonder if you would mind if I call you mine?

Woman Man Romance

A one-man band turned into a woman man romance
It was once for love, light and life now we fuck and lie, damn...
We've come down, now we feel deserted and used
Didn't learn to love enough! Forget who did it first, discover you!
Am I supposed to tell this world what we've been through?
It's smart to find the truth, the news can truly pay our dues
Don't want this to hurt, but what you deserve is the truth!
Don't take it personal, I just can't say this in person to you
So I revert to the studio, like my soul-is-all-rhymers
Don't have to be reserved in a booth
I just feel like the person who I'm tuning into is you
Reverbable, I pray on songs with the crew like its church
And now that I got you I don't need you
My thirst was at a disadvantage that it pursued
Why do I even do this work that I do?
Give God my hopes preach my raps, sermon and speech
Urge fans to flame this yearning to croon
Because Now whispers Here is too soon
We can't bring There in this world, shoulda knew
To use discretion before I let myself into you, Fuck!

Wife with Man

Cheif's runnin' home with our checks credit the balance
We serve fans worthy acts deserving of our cash
Breathe from the chest's depth, taking steps for your profit
We just want the truth that witnesses, never forget that
It didn't express lack, light and sound back in a chess-match
Best kept yet better when revealed in intimate raps
And guess who just happens to be doin' more necromancing
Actually, only romancing and slow dancing
'Cause she loves to cuddle, more than simply chat
You know our bodies a jungle, let's take time to show that
But she's rised up planned to adjust with him and adapt
Wife with Man, pave their relationship shape their own fate
Lady's been surfing the web and searching the internet lately
Tells me she's been thinking about giving life to a baby,
And maybe this can be signs that she's trying to say please?

See A Sea

The universal cosmic creator
Personal minds its simulator
Space created by observer
Time's designed by events
Spirit is pure consciousness
Mind and body becoming
Unified field of intelligence
That creates the Universe
Cells like stars within our galaxy
Cycle within cycles, a symphony-
Of stars synchronized synergy
Such spontaneous symmetry
Flowing rather frequently
Growing to gather ecstasy

AmeriCause

About to mop up

On the top bunk

Yo, I drop punks

Foes who pop junk

All amongst one

They can't stop love

And raps start us

That spark plug

The smart trust

Our heart's one

O scars the stars

Wit stripes of blood

In delighted hearts

Hu wants some?

Columbus brought guns

And slaughtered Indians

Now the NRA runs US

Shoot...kill just for fun

Blood spilled the cost

Of innocent lives lost

Our predators become numb

But spectators aren't that dumb

They see those broad stripes and bright stars

AmeriCause II

Dying doesn't tic-toc, it tries to split us up
To lie down in the mud body bags zip-locked
In this art to give love Hip-hop in a pit-stop
Zig Zag Zig All is God Spit ones in tip-cups
The frost bit twist off these mics lit lift off
To piss the shit list off they rather see us gone

Than gather to sing along
Slim's apprentice fired Trump
Hitler's shady twin's a chump
He'll be capped on a bill
By another run of the mill
Tied to a string of Masons
Puppets free but in cages
Their shit's been stinking
The ship started sinking
As soon as Wiki Leaked it
Sent Snowden overseas
Then tapped Angela's celly
This Democracy of Hypocrisy
Is selling us out, you and me
Beefing up the beast's belly
for the Great American Dream

Home of the Brave Hearts

You can fly reading my lyrics off of this paper before I lay 'em
But please don't take the wings out these words before I say 'em
Cause ain't no way I'ma let you stop me from creating heaven
 When I say I'ma do something I do it,
 I don't give a damn what you think,
 I'm doing this for we, so love the world
I feed its beings, it's messed up, if it thinks it's stopping me
 I'ma be what I set out to be, without a doubt undoubtedly
And all those who look down on me I'm tearing down your balcony
No ifs, ands or buts, don't try to ask him why or how can he
 Been Unlimited now becoming Infinite
 He's still winning, whether he's on salary paid hourly
 Until he bows out or he spits these vowels out of him
Whichever comes first, forever getting better, never worse
 I'm married to life's game, like my brother to a nurse
 Our gifts a curse unless we get the urge to do the work,
To fulfill our mission on Earth and love the whole universe

The ReaList

Aiming beyond Mars, gonna land on a star
Chillin' with Kernel son, humbled by Allah
But I just wanna be truer than I've come
For this world must have taught us to wake up
Leaving home to lacking a home and living alone now repping for home
Life's progress in the process of Oneness, get shown
Creatin' them raps, it's on I'm a solo MC and in the zone
On the beat forever on repeat, AmiRimA for World Peace
The Forever knows how the moon came into existence
Always the more, never becoming less
Making us match and I've been here sincerely sayin'
I'm in Love, gettin elevated
Drunk so much, I can't even taste it
Girls on the dance floor, I've gotta love this
Break dance, that was created by Sema

Say~! I'm gonna be blunt like it's passed and rolled up
I'm the hotness, that just got blazed
DJ, pun de replay, keep on breakin 'em off
Bring it back just for good ol' sake
Still extendin' love for the women, they high
Getting to the bottom of it, no lie
Unraveled the code in the libros alot
Your Boy La Familia and we next to God
I got the beat where the music is live
Rock to the beat like my will to survive
Light my fire till we all feel higher
I'm in the streets, but home keeps me hired
Baabaay! Watch Shepherd rock the body
Doing it non-stop, fully grown-up talk and walk it!

If We Ruled The World

Imagine no power, greed, politics affecting nature
Acting on decreasing effects of Global Warming
No fanaticism, dictatorships, nor terrorists supported
No mass media sensationalism or censorship
Imagine no bias, racial discrimination or prejudice
Fathom all living their vision of liberty & justice
More conscious of the way we raise our children
Elementary yet literally, a billion people are illiterate

Why troops are sent out for a plate of knowledge?
On weaponry, we need less than 1% that's spent
For their to be zero, yes no, global illiteracy!
Where there are 3 billion living on less than \$3 daily
Somehow poverty has become the latest commodity
Now turning non-profit charities into a great novelty
Great rhymes wine for the mind,
Delivering some food for thought
Hear the Stars say "The World Is Ours"

If We Ruled the World II

Blessed Beings, Praise life relations
Good Actions cause Good Reactions
It takes our effort for global change
And spread the word about various causes
Donate your contributions to an organization
Fact, shows those who volunteer are happier
Donating blood or bone marrow can save us, hear?
Or donate used clothing to homeless shelters
Another very helpful thing is having foster pets
Try having one meat-less day per week
Make your purchases support your true beliefs
Spread some kindness and the World brightens
For better living, ideal space to raise children
Travel as much as possible before having kids
“As one person cannot change the world,
but together we can change the world.”

Great Rendition

I've got love to brandish the way
You say we're cut from the same cloth
But I guess you fabricate, eh?
Trend setters bring more men than Latter Day Saints
Mystic states, lessen bad luck it's automatic they sayin'
That anything I rap may hand us the way
Back, I stand as the way been flowin' with dat great wordplay
Here to create, a Ladder to bridge & elevate
Common sense's a scholar surely a great saint
Makin' Home as the gateway sadman's ran away
Must have missed why that sandman has came (yeah!)
I just grew from the cave out to space
Pass exams, Cash that, and Graduate
I'm learning that drew a mad plan, congratulate
Many more stuck I rhyme to make a way before it's too late
Why, nasal passages pointing to the way
Set your compass straight time to breathe in
Shakin' your head brain's indifferent ways, save your mindframe
True love won't even need to hold onto anythin'
So give through love that way spend your savings
That's the one thing which outlives everyone the drunk and sober
Orders of man then shows up to be thankin' high gains
Feelin' like I'm headed for a rap legend,
Up to par you'll agree that I rap to get aware
Yet, guess that's the standard I'm held to
Already if tappin mics doesn't tell ya
Who sent those narks to spy, on Angela's cellie
Crooked Sam that's a failure (yeah)
When a president makes a pact the other shouldn't back out of

Great Again Rendition

Soul's gold then civilian's outcome, yeah? (Love!)
Worldly solving, should look to helping its civilians, yeah!
Wait, what was I just about to say?
Oh yeah, let me get out of the way
I know there's people that are still in their own way I just bounced into the game, G I'm Lord
What, I really wanna save this ship, it started sinkin when Wiki leaked it
Why not love Ed Snowden as a pride with guts why no glory
You tell the world a secret just to get knocked
I'd like to give him clout for Expressing (true!)
Freedom of speech, you will see an international hero
Give U.S. A shout—now get the fuck out my sight crooks!
No more whiners, already too much time jokin' rather
I hear you talkin' it, I'm just too real to respond to it
God forbid, why forget? Human rights route in my flows
One remembers King Cyrus's cylinder
'Cause if I choose this we can rewind to the old times we ruled
And I can remind other brothers how I knew it
You don't got the schools, I got in my toolkit
I fulfill true love, y'all fools just forgot
That my soul's in touch with these lawful thoughts
And with High Gospels we're impossible to stop
So you can call this a hospital 'cause it's-not... gonna ever
I'll never let up on the pedal, might as well get the cops
'Cause I'm shinin' for everyone in this genre

Greatest Rendition

Oh yeah, and one more thing I want to mention (what?)

Is you're one dimension

I'm a multi-task and I have one intention

My love's attention, so welcome the fuckin' affection

Muscles flexin', lotta cunts like long erections

And you just stuck the key up in the ignition

And gave me enough ass to flood my engine (yeah)

Light the path, Moses's staff showin' us this and that

Raps could slap box with both hands

Bet you I come back twice as grand (uh)

My rivals never had the title!

The champ's still unsigned telling me I should keep'd on da high note

Love my balls, nuts are just sack-religious

'Til I bust shower cum power and piss off the scene

Hold the mic similar to this still, squeeze

And I shoot from the hip when I grip them things

And your tits and clits get licked with the spit between

It gets better with every wet dream (pr!))

Caps our nights two lips lit sex between the sheets

That's how I call these motherlovers Milf fiends (woo!)

Float like a butterfly, dancing around the ring

I'm gonna sting like a bee

Ain't you a karma offspring

Got dharma as why I'm rhyming

I'm gonna need to put my heart on my sleeve

Amir Ali is rhyme's Muhammad Ali

'Cause I know one day I'm gonna be the Greatest

geNosis

Soul's doses of no emotions
Whose stillness follows motions
Past pushes flows into moments
The future's pulled by our presence
A Precedence of Presupposition
Experience sufficient Evidence
Past initiations, Present invitations
Statically shedding existence
A revelation within momentum
Of the Ad Infinitum Continuum
Now's a foregone conclusion
Much later it's comprehension
Beginning-less manifestations
Endlessly reaching destinations
Inside memory's lane of locations
Piloting automatic self-navigation
Reminiscing active participation

RUMInation

You who are my soul's convenience in the time of sorrow
You who are my soul's currency the time we borrow
What imagination hasn't conceived nor understanding knows
Comes to my soul from thee, so I worship you, O Lord
My amorous gaze dances on glances of Eternal grace & glory
Although the temporal only says half of my romance's story
The blessed favor of the one who bestows omens
And reveals secrets are sung in my ear like hymns
In my prayers thoughts and feelings of thee are holy
Are vital to my signs like a holy matrimony
Marry the Creator for your sins to be forgiven
You are the heart of all living and non-living
If a never ending abundance should grant kingdoms
If a hidden treasure can give all of life's wisdom
I would prostrate with my soul and my face on the soil
I would ask, "How dare your slaves not remain loyal!"
I've gathered Eternal Life comes in the time of union
Rather in no-mind is where time leaves our communion
Life is like the ink that union is writing with,
If I didn't walk my talk, your trust would you give?
Before this I swear I had twenty thousand wishes
All my passion's for that compassionate one, since
From that unseen King's bounty, I have become safe and sound
Convincing me that I am the soul of all the world that abounds
The essential meaning of "Hu" has filled my heart all around
United with "you" my soul travels out of my body to surround

RUMInations

Knowing that you are such a precious pearl is priceless
For all that the world has is because of your existence
Being apart from you is the worst kind of punishment
Please don't punish your kind servants with silence
For those who have fallen into the chain of events,
Can't escape by trying since they're not acquainted!
If the world could ever have any permanence
Consider temporary, those unfamiliar with permanence
How joyous the king that by its queen is check-mated
In such great company are those who are in your presence
I constantly want your heart and soul to be my crowned jewel
How unfortunate are those who don't make sacrifices for you
Your desires are granted by all the heavenly birds of truth
I will tolerate my pain to patiently become more mature
The heart that doesn't burn inside your loving fire
Will never rise and ascend to evolve any higher
There is no end to your faithful worshippers
Every molecule of every atom is worshipping
Feeling there is no need for tyranny
When all is you that is true monarchy

Ol' Timer

Mistas are the sky
And Sistas wanna fly
Then sistas wonder why
Mistas are so high
All my flows remain
All the real are the same
Now has life's main aim
Shifted from being humane?
Why resort to violence
I figure move with guidance
Do you know what our style is
Love's effort is the Highest
You want it just stick with it
You must be committed
To claim it, then back it up
Through loving life we did it
Who to trust this world over to?
When the One percent control you
The Conscious five percent is my crew

Memory Lane

Your glance's the moon's laugh

Within colorful dreams

Eternal purity of everything!

Water, Flowers, Gardens

Your sight is infinite

Candles, Moons, Suns...

O forever rising dawn,

The pure light of altars

The righteous virtue of all

The laughing moon's altar

That laugh is the Sun's mirror

In your gaze: freely dancing deers

Deeper roots, sweeter fruits from your tree

That loving green field with no peak

Leaves fall from your Garden of Speech

The existence of Gardens and rain its fee

Your enlightenment's within Love's Divinity

The Sun and solar systems

A green spring sees my vision

Enlightening my 'i' sight

A spring day's wide smile

The soul's scent fresh in memory lane

Of morning breeze and smell of rain

Legacy

A life to be real has to participate
Or learning through give and take
Being real we do our personal best
Keeps us from the feeling of regrets
Having true character creates destiny
And that leads to shaping our legacy
Giving us a sense of living a worthy life
Being of service we use our time right
Our true purpose being holy divine
That legacy's lasting even after life

Mira, Mirror

In behavior's mirror
Our image gets clearer
Every spoken proposition
Evokes, provokes opposition
Art reflects the inexpressible
Humor is an element of genius
True Love's relevant for genius
A just experience is this life
Truth is ours, error is times
Authors write to give readers sight
Offer us to live like leaders of light
If with others, people didn't compete
They would feel equally as complete
We can't possess what we don't understand
Gained in the process is where we stand
The truth that we normally overlook
Could be fused by naturally looking
Poets express our subconscious
The poetry of life is really superstitious
Uncontrollable are the truly creative
In the mysticism of rhythm, we believe
Beauty reveals the secret of natural laws
True beauty is never clear of itself

Teachers & Masters

Teachers are many, Masters are very rare
You'll meet many Teachers, they're everywhere
they never demand on the contrary, they supply
Teachers give you info and knowledge, which can't satisfy
like talking about a lamp won't create light
that's why people go from teacher to teacher in search of light

When they come across a Master
there is a chance they'll miss the Master
because they come with expectations
and Masters never fulfill anybody's expectations

Our expectations come from our mind
for the Soul to be possible quiet the mind
free yourself from foolish desires and false expectations
The reason an enlightened Master never fulfills expectations
is for us to be more real, light and present
not stuck in the past or far out in the future, but here in the moment

Self-Awareness

If our Soul is the One in All
Then God is the One for All
From knowing our own Being
We'll also know other Beings

Self-Realization

Self-Realize to realize life's real lies and ascend

Absorbed on the Selfless road sources transcend

Drunken Lovers pleasure beyond conscious measure

The Beloved's Always & Forever our chosen treasure

The source of all options is the fount of all solutions

Our resolution's within, it involves Love's Evolution

I A M U

Real beings enter the center of their Presence
Each are sent by request speaking to connect
In quest of Existence's credence for Sun's radiance
Time's Empty in the Maze of Space, better be patient
Best attest moments we blessed and been blessed
Sun's identical to its Mirrors, Seekers witness BeLoved
The Life reflected in the Mirror is the Light witnessed
Gain comprehension of inner self from past reflections
Attain conviction that we are our Creator's extensions
Lose selfishness, become selfless and present True Self!
Let's look over not overlook, stand under to understand
In Reality we're all Believers, validate your own Evidence
Or experiments give accurate meaning to our experiences

The G.O.A.T

The G.O.A.T forever spoke

Boasting through both of those Bose speakers!

BaphoMet

There's several different levels to Devil worshipping baphomets
Human sacrifices, genocides, cannibalism and exorcism
Animal farm's, circuses, mammals and addicts
But I don't get into that, I kick the habit, I just
Beat through the death with weapons that eat through the flesh
And I never eat you unless my lover's meat looks fresh
I got a lion in my pocket, I'm lyin', I got a mind as my rocket
And baby I'm just, rhymin' at your comets
He's ready for war, I'm ready for work
I got a resume of words for any gadget that stays tuned to the core
My use is, heavy as yours, yeah you met me before
I just didn't have as large an arsenal of reppin' before
Marshall shall step in the door raise your head from the floor
Wish your lovely heads start to melt in your sacred chest
Spread to be revealin', get on the floor, let a few more
Met the legends, wedded to their words
AmiRimA's led by the force, just getting along!

The notion of all fervency

The cloud's sounding

Fresh rain on the ground

In all the fields you abound

Now, O illuminated breeze

Of the holy seashores

Open up to me the window

To the garden's of tommorrows

That I heard from night's lips

My heart rests in the Sea

Wakes with the flowers speech

All my moments i pray on the altar of kindness

That you remain for your purity is all existence

If the night is dark and quiet,

Brighter days are on the other side

I breathe in the breeze as i rise to hear the dawn's chimes

Craving the light of day, we'll truly unite

Democratic Institutions, Organizations, Infrastructure

Are mandatory preconditions and necessary factors

Breaking free from tyrannical imposition of dictators

That society's mission will reach its vision

Although this has to be a collective decision

Transformation requires a period of transition

That can be witnessed in all political oppositions

Demonstrated by work strikes and public protestations

New World Order

If we decide to control the size of the globe's total population by decreasing
we will be ready and willing to lead lives increasing in ease and peace
Producing obsessively, consuming excessively, and possessing compulsively
will leave the whole world successfully as our need decreases to control for security
Yes, our lives meaning, purpose and evolutionary thrill will be plenty to satisfy
Life styles will slow down gradually
while people become more aware gratefully
they show their kind appreciation gracefully
Pulsating between steps for the next meaningful meeting
each speaking stories of visiting souls exploring the outer reaches
discourses revealing, unfolding secrets to keep tight hold of the holy light
and touch others in much more ways than they could or would before the insight
Now it's just to know this much, trust me: we came from the high Heavenly skies
for Heaven should also be found down here on such ground, so rise up and shine

illuminotti

If we knew more about the money system
We would revolt like soldiers on a mission
Central banks are cartels of governments
As their partners granted by our politicians
To create counterfeit money causing global debt
They disguise the cost and hide those at fault
Hiring citizens as slaves to labor their wages
Tax was regulated for us to pay politicians
That debt plus interest to central banks
The secret agenda of those bank owners
Is total global reform planning to control us
Secret societies controlling supplies
Got their eye on our souls like spies
By controlling money, energy: food, water
Health the media and seeking to privatize the net
Repeating their mistakes is a policy of dishonesty!
The illuminati are shifting the shape of the world
Into super states beyond nations to control
They have created populations of prisoners
Planning to cremate most of those inmates
Distorted destructive world view of scared scarcity
That in fact has created desperate governments
A new World View sees this crisis as a catharsis
Let's actively participate locally for global renaissance...

Epitaph

Don't stand at my grave and weep

I'm not there, for I don't sleep

I am the winds that blow

I am the diamond glint on snow

I'm the sun on ripened grain

I'm the gentle autumn rain

Awakening you in the morning hush

I'm the swift uplifting rush

Of quiet birds in circled flight

I'm the soft stars shining at night

Don't stand at my grave and cry

I am not there, for i did not die!
