Messy

Boner hangin' down my leg
The balls matching the set
My brother named his ling Vet
Let's stop dumping over the net
My papa wish I judged the Press
My mama wished I was the Prez
So my next move must be my best
Yo my next mood must be honest
So the lifestyle y'all can respect
Had to leave the woods in Brent
Yeah I had to be in the hills of Bev
In every song gotta re-invent, self
So I never pulled up just to flex
You know I must bring the set
I gotta put the rumors to rest
You know I gotta be earnest, yes
You know I gotta build a nest, yes
You know how messy it gets, yes
You know how messy it gets, yes
You know how messy it gets, yes
You know how messy it gets, yes
She lovin' how I make her undress, yes
She lovin' how I'm makin' her wet, yes
She lovin' how I'm making her sweat, yes
You know how sexy it gets, yes
All that pumpin' up your chest, yes
And All that talk about the best, yet
Yeah, you know how messy it gets, yes
Figgas gotta to pay me a check, when
When everything's get's put to bed,
And everybody takes a breath, then
And everything gets addressed, then
It's you alone with your regrets, then
All that pumpin' up your chest, yes
And All that talk about the best, yet
Yeah, you know how messy it gets, yes

Like, we weren't supposed to come up with something this clean you know
what I mean
Messy

Soul Singing

LOVE is as high & wide as the whole universe

Giving birth to many suns, moons & earths

LOVE is our Soul's reflection

Shining the World's perfection

LOVE is living to give affection

It is giving directions for protection

LOVE is the treasure that makes us better

Living it is a pleasure beyond measure

LOVE forgives & forgets itself

And lives to give of itself

I sing with all my heart and soul

To the one who is so beautiful

Without you I'm not whole

You are my better half

The one that I need to have

With you I'm seldom sad

Together we achieve our goals

Speak to me words worth more than gold

I need you now to share control

U lead me to the place of soul

You are so beautiful, love your devotion

always so vocal and open

your honesty makes you respectable

our chemistry is untouchable

You are always on my mind...

With you I transcend space & time

The state you bless me with is the highest mastery & art

Positively changing days from sunrise till after dark

In my mind's eye you are all I see, near & far

The way home is through each other's hearts

Lovers together each other discover & find

I wonder if you would mind if I call you mine?

Rap Icon

**You wanted your name in lights,
“Look who’s now appearing.”
You’re told that your star’s rising,
But your conscience is disappearing.
They craft your image, immaculate.
Everyone sees your face.
Some seem to speculate.
Truth dissolves without a trace.
So now that your path is chosen.
Your age of innocence has ended.
Your life’s a little bit frozen.
Only wanting to be befriended.
So now you’re a bit iconic.
Your theme is you’re different
But don’t you think it’s ironic.
It’s you your friends have missed?
Look at your reflection.
What’s it the people question?
Dollar signs in their eyes
As the bottom line of the times!
Success, in all fashions.
Some don’t like you, surprise.
So, you hang your image on nylon.
Another fallen rap culture icon.**

Rap's MVP

**My lyrical rituals so habitual
I'm rhyming musically mystical
Spiritually indivisible invincible
Invisible miracles visible in physical
To the simple yet celestial individuals
Half-Man, Half-Amazing
Rap fans my raps blazing
Trail souls of star dust
Holy Grails to Mary Us
And Hail I Siassi
I Am Amir Ali
Issa is iLA Rima
MC AmiRimA**

**Hate it or love it, the underdog's on top
And I'm gon' shine homey until my heart stop
Go 'head envy me, I'm rap's MVP
And I ain't goin' nowhere, so you can get to know me
Hate it or love it, the underdog's on top
And I'm gon' shine homey until my heart stop
Go 'head envy me, I'm rap's MVP
And I ain't goin' nowhere, so you can get to know me**

RAPture

**O Angels help me make logic of what's here
I want to make sense of all that is,
yoU know, so I can take steps for our profit
In the trail that takes us out of chaos
Sailing the stream of consciousness into the cosmos**

**My affinity with infinity keeps me in motion
Flowin' existence's ocean heart set on devotion
senses sent to us for our Ascension
Other beings being our Extension
through the surface we reach the depth
to know the purpose of each step
Or show the service of every breath
All's a calling back to self
Within exists the greatest wealth
The soul's loving presence is acknowledged
Our goal of living's passing on knowledge**

**O Angels help me make logic of what's here
I want to make sense of all that is,
yoU know, so I can take steps for our profit
In the trail that takes us out of chaos
Sailing the stream of consciousness into the cosmos**

Real Feelin'

Feeling leads to states of being
So, feel more to be more real
and give life more meaning

Believing begins with hope
We gain some faith
From experiencing this which is Safe, you know
This which is in the body's safe
Is the Treasure in the chest
It has been named Soul or Spirit
I call it Awareness or Consciousness
Where the Whole or Total is
'There' knows no stress for it is at rest
Wasn't given birth by earth or its
beings, therefore death is meaningless
for 'There' always was, will be, and is
the only Presence which ever exists is the Essence
So getting bare prepares us to live naked
Free of all that's fake, nearer to what's real
Really, becoming clearer that the One who made it
Is in All not separate to the ones who feel

Feeling leads to states of being
So, feel more to be more real
and give life more meaning

Real One

**Has the soul of stars
Dawned on my senses
Sober and consciously
Awakening my being
To still keep flowing
To still keep going
Like sailing boats
From coast to coast
However late it came
In whatever shape
Fills the lonely night
Like the sun's holy light
Shining so very bright
Giving us all our sight
Bringing us all to smile
Inspiring us all to rhyme
In the shadow of night
With thousands of fires
Flows this poetry of mine
The soul of star's dust
Has dawned in all of us**

Re-Born

**Yo, you know your naked figures
Worth more than sacred scriptures
Make/Paint angles of ageless pictures
XY's impregnating our XX mirrors
Pro-Creating makes the image clearer
DNA traits chased racing ever nearer
The gene-ration becoming ever dearer
Evolution's process never been realer
Nature selects itself to become freer
Beings protect themselves from tears
From the unknown potential of fears
For love's consciousness to actualize here**

**Re-Born from Love If it's Just Us,
In Us We must Re-Form the Trust**

ReCreation

I'm not inspired by your words of woe
nor the toxic tears of your ashen eyes
pouring pity upon a silken face
lived without remorse upon mankind
Your chaos is your own, not mine,
seething through your every pore
shadowed only by the arrogance
that you are the master of us all
Splinters of your sadistic deeds
sent upon my aura shall not take,
for the mirror returned it unto thee
my will is my own, not yours to take
I shall be golden among the indigo,
soaring above it all, alive and free
while you fall from the throne of bones,
left beneath your religion's withering tree
Coming together It's easier to work
after our bodies meet paper and pen
neither care nor profit whether we write or not
but as your body moves under my hands
charged and waiting we cut the leash
you create me against your thighs hilly with images
moving through our word countries
my body writes into your flesh
the poem you make of me.
Touching you I catch midnight
as moon fires set in my throat
I love you flesh into blossom
I made you and take you made into me.

ReForm

**Reform through civilian's disobedience
Peacefully demand rights and privileges
Futile becomes governments resistance
Worthwhile becomes civilian persistence
The police force and military soldiers
Need to be and feel safe, of course
Even after the present system's course
The goal becomes to minimize the price
And save the maximum number of lives
Paving the way for equal human rights
Craving the light of day, we'll truly unite
Democratic Institutions, Organizations, Infrastructure
Are mandatory preconditions and necessary factors
That independent citizens have to be actively after
Breaking free from tyrannical imposition of dictators
That society's mission will reach its vision
Although this has to be a collective decision
Transformation requires a period of transition
That can be witnessed in all political oppositions
Demonstrated by work strikes and public protestations**

FREE & SAFE EXPERIENCES

REACH GREAT EXPECTATIONS

Refuse

I refuse to lose

I choose to use

My tools my groove

To improve your mood

Remove the gloom

Move with truth

Resume being in tune

Raise life's volume

Pay each a tribute

Praise worthy attributes

Create more gratitude

Generate solving aptitudes

Elevate loving attitudes

Remember

**Remember who you are
However near or far
Together here and there
Better here then there
Better near than far
Remember who you trust
Remember who you love
Remember who you fuck
Whenever you get lost
Remember to give love
Members need to trust
Members need true love
Together feel pure love
However near or far
Pleasures near pains far
Treasures here aims far
Means near measures far
Means here treasures trust
Means here pleasures love
Remember who you are
Remember who you trust
Remember what you want**

Remembered

Dear friends, that friend
with whom we once caroused at night
Her willing services to us
And our delight remembered
And in your joy when tinkling bells and harps are there
Include within your songs the sound
Of love's despair remembered
When wine bestows a smile upon your server's face
Keep in your songs for lovers then
A very special place remembered
So, all that you have hoped for will be fulfilled at last
All that we talked of long ago
Deep in the distant past remembered
When love is faithful and it seems
Nothing can hurt you know that the world is still faithless
And will desert you remembered
If fortunes horse bolts under you
Then call to mind your riding whip
And see your friends aren't left behind remembered

ReFlex

I sided with the maker to outlast
And decided to take the route that
Leads to getting freer, lighter
I'm all about that fly feeling, High Life living
Giving my rhyme more meaning
Seeing or Hearing the One Being
Readying the ground foundation reaching
Reaping official benefits known
Experiencing reality directly from the seeds sown
Gathering together creeds we own
Fathom causes effect and actions reaction
One comes to vision's point of wisdom
Which joins the King to His Kingdom
Hierarchy of beings becomes evident
How we evolve becomes apparent
The past lives dissolve into parallel worlds
Yet unshown but known to have grown from the Soul
I lived in a dead-end not a through street
That's why I was called de sac
A fact I watch ball and talk in raps
And write rhymes for target practice
Lines aimed to take away pain
Bring pleasure to the heart, brain
And all other organs of organisms
Light reflects and sound echoes within,
Without...helping find nature's rhythm
A reason I listen and am silent
look close with open eyes ears to hear
Senses feel the continuous cycle of life's reel
The earth is round no doubt it spins around the Sun
Clouds are like thoughts in the skies mind,
Energy, Space and Time are creations of the Divine Mind

Responsibility

What am I gonna do when I grow up

I'm gonna have to face responsibility

What do I wanna be when I grow up

I wanna do what makes me happy

What am I gonna do when I know God

I'm gonna change my state realistically

What do I wanna do when I show Love

I wanna thank God with praise constantly

What am I gonna do when I know us

I'm gonna make greater memories

What do I wanna do when I show up

I wanna stand up to change consciously

What am I gonna do when I face responsibility

I'm gonna make my stay much more worthy

Avant-Garde

**Cut umbilical cords
Plug life into support
Mates Love the drug
Art forms our blood
While cells brainstorm
Vital signs come forth
Pulses taken to perform
Flows training thoughts
On tracks and songs
For raps to run laps
Relay Meets Dance
Flames fueled by fans
Extended fam expands
Lyrics bridging gaps
Beats mixed to match
DJ spinning to scratch
Rhythm our rhyme's reason
The system of time's seasons
This prism our light's medium
Channeling life through stations
Present relations uniting nations
Preparations of past civilizations
Preservation by space exploration
Foreign lands under investigation
For our race to further domestication
Outer space plans closer to habitation**

Rhyme King

Should I judge or Love beings? It's on you not to hurt your feelings
With my only knowing your presence at last
That One Beings God, I can feel it (It's in us, AmiRimA, you're on)
I'm beginning to feel like a Rhyme King, Rhyme King.

Love showed me to rap like a computer was me and my genius
I got a laptop in my lab and backpack
My mind's like a nine I load it up with knowledge
Make a living, killing ignorance
Ever since Capitol Hill was the House of Congress
Mystic Mowlana Rumi Being Conscious Love's path
I'm a real MC yet my love's beyond this
The one is nude and as recent as all tales, willingly able to fill 'em all with
His forgivingly givingly kindness evolves
You know really whatcha give to be getting it back
It attracts our acts and reactions that's backed by exact facts
To expand your frame of mind I extend these spiritual lyrical miracles
Rappin' rapidly capable to make our deepest wishes and highest hopes happen
Spirit of the BeLoved able to imagine the state of a Lover in Love
Holy realized, I was astonished finding you after the fact of my raps
How could I not flow? All I do is love pacts, feel my master plan
For the track while I'm masterfully constructing this masterpiece

Rap God

**Morphs into an immortal coming through the portal
You're stuck in a time warp from 2000 though
And I don't know other than Love what you rhyme for
You're anointed as Rap God: a BeLoved reborn
You're like formal, I love being normal
My fans just bought this new song played on YouTube
The truth of one man's faith to believe in abundance's plan
'Cause he works hard to share what he earns
And keeps paying dues while day's fade and years pass
Man, woman, imagine us beings able and enabled to channel
Say the way's meant straight to Love that's the destination each and every day
"Great I'm a fan of you" Lyrics coming at you at supersonic speed
Hum uma sama lamassu you assuming I'm a human
What I gotta do to get it through to you I'm superhuman
Innovative Creative AmiRimA's a 100% Lover
Know that anything unloving rolling off me like water off a duck's back
I'm never hesitating, to be forever demonstrating
How to give a mother lovin' audience a feeling like it's levitating
Never fading, and I know that the players are forever waiting
For the day that they can become God, they'll be celebrating
Cause I know the way to get 'em motivated
I make elevating groovy music stay gravitating through it
Oh, he's too humane of a being Well, rap's just say do it, gotta be true to it
His clock ticks to toc walks the talk I found a better way to fuse it
Hip Us to this Love rap Flow on improve yourself and make 'em choose it**

Rhythm

Rhythm....Rhythm

**Rhythm riding rhyme's reason
System speaking time's season
Wisdom teaching life's being
Vision seeking site's seeing
Listen hearing fine feelings
Decision reaching right meetings
Civilians speaking kind greetings
Children needing life agreeing
Children needing life agreeing
Civilians speaking kind greetings
Decision reaching right meetings
Listen hearing fine feelings
Vision seeking site's seeing
Wisdom teaching life's being
System speaking time's season
Rhythm riding rhyme's reason**

Rhythm....Rhythm

RimA Says

**Yo, nothing was ever owed
Everything's only borrowed
Not even promised tomorrow
Empty those moments of sorrow
Fill your soul with feelings you enjoy
Feel at home in the presence of joy
Live Strong play to your advantage
Keeping calm staying balanced
Be immune to praise or blame
Hear yourself in all the waves
Seeing yourself in all the rays
Within each n every one Always
Forever Above Right and Wrong
Is the Unified Field Being Beyond
Itself writing all lyrics of all songs
Without ever needing to speak on**

OtherWorldly MusiC

**Portraying good moods of summer
Hummin' a hymn sounds rapping
So wholly in sync with the rhythm
As if the otherworldly music was leaking
Coming smoothly out of the subject cleanly
Clearly without any kind of interruption
Crowds gathering bursting into eruption
It was magical how easily spells were cast
One was simply majestic, the others his supporting cast
He had that magnetic pull that made him charismatic
Added by a mystical driving force making him enigmatic
Flowing poetry in motion possessed by intrigue
Fatiguing onlookers trying to uncover his mystique
He was a no-body who could've had much more prestige
Then maybe he wouldn't have been able to live with such ease**

Ripe

Do u remember how u came into existence?

U may not remember

Because you arrived a little drunk.

Let me give u a hint:

Let go of your mind and then be mindful.

Close your ears and listen!

It's difficult to speak to your unripeness

U may still be in your springtime,

Unaware that autumn exists.

This world's a tree to which we cling-

We, the half-ripe fruit upon it.

The immature fruit clings tightly to the branch

Because, not yet ripe, it's unfit for the palace.

When fruits become ripe, sweet, and juicy,

Then, biting their lips, they loosen their hold.

When the mouth has been sweetened by felicity,

The kingdom of the world loses its appeal.

As long as you're an embryo,

All u think about is sipping blood.

There's more to be said,

"I" and "U" focus light

like decorative holes cut in a lampshade

But there's only One Light.

"I" and "U" throw a thin veil between heaven and earth.

Lift the veil and all creeds and theologies disappear.

**When "I" and "U" vanish, how can I tell whether I am
in a mosque, a synagogue, a church, or an observatory?**

Rise & Shine

The more my heart gets broken

The more my mind gets open

The more soul's gets awoken

The more stars get noticed

The more lights get focused

The more life's art gets spoken

The more high rhymes get flowing

The more fine times get chosen

The more like minds get closer

The more bright signs get exposure

The more night skies start over

The more sun rises set under

Even after the darkest of nights

The Sun will still Rise & Shine

Neck-Romancing

**Cheif's runnin' home with our checks credit the balance
We serve fans worthy acts deserving of our cash
Breathe from the chest's depth, taking steps for your profit
We just want the truth that witnesses, never forget that
It didn't express lack, light and sound back in a chess-match
Best kept yet better when revealed in intimate raps
And guess who just happens to be doin' more necromancing
Actually, we're only romancing and slow dancing
'Cause she loves to cuddle, more than simply chat
You know our bodies a jungle, let's take time to show that
But she's rised up planned to adjust with him and adapt
Wife with Man, pave their relationship shape their own fate
Lady's been surfing the web and searching the internet lately
Tells me she's been thinking about giving life to a baby,
And maybe this can be signs that she's trying to say please?**

ReverB

**A one-man band turned into a woman man romance
It was once for love, light and life now we fuck and lie, damn...
We've come down, now we feel deserted and used
Didn't learn to love enough! Forget who did it first, discover you!
Am I supposed to tell this world what we've been through?
It's smart to find the truth, the news can truly pay our dues
Don't want this to hurt, but what you deserve is the truth!
Don't take it personal, I just can't say this in person to you
So I revert to the studio, like my soul-is-all-rhymers
Don't have to be reserved in a booth
I just feel like the person who I'm tuning into is you
Reverbable, I pray on songs with the crew like its church
And now that I got you I don't need you
My thirst was at a disadvantage that it pursued
Why do I even do this work that I do?
Give God my hopes preach my raps, sermon and speech
Urge fans to flame my yearning to croon
But Now whispers Here is too soon**

For Life's Sake

**Always "life's game, never life for life's sake!"
What can I say? If my life was a bridesmaid
And the bride was our aim, I'd be working five days
Seeking life's fate, wide awake while slicing the pie, five ways
That's why I may have came at you with five plates
How can I have five dates and keep my mind straight?
Now I can't go out on blind dates with blind faith!
Life's Art can give back love it's divine grace,
What else can I say? Rhyming's fun as child's play
Yes, I really would love for you to smile all of your days
As if there were no clouds in your sky filled with sun-rays**

Roads

**Never losing, Forever improving
Measures of building a better team
Team on the block cruising the streets
Each one of us pursing our dreams
Death before dishonor respect the code
Do or die, G's spotted from the peep hole
I grind hard nightly to shine so bright
I grind hard daily to shine more light
Time after time, Line after line, uh
Life after life, Rhyme after rhyme, uh huh
Rappers mastering rhymes, mastering minds
Rather rise, gather to find patterns of time
Divine designs, signs scattered in minds
Matters arrive answers we find as spirits align**

Rollin' in the Riches

**My mind's a kingdom
Inside which joys I find
That all it needs is wisdom
That earth offers being kind
Though I want what others have
Yet my mind still forbids to crave
No pompousness no wealthy store
No pressure to win the victory
No wily wit to salve any sores
No shapes to feed a loving eye
To none of these I'll yield y'all
But why? My mind serves all
I see how plenty surfeits oft,
And hasty climbers soon fall**

**They're poor, I'm rich; they beg, I give
They lack, I leave; they long, I live**

ContentMent

**I see that those who are aloft
Mis-Haps threaten most of all
They get with toil and keep in fear
Such cares my mind couldn't bear
Content to live, this is my stay
I seek no more than may suffice
I press to bear no haughty sway
See, what I lack my mind supplies
Yo, thus I triumph like a king
Content with what my mind brings
Some have too much, yet still crave
I have little, and seek no more
They're poor, however much they have
And I'm rich with little in store**

Royal Flush

**You pissed me off, dick
I pissed you out, drink
Out my system get out trick
Got high wisdom bow bitch
Love rhythmic flow music
Sound of hearing loveliness
Around for feeling oneness
No doubts please leave me you
More clout hear me through
No clouds in my sky view
So loud those high notes
Pure shouts of fine girls
Pour out those high hopes
Your route only you did go**

**Oh, your trust was doubt
Yo, your luck has run out
Dumped just flushed down**

RoyAll

**I'm living for the gusto
Spilling my guts slow
Feeling my nuts, yo
Seeing your love grow
Beings are one Soul
Free from Personal
You reach your goals
Thru each others forms
Yo, you reap what you sow
So don't keep what you owe
Do teach what you know
Do preach what you show
Good deeds start from home
True reach from your soul
Truth needs love like soil
Roots deep, love's loyal**

**Love's Trust, that's Loyal
Love's Truth, that's Royal**

Companion's of Compassion

**You who are my soul's convenience in the time of sorrow
You who are my soul's currency the time we borrow
What imagination hasn't conceived nor understanding knows
Comes to my soul from thee, so I worship you, O Lord
My amorous gaze dances on glances of Eternal grace & glory
Although the temporal only says half of my romance's story
The blessed favor of the one who bestows omens
And reveals secrets are sung in my ear like hymns
In my prayers thoughts and feelings of thee are holy
Are vital to my signs like a holy matrimony
Marry the Creator for your sins to be forgiven
You are the heart of all living and non-living
If a never ending abundance should grant kingdoms
If a hidden treasure can give all of life's wisdom
I would prostrate with my soul and my face on the soil
I would ask, "How dare your slaves not remain loyal!"
I've gathered Eternal Life comes in the time of union
Rather in no-mind is where time leaves our communion
Life is like the ink that union is writing with,
If I didn't walk my talk, your trust would you give?
Before this I swear I had twenty thousand wishes
All my passion's for that compassionate one, since
From that unseen King's bounty, I have become safe and sound
Convincing me that I am the soul of all the world that abounds
The essential meaning of "Hu" has filled my heart all around
United with "you" my soul travels out of my body to surround**

True Monarchy

**Knowing that you are such a precious pearl is priceless
For all that the world has is because of your existence
Being apart from you is the worst kind of punishment
Please don't punish your kind servants with silence
For those who have fallen into the chain of events,
Can't escape by trying since they're not acquainted!
If the world could ever have any permanence
Consider temporary, those unfamiliar with permanence
How joyous the king that by its queen is check-mated
In such great company are those who are in your presence
I constantly want your heart and soul to be my crowned jewel
How unfortunate are those who don't make sacrifices for you
Your desires are granted by all the heavenly birds of truth
I will tolerate my pain to patiently become more mature
The heart that doesn't burn inside your loving fire
Will never rise and ascend to evolve any higher
There is no end to your faithful worshippers
Every molecule of every atom is worshipping
Feeling there's no need for tyranny
When all is you that's True Monarchy**

Practical Theories

**Love's taken away my theories
And has filled me up with poetry
I had to start clapping and singing
By standing within this strong wind
I am wood thrown in your blaze
And quickly consumed by flames
You that love lovers this is your home
Welcome: in the midst of making form
Love made this form that melts form
With love for the soul's door and window
Their dance becomes our dance
Hearing the inward music we dance
Directed by the one who teaches us
The pure love joy of the Sun
When I'm with you we don't sleep
Without you I can't go to sleep
When I heard my first love song
I knew you were in me all along**

Beneath The Surface

**The universe is a form of divine law
Like your reasonable father of love
When you feel ungrateful to him
The shapes of the world seem mean
Make peace with father, for elegant patterning
And every experience fills with immediacy
Because I love this, I'm never bored
Beauty constantly wells up poured
Like the noise of springwater flows
In my ear and in my inner being, yo
Tree limbs rise and fall like ecstatic arms
Of those who've submitted to the mystical path
Leaf sounds talk together like poets
Making fresh metaphors, the green felt cover slips,
And we get a flash of the mirror underneath
Think how it will be when the whole thing
Is pulled away! I tell only one one-thousandth
Of what I see, cause there's doubt everywhere
The conventional opinion of this poetry is,
It shows great promise for what's coming**

Salutations

**I can feel it in the air
Man's appeal for flair
Glances and glares
Stances, styles and hair
Glittering gold glamorous
Diamonds shining fabulous
Models, artists, and actresses
Wearing fashion design's latest
Sharing a passion for sign statements
And I'm rapping for rhyme greatness!
O Almighty Lord thanks for your support
in bringing out these words
stringing together these works
Living my life in due course
giving my light its true source
Forever one you're the force
present in our souls represented in our goals
The essence reflects the whole
the presence directs the soul
to sense itself perfectly at home....
I propose a toast to our Soul's Host
The Most High or The Holy Ghost**

Salvation

Last dusk in my distress salvation was given to me

In darkness life's water a libation was given to me

Rapt from myself by that pure bright light

The wine of essence of all creation was given to me

O dawn of Fortune moment of Pure Glory

The night's notice of my liberation was given to me

I gazed in Beauty's mirror then for there

My essence shining contemplation given to me

If I was happy then it's no surprise

I was deserving a just donation was given to me

That day a heavenly voice brought the good news

Strength to bear this harsh world was given to me

It was Rima's spirit and the sigh of those

At dawn have risen and salvation was given to me

SAVE LIFE

**Imagine no racial discrimination & prejudice
Fathom all living the dream of liberty & justice
No terrorists, religious fanatics & dictatorships
No mass media sensationalism or censorship
Power, greed & politics have affected the precarious balance
Of biodiversity that boosts ecosystem productivity
Global warming is a Human warning
Stating that action is cheaper than inaction
Literally a billion of us are illiterate
We need less than 1% spent on weapons
To make sure all children get an education
Over 3 billion people live on less than \$2.50 daily
I wonder if we can conquer these monster

Poverty has become the latest commodity
Making non-profit charities one of the greatest novelties**

PillgrimS

**Lovers' soul's dance again happily
When the breeze fans the roses
Never melts hearts too stony
Mine like a sunk rock reposes
In your pussy's well readily
Life's an offering too small
Or it'd be easy to surrender
To you, not needing to call
You alone give more splendor
Than a painter's art on a wall
To myself it's better to die
Than be alive without she
Without a care under the sky
How absence's pain hurts me
A pilgrim on the way of life**

Secrets

Yo, at first our connection was so cursed

Lies and empty promises caused me hurt

Yet, I felt that our sex was very sacred!

Yes, I regret some of them texts I sent!

But you neglected me of yo' attention

Hoe did ya forget how much I spent?

Hoe did ya forget all of the presents?

And remember when I visited your parents

Last September when I paid them my respects

Upon your request how I protected your secret

C'mon now stop pretending to be so innocent

You left me heart-broken so my soul awakened

For our relationship honestly, I did all my very best

With no guilty conscience I live with the consequence

Simulation

**The universal cosmic creator
Personal minds its simulator
Space created by observer
Time's designed by events
Spirit is pure consciousness
Mind and body becoming
Unified field of intelligence
That creates the Universe
Cells like stars within our galaxy
Cycle within cycles, a symphony-
Of stars synchronized synergy
Such spontaneous symmetry
Flowing rather frequently
Growing to gather ecstasy**

Seen It All

**As we live on borrowed time
We have time to swallow pride
Get up rise just follow your light
We just might push sorrow aside
We must find tomorrow's sight
We must side with soul's flight
Let love guide inside to outside
Let love shine light into minds
When life likes, loves all it finds
Then love lights life all the time**

See You

**So hard to see you go, you know
Sweetheart, felt I was on the road
So lovely now to see you home
So lovely now it feels like home
Honestly, I've been very alone
My bed felt empty and so cold
Possibly you treated me wrong
Probably I needed you all along
My chest felt empty and so broke
My legs felt heavy my soles worn
Heart left me steady with more hope
Rhyme's art sets free poetry in flows
Start seeing more beauty in that pose
So, souls get closer wearing no clothes
Then let's take a tour into the unknown
Sexy lady let's explore more our genome
Tell me do you want a baby of your own
Reborn in the other our truth gets grown**

SeeKing

**My body is poetry, though my soul is flow
In unity's mirror we're part of the whole
The body is like a cage, the soul is a bird
Soul needs the body, beings need the world
Within me this poetry is only seeking you
Upon seeing you my soul's speaks to you
I feel that when you reach and meet me
Verses and lines of poetry will greet thee
What do you expect of creation, poet
For visions of dreams are your poems
As everyone has their separate reality
Everyone reflects their own mentality
I'm one body and God is everybody
God's love makes everybody happy
In our goings and comings we create
Time Space and co-create our fate
God's the One in All and the All in One
It's through the opposites we form from**

What you Seek is also Seeking you

See-Thru

I understand you like this song's essence

I understand you right from your presence

I understand your light sentence by sentence

Someone here writes words in your open eyes

Someone there recites words with your replies

I read you in every verse the book of emotions

I feel you much more than looks or expressions

I feel you much more than looks or expressions

I read you in every verse the book of emotions

Someone there recites words with your replies

Someone here writes words in your open eyes

I understand your light sentence by sentence

I understand you right from your presence

I understand you like this song's essence

Selflessness

A while, as wont may be, Self I did claim; True self did not see, but heard its name. I, being self-confined, Self did not merit; then, leaving self behind, did self inherit.

**No end, no end to the journey
no end, no end never
how can the heart in love
ever stop opening
if you love me,
you won't just die once
in every moment
you will die into me
to be reborn
Into this new love, die
your way begins
on the other side
become the sky
take an axe to the prison wall,
escape walk out like someone
suddenly born into color do it now**

**Rise up and go about the Pole of our salvation,
as winds the pilgrim route by Mecca's holy station.
Why art thou slumber-bound, like clay the earth caressing?
In movement shall be found the key to every blessing.**

Services

Through providing services of value

For society useful productions add value

Technically can say working for a cause not for applause is Angelic

Remember Whenever our Means and Measures

are to give each Member Pleasure There's Where

we'll feel Better Together we'll Treasure Forever

Whenever each Member can really Remember

Measure's leading to Pleasure's there's the real Treasure

The real Treasure leads us to feeling better and better

Service means giving

And living your purpose

By the purpose of giving

We're living to be of service

Sharing

Knowing that from sharing

We show that we're caring

They say I'm A RimA

I heard it from Life

The sea knows wrong from right

What we truly are is out of sight

Again, I'll cry out in the night time

To remind y'all of the star's light

Again, I'll rise to kiss the high sky

Being your partner for life

I've learned to empathize

I'm A RimA close to the Water of Life

Yet so tired from the followers of lies

My high rhymes inspire bird's flight

Through words simplified

Souls come back to life

Supplied with water my thirst satisfied

Loving life by being supportive of life

Knowing that we're caring

We show that by sharing

Shoreless

Love's path is that in which there's no shore,
Leaving no choice other than sacrifice your soul.
Happy moments are lived as hearts are in love,
In loving works we show the way we pray to God.
Signs of opportunity display the art of Bohemians,
For the path of treasure to everyone isn't apparent!
Not frightened to be the mind's prisoner, bring wine,
To that sheriff our deputy has never paid any mind.
Our Beloved, like crescent moons, see with pure eyes
Place of this moon's manifestation isn't for every eye
Ask your very own eye, "Who or What pulls us?"
O soul! Not fortune's sin nor the crime of stars!
In no way has Rima's weeping been known,
Astonished that your heart's harder than stone

True Beauty

A nightingale had a lovely flower in its beak,

Wailing and weeping its grief upon that leaf.

“In time of sustenance why the need for lamentation?”

“The Beloved beheld my beauty in this lamentation!”

Beggars can’t feel the Beloved’s presence, why complain?

For even prosperous Kings, His beggars He’d disdained.

Our wants and needs don’t affect the true Friend’s beauty

Joyous those who from the Beloved receive prosperity

Rise up scatter your soul onto the Painter’s canvas

For all wonderful patterns revolve on His compass

If you’re a follower of love’s way, don’t think of infamy;

Even Spiritual Sage’s pawn their garments at the winery!

Happy are the moments of the wandering Bohemian

On chastity belts remember the rosary of dominion

**I caught the nymph natured under the castle’s ceiling,
The ways and means of Paradise are always streaming!**

Heart's Companion

O Lord! Whose house the heart-illuminating candle from?

Our Soul has burned to know, she's the Beloved of whom?

Now she's become the pace-maker of my soul's heart!

So, who will be our bedmate and intimate partner

Never let her ruby wine lips be far from mine

Who gives the cup? Must be the soul of wine!

The sociable fortune of that candle light's ray,

Ask why moths are always around the flame?

For her everyone secretly plots spells,

It's not known whose tale she'll tell.

O Lord! The Kingly One, moon-like and Venus faced,

The indivisibly, incomparable jewel of whose grace?

“Without you, the sight of lover's distraught hearts,

Laughing, she replied: Who is he distraught of?”

Sight

**Your glance is the moon's laugh
Seen through colorful dreams
Eternal purity of everything!
Water, Flowers, Gardens
Your sight is infinite:
Candles, Lights, Moons, Suns...
O forever rising dawn,
The pure light of altars
The righteous virtue of all
The laughing moon's altar
That laugh is the Sun's mirror
In your gaze: deer's dancing freely
Deep roots, sweet fruits of life's tree
That loving green field with no peak
Leaves fall from your Garden of Speech
O my tree of enlightenment
Love's flower and essence
The scent of familiarity
The notion of all fervency
The cloud sounds pours rain on the ground
In all the fields it is you who abound
Now, O illuminated breeze
Of the holy shores of the sea
Open up to me the window
To the gardens of tomorrows**

Freedom-Love-Unity

**The wise are like a sky
Where all the birds fly
Love cast over all creation
That is the true dominion
As lordship starts in Self
Celebration is perpetual
Life can only be relished
Through providing service
Security in inner space is spirituality
The future is Free-Will, the past is Destiny
And the present is the presence of Divinity**

SmoKing

**Inhale, Exhale with my flow

Through Red Eyes watching them
Mind running, Time travelling Yo

Free from Gravity, Feel the ElectriCity
No need for Static – Energy
Liquifying Solid Currencies

Techniques do make us sweat
But don't sweat the techniques
To reach the soul's being
Within your own physique

AmiRimA's poetry deep
Deep stroke white wine and weed smoke**

So Far

**Woah man we got a long road
That's Ok we got a lot of hope
Oh yeah we come so far yo....**

**We've come so far though
Yet we got so far to go
Ok we got a lot of hope
Yo, we got a long road
Become so strong though
We got to love our work
We've got to come home
We begun young to grow
We're numb not to show
Were dumb now we know
We've come so far though
We've come a long way yo**

Oh yeah we come so far yo....**

Belonging to the innocent
Brings more Self-knowledge

Our comically cosmic presence
Self-evolving from knowledge
Secure within Consciousness
Pure intentions extend talents
Already admired, yet indifferent
Respecting our humble existence
While involved in Love's Ascension**

Son's Of Love

**Stars of wonder, stars of night;
Sparks that fell from Perfect Light
When the Universe began.
Embers for the soul of man.**

How I wonder...

**What did You want to be when you grew
Up until the time You knew the truth
That Father worked not only wood
But galaxies and stars
Up above the world so high.
You, who filled the universe with suns
To set the record of Your days
And keep Infinity to watch and wait;
You have all the time in the world.
Father of Inception, Creator of All
And all unknown, Spirit of Conception,
Grant that I may know what do you make of me,
The child of ancient earth and bone?
In all Eternity, what do you hope of me alone?**

God's Sons Son's of Love & Love is One

Soul Sister

For as long as you're in love
With me our love will grow
For our bond was always one
Baby become part of the flow
So, Soul Sister sing your song
Yo, lady come on join life's show
Goal getters live on oh so strong
Maybe better give all you owe
World's better with more to love
Making peace with other folks
Links of a chain building blocks
Spokes of a wheel touring roads
Sung in sync likes notes of songs
Feeling better having more hope
Go with this my soul sis
Notices knows this gnosis
Goes with it to sense closeness
Open to worship your possessions
into mythical proportions
Only to find yourself possessed by it
Mystics uplift spirits revisited
Appearing out into existence
It's what you give that you get
It's best to live with less regrets
Yes, it's best to live and let live yeah

SOUL

The living Heaven thy prayers respect,
House at once and architect,
Quarrying man's rejected hours,
Builds therewith eternal towers;
Sole and self-commanded works,
Fears not undermining days,
Grows by decays,
And, by the famous might that lurks
In reaction and recoil,
Makes flame to freeze, and ice to boil;
Forging, through swart arms of Offence,
The silver seat of Innocence.
Space is ample, east and west,
But two cannot go abreast,
Cannot travel in it two:
Yonder masterful cuckoo
Crowds every egg out of the nest,
Quick or dead, except its own;
A spell is laid on sod and stone,
Night and Day were tampered with,
Every quality and pith
Surcharged and sultry with a power
That works its will on age and hour.
The Lord loves souls as his own self, whY
When they die, then God himself dies....

SoulMate

**HU'd be loved let him possess
A true Beloved's blessedness
And share a secret oneness
Love's mysterious consciousness
Lovers like us none else, I guess
Are found in each other's presence
Soul of the World was the name
Whom my idol made sacred
While I'm alive her I proclaim
The Soul of my World became
None other own's the same place
Of trust and loyalty that we share
So, take me as I am, hold my hand
I promise I'll be the best man I can
Promise me you'll be my best woman
And I swear by you I'll always stand**

**Focus on me harder, Lay a little longer
Baby don't you leave, I could be your SoulMate**

Spheres

Seeker of the philosopher stone
Looking for Solomon's throne
From the shore of souls arrived,
In the sea of sense I've dived;
But what's land, or what's wave,
To me who only jewels crave?
Love's the air-fed fire intense,
And my heart the frankincense;
As the rich aloes flame, I glow,
Yet the censer cannot know.
I'm all-knowing, yet unknowing;
Sit down, don't pause, in my going.
Well, I love the Soul's meaning sweet,
I tread the Holy Book beneath my feet.
Lo! Our God's love blazes higher,
Till all our differences expire.
All is God, and all is power
All is Love, and all is ours
I embrace the true believers,
But don't care for deceivers.
To Heaven's interior clinging,
Heedless of the inferior things;
Down to earth, no superior being
Serve my purpose, no superior feeling

Lost in whirling spheres above
Tossed in the world here I love

Still I Rise

**You may write me down in history
With your bitter, twisted lies,
You may trod me in the very dirt
But still, like dust, I'll rise.**

**Does my sassiness upset you?
Why are you beset with gloom?
'Cause I walk like I've got oil wells
Pumping in my living room.**

**Just like moons and like suns,
With the certainty of tides,
Just like hopes springing high,
Still I'll rise.**

**Did you want to see me broken?
Bowed head and lowered eyes?
Shoulders falling down like teardrops,
Weakened by my soulful cries?**

**Does my haughtiness offend you?
Don't you take it awful hard
'Cause I laugh like I've got gold mines
Diggin' in my own backyard.**

**You may shoot me with your words,
You may cut me with your eyes,
You may kill me with your hatefulness,
But still, like air, I'll rise.**

**Does my sexiness upset you?
Does it come as a surprise
That I dance like I've got diamonds
At the meeting of my thighs?**

**Out of the huts of history's shame I rise
Up from a past that's rooted in pain I rise
I'm a black ocean, leaping and wide,
Welling and swelling I bear in the tide.**

**Leaving behind nights of terror and fear I rise
Into a daybreak that's wondrously clear I rise
Bringing the gifts that my ancestors gave,
I am the dream and the hope of the brave.**

SubLime

**Cups flashing Divine wine
Suns through clouds gleaming
The wine so clear, the glass so fine
That these two, one are seeming
The wine is not and the glass is all
Or the glass is not and the wine is all
The air, rays of the sun has caught
The light combines nights dark fall
The night made truce with the day
Thereby ordered the world's array
If you don't know day from night
Or which is the cup which is the wine
Divine wine and cup divine are right
The Water of Life and its secret sign
Like night and day you may assume
Knowledge and doubts dark gloom
If these comparisons don't clear up
All these problems of low and high
Seek for the world reflecting cup
That you may see with reasons eye
That God is All the Love we need
The Soul of Love our heart's creed**

Success

**Time has come to be crazy for you;
Time to break the chains,
Time to depart from everyone,
Time to leave life all together
In order not to be its slave.
Time to burn the house down,
To be worthy of the lips
Of the cupbearer, the cup, and the wine.
We must boil, evaporate,
And come out of this world.
On the path to annihilation
We should spread our wings
Like trees in a garden—if not,
We'll be strewn on the path like seeds.
We're like the story of the heart—
No beginning, no end—
Until we reside in the lover's heart
And become a living legend.**

Staying Alive

It's like a jungle out there
Got to keep from going under
This not a free swap meet
Earn your keep or swap seats
Learn to keep SWAT teams off streets
For we all need jobs to eat
We all have mouths to feed
The labs have mouse to treat
Like zoo's have animals to keep
Jail cells hold guilty criminals
Bail bonds only set them free
Failing to learn lessons they need
Paying to stand tests of time
Taking a bite out of crime
Making the class setting life
Our karma shedding light
On dharma shining brights
High beaming of high beings
Love clearing up life's stream
Wondering what's light's dream
Watering seeds with kind deeds
Wandering to just find peace
Hunting jobs then dine on sheep
Hunger silencing lams to eat
Racing careers for ends to meet
Deciding to save our night's sleep

SweetHeart

**I'm writing this with a deep heart
For my one and only sweet heart
Hoping, praying we never be apart
Hoping, praying she never departs
Flowingly swaying me in these songs
Showingly caring she gives me calls
Openly sharing we're giving our all
Only preparing by answering our call
That's all...Or we can just stay up all night
I really miss you, so we can kiss all night
I miss you, I never want you to leave me
For if you did, I would be on my knees
I never want us to ever be done, hun
Because now I know you are the one
I'm one hundred that you are the one!
Remember kissing under the street light
As we both were watching cars pass bye
I will always keep you safe out of harms way
Hugging, Cuddling with you in my arms babe
Hope our love never ends, lady I want your baby**

TanTra

Tantra says the range of mental experience can be expanded
helped by the senses your mind can have experiences
within the framework of object, time and space
But there can also be a mind frame
that transcends the state of object, time, or space
which can happen when the present mind breaks
the familiar chain of limits and definitions
going past the borders, energy is released from these experiences
These experiences have been named nirvana, moksha, emancipation,
self-realization, salvation, samadhi or liberation
Contrary to popular belief these states never cease, levels end to begin again
From the start of creation yogis and tantrics have become
aware that in this physical body there is a potential force
that's not psychological, philosophical, or transcendental but a dynamic potential force
in the material body and it's called kundalini
The greatest discovery of yoga, kama sutra and tantra is this kundalini
In Ultimate Reality: impure or pure is nothing
A saying of tantra that's basic hard to believe being without ethics
A message to grow beyond division, really
to transcend dichotomy and duality
Tantra says existence is one: man-made are all distinctions
good-bad, impure-pure, virtue-sin
What's impure or pure depends on your interpretation
So please try and don't divide lest you want to be divided
Tantra says sex energy is life energy
The word sex isn't confined to the act or reproduction
for the whole play of sex is with life energy
Wherever negatives and positives meet, sex is the function

TanTra II

The word sex isn't confined to the act or reproduction
Wherever negatives and positives meet, sex is the function
Tantra Masters say listening is passive and feminine
and that speaking is active and masculine
The speaker is the one who's penetrating
while the listener is the one who's receiving
so between the two a sex act is happening
For the message to enter and become illuminating
the listener has to be totally passive
not thinking for that will make her active
Tantra says that when our – and + poles unite
it means the union of our masculine and feminine sides
Members remember we are both woman and man
because we are the effects of the cause of woman and man
Tantra says move wholly in sex completely
Forget yourself, civilization, religion, culture, ideology
Forget everything just move in the sex act totally
Don't leave anything out become absolutely non-thinking

Peak Orgasm & Valley Orgasm

Only then does the awareness happen that you've become one with someone

Then it can be detached from the partner and this feeling of oneness

Can be used with the whole of creation

Once you know how to create this circle

It can be made without and within, since this cycle

Comes from being created of woman and man

because you were created by these two you are both woman and man

When the circle is made within your inner woman is meeting your inner man

And only when this circle is created is real celibacy attained

When this circle is created inside freedom you've gained

Tantra says sex is the deepest bondage

yet it can be used for the highest freedom

Tantra even says poison can be used as medicine, albeit with wisdom

So, don't condemn anything rather use it

Find out ways how it can be used as a solution

Tantra is a deep total acceptance of life

It is the only approach of it's kind

All the religions are afraid of sex

Because such a great energy is sex

Once you are in it no more, then

The current will take you anywhere, hence fear begins

But don't make a barrier in which you and the current become two

Do allow this vital energy to have power over you

For Tantra says this current is you

One type of orgasm is coming to the peak of excitement

we can call this a peak orgasm and there is another named valley orgasm

In peak we meet as excited beings seeking climax

and reaching orgasm we get depleted of our energy

but in the tantric orgasm we gain and regain energy

Telling Me

**From friends form foes
We were once so close
Just wanted you to know
The fake pretend the love they show
If they show ain't no love though
Just high expectations judgments follow
False flattery fool's gold don't lose your soul
So true all that glitters ain't really gold
Love's alchemy transforms gold to soul
Don't confuse hope with what u wish for
No guts no glory glisten go for the gusto
Much love yo flow let go express your soul
Protect yo neck this industry is cut throat
Fellows of life just trust following your light
Align find wise kind insights inside third eyes
Open mind's decide to be free release disidentify
Believe the process of oneness keeps faith alive
Certainly, with consciousness progress is realized**

The Alley

**Alone I walked through the alley on a moonlit night
My body, a pair of eyes seeking only your sight
My soul, a cup brimming with your desire
I was again the same old lover set on fire
Deep in my soul, the rose of your memory gleamed
The garden of a hundredfold memories beamed
The scent of a hundredfold memories wafted in the air
I walked through the alley, an experience with you to share
Hand in Hand, we walked in solitude with tender loving care
And as we both sat awhile by the brook,
In your black eyes the world's secret you took
I was enthralled by the panorama of your look
The sky was so serene, the night so still,
With fortune smiling, time was tranquil
Within the water, part of the moon was falling
And arms of branches to the moon were calling
The night, the mead, the flower, the rock and vale
All were enraptured by the song of the nightingale**

The Code

**The noise decides to like these vibes
Voices inside the mind of AmiRimE
The choice of light shining on life
The choice of light finding our sight
To rejoice for love's fighting for life
So, enjoy life while we're still alive
Enjoy your life while there's still time
Join more life, where you feel liked
Record the chord of notes while high
Decode the ploy of the decoy and rise
Free more codes of tempos in rhymes
Yo, employ your joy to enjoy the ride
Or explore more of life, for it's so fine
Decode the ploy of the decoy and rise
Free more codes of tempos in rhymes
Yo, employ your joy to enjoy the ride
Or explore more of life, for it's so fine**

Re-United

The finest rhymes like finding no-mind

**Eternally searching for lives
The Truth burying the lies
Hiding in the cloudy mind
Where's justice to the blind?
Themselves seek to justify!
There's no Truth to find
Where to see the Light
To those short of sight?
The Need to be Right
Never Frees the Mind!
Then why are we confined
Risks daring us to be Alive
Taking us to the other side
Of the beliefs we've defined
To change our dream of life
Will feels the need to decide
Trust fills the need to confide
Love seeking peace to re-unite**

Thin Ice

There's a thin line

Between kind & unkind

Behind polite & impolite

Beside right & not right

There's a thin line

Beside fight & not fight

Behind like & dislike

Between nice & not nice

There's a thin line...

We're on thin ice...

Hearing these times...

Cheering these rides...

Will you be by my side?

Will you please decide?

Will you hold me closely?

Hug & Kiss me so softly

Love's the greatest feeling

Trust's the greatest feeling

If only I had it my way

Thinking of You

**I am thinking of you
In my sleepless solitude tonight
If it's wrong to love you
Then my heart just won't let me be right
'Cause I've drowned in you
And I won't pull through
Without you by my side
'Cause I've drowned in you
Then my heart just won't let me be right**

**I am thinking of you

If it's wrong to love you
Then my heart just won't let me be right
'Cause I've drowned in you
And I won't pull through
Without you by my side
'Cause I've drowned in you
Then my heart just won't let me be right**

Thoth's

When I am four hundred thought years

From your mind

Reach deep and pull me to the surface

Of the gray-white jellied jangle of cells.

And for one brief moment,

Let me fill all your synapses

With reggae, blues,

and all manner of

strange and wonderful books.

With PMA, Positive Mental Attitude

With passion, and lust,

With affection, tenderness, and

Pleasurable pain.

And when I have filled your brain

To orgasmic capacity,

Softly, let me slip back

Into the depths of your mind

To hauntingly linger

For an eternity.

When I am four hundred thought years

From your mind.

Tide's Light

**In my prayer's thoughts, feelings are holy
Vital to my signs like a holy matrimony
Gather Eternal Life becomes time for union
Rather no-mind is our timeless communion
Now's the time for Eternal beauty of unity
The time for blessings in the Sea of Unity
Heart's that don't burn inside love's fire
Will never rise, ascend to evolve any higher
Feeling there's never ever need for tyranny
Accept, agree to reach our true monarchy
Those without purpose become your disciples
Then purpose becomes meaningfully righteous
Better that souls who don't give love's service
Haven't been created not knowing their purpose**

**Tides are on high 'cause the Thunder striked
The sacred day has dawned from God's light**

Love's Reason

**Passing beyond tears of separation
See broken-hearted lovers in Heaven
In your heart if you look deep within
You'll find love inside your own being
Not my fault I've refined my being
To be free of flaws I revise my seeing
See it All insight so very appealing
Be it All fine advice for agreeing
Believe Love's sight, Soul's meeting
Receive its trust, life goals reaching
Seek the true light that's All-Seeing
Feel a new life within all being
That created all of us as beings
Soul's light made Love's Beings
Take in the Sun's light Love's Reason
Our power of flight in Love and Reason**

Til the End

**I'm the servant of the One
Who heals everybody's heart
Or falls in love with the One
Whom everybody's life starts
Only Lovers and the Beloved
Are found in the realm of GOD
Heaven's only prayer is Love
World's worthless without Love
Course is to be a student of Love
It's the only road for all to Evolve
At last I was enamored by her Love
Resisting has no effect on the cause
Love must be taken right to the end
Unsuitable things must be accepted
Poison must be taken as a remedy
Ugliness must be seen as a beauty
Heart's full of separation's misery
Outside is separation inside is Unity**

Til U Return

Until you come back love
To lead the way back to love
Writing down rhymes full of light
Rising to see the sun shine another time
While siding with the silence of night
I feel right-side up to love life
I've been upside-down in love-life
Seeing you arrive I'm up all night
Sensing the vibes we break the ice
Freeing the mind we speak in rhymes
Fearing the time I don't feel alive
Near my prime I won't leave the mic
Witnessing the likes I speak my mind
Now sunny-side up let love guide
An artist by design what's your sign
The target is LikeWise the sky
Yet I still feel the need to be fly
The market's defined by the times
Fans demands buy the supply
To bargain the price you decide
My margins behind imaginary lines
Parked inside subconscious minds
My heart goes out too easily
That's what flows off the sleeve
Not bluffing actions reactions need
To be trusting in peace and unity

TIME

To learn while still a child
What this life is meant to be.
To know it goes beyond myself,
It's so much more than me.
To overcome the tragedies,
To survive the hardest times.
To face those moments filled with pain,
And still manage to be kind.
To fight for those who can't themselves,
To always share my light.
With those who wander in the dark,
To love with all my might.
To still stand up with courage,
Though standing on my own.
To still get up and face each day,
Even when I feel alone.
To try to understand the ones
That no one cares to know.
And make them feel some value
When the world has let them go.
To be an anchor, strong and true,
That person loyal to the end.
To be a constant source of hope
To my family and my friends.
To live a life of decency,
To share my heart and soul.
To always say I'm sorry
When I've harmed both friend and foe.
To be proud of whom I've tried to be,
And this life I chose to live.
To make the most of every day
By giving all I have to give.
To me that's what this life should be,
To me that's what it's for.
To take what God has given me
And make it so much more
To live a life that matters,
To be someone of great worth.
To love and be loved in return
And make my mark on Earth.

ToGetHerNess

In the cup of your reflection
Is the rose water's own essence
Was it love's image in the mirror,
Or has the fire mixed with water?
Close to the bartender is the fine wine
The sun accompanied the moon tonight
Asleep from drunkenness on the tulip's lap
From our warmth electricity flows into hands
In the presence of others our temperatures rise
In our very own hearts lies the mirage of fire
In no time, childhood reached old age
In our book of life, today is like a page
It's not the dewdrops that you see on the grass,
It's two lips of mouths that waters with passion
The high sky is so humbled from our elevation
That the sea ran out of bubbles in contemplation
In the corner of solitude was the home of honor
The jeweled treasure comes from ruined corners
A ray of wine blew into this very fine cup
At the sunrise, what are you dreaming of love
The shape of her godly body fell into my thoughts
She said laughingly that a lotus grew from water
The orb of her chest appeared from the cup
A star grew from the neck of the moon of love
From the soil was pulled the seed of our hope
A series of dirt that sparkled with laughter, yo
The hope that I had for creation away has blown
The mirage's deceptions were the light that shone
Let the dust of our remains smell of flowers, so
That you'd think from this tulip pure musk grows
Because lightning quickly laughed and was gone
The meteor's light made clear what had to be done

Too Late

At dawn my heart said I should go
Into the garden where
I'd pick fresh flowers, and hope to see
Her flower-like beauty there.
I took her hand in mine, and oh
How happily we strayed
Among the tulip beds, and through
Each pretty grassy glade;
How sweet the scent of her curls
Seemed then, and it was bliss
To grasp her fingers just as tight,
And snatch a stealthy kiss.
For me to be alone beside
That slender cypress tree
Cancels the thousand injuries
That she has given me.
She's a narcissus, tall and straight!
And so how sweet to bow
My head like violets at her feet
And kiss the earth there now.
Your drunk eyes don't deign to see me,
Although I really think
It's easy to forgive someone
The worse for love or drink.
And though it's good to weep beneath
God's cloud of clement rain,
It's also good to laugh like flowers
When sunlight shines again.
My heart was hurt by her "CheckMate"
I think I must prepare
To seek out wider pastures then,
And wander off elsewhere.
RimA, be careful not to say
Too much; it's pitiful
To give a jewel to someone who
Doesn't show its value!

Trance'n'Dance

Regarding the real as invisible
Opens our eyes to life's miracles
I said, 'O heart may you be blessed
The circle of lovers you've witnessed
And also have the insight to foretell
What comes up out of our heart's well
O soul, how far you go with each breath
O heart, how you beat with every step
O bird, how you speak tweets and chirps
From water and clay baked our bodies
That Stir-Fry in the material kitchen
To jump up out the pan of existence
Then I was cooked into shape and shade
That's when I was given a face and name.'
The day soul's take flight due to your scent
They know the Beloved is all that's meant
As soon as the perfume's fumes have left
Our neurons desire for synapses to connect
I've cleaned the skeleton's out of my closet
For unconditional love I will become selfless
To gamble in this love is our soul's best bet
Peace is the cost we're paying to ascend
My soul in pursuit of that Sun of Eternity
Is hovering all around Existence's Sea!
Ecstatic when we are seated on top of the world
With two different bodies but with the same soul
Green Gardens and scenes of birds transporting
Us into the forest where the stars were glowing
United we can show them the moon's shadows
The greatest marvel is that in a seated position,
Our soul travels by visual astral-projections!

Love's an Ascension Movement begins by being selfless ends with transcendence

Be friendly, easy, with drunkards Good fellowship's theirs
Its pride causes the hangover, Not the bartender's wares
Talk with friends, in the night, and see how life fares
Since when we are gone the heavens will bring others our cares
And welcome the spring in your heart since the world never spares
To provide us roses and songbirds whoever despairs
Love your Beloved Heaven requires you to be one who bares
The grief of lovers all your life God grant me my prayers

Trippin'

Girl, you got me trippin' got me flowin'

**Don't say the heart travels on its own
For without you my heart won't go
We're traveling through train windows
Though our journey won't bring us closer
Aimlessly take your hand on the bow
See whose heart doesn't fear the arrow
As no news is the most newsworthy
For death never informed anybody
It's best they criticize me with words
Burnt chests don't avoid wine of lords
This seal's coin is more golden than the sun
Our blood's more blue than other lovers blood
The mountain said as the river went to the sea
You're going, but the sea is a lot lower than me
Face to face we were like each other's mirror
But today this mirror is sadder than that mirror
If you don't answer me, it's yourself that'll be hurt
A curse can be more effective than prayers unheard**

Girl, you got me trippin' got me flowin'

Truly Yourz Truly

**Something to smoke and drink
My lover and I are conversing
Now I feel like the world's king
No need for any candlelight
In our meeting place tonight
My lover's moon face: my light
As wine in our religion's forbidden
Drinking with you sins are forgiven
Yo I see things being passed around
So kill the noise of all mean sounds
Don't talk about anything unsweet
For me sweetness is when lips meet
The pleasure of your love's in my heart
The treasure of your love won't depart
Love Drunkenness so ruined me
I've built these ruins for Eternity
Enough of all these tales that you tell
I heard them all, I know them all too well**

Trust In Love

**Somewhere over was the One
Somewhere under the Sun
Somewhere wanders lust
Somewhere else love was trust
Somewhere left to go beyond
That somewhere the Thunder struck
That somewhere the Stars were Dust
And somewhere our wonder wants
Somewhere where the lover longs
When someone's hunger comes
Then someone's father hunts
When someone harbors trust
There someone's love was just
There someone's love was trust**

**Where Love was Just
There Love was Trust**

To Trust In Love

**I took a ride around town
Looked inside found out I was down
Looked outside and found a crowd**

**I took a ride in a pride
I told a rhyme to a vibe
I hold a sign of the times
I mold designs in my mind
My road unwinds within time
I show the prime of my life
My flow the time of my life
You know the rhyme in a line
To support the rise you decide
O Souls shine all your light
All Souls strive to thrive
All goals strive to arrive**

**Where Love was Just
There Love was Trust**

Trusted You

**I put my trust in you
I put my hope in you
I gave my love to you
I gave so much to you
I became so lost in you
Yet again I long for you
I gained a bond so sure
Attained a love so pure
I sang these songs for you
I say all these words to you
I made these works for you
I pray to the Lord, I'm you
I take this oath only for you
I take the load off just for you**

**I trusted you because I loved you
I wanted you, I loved and I trusted you**

Turnt Up

Everybody here turn it up, turn it up

Everybody here turn it up, turn it up

You fronting or you longing?

You stunting or you loving?

You bluffing or you coming?

You cunning or you wanting?

You coming or you running?

You longing or you hunting?

You loving or you fucking?

You something or you nothing?

Everybody here fall in love, fall in love

Everybody here fall in love, fall in love

Twin Flame

**HU would be loved let him possess
A true Beloved's blessedness
And share a secret oneness
Love's mysterious consciousness
Lovers like us none else, I guess
Are found in each other's presence
Soul of the World was the name
Whom my idol made sacred
While I'm alive her I proclaim
The Soul of my World became
None other own's the same place
Of trust and loyalty that we share
So take me as I am, hold my hand
I promise I'll be the best man I can
Promise me you'll be my best woman
And I swear by you I'll always stand**

Twists & Turns

**As the world turns,
I learned from hookers
Not to save those hoes
Don't pay whores more
Than their weight in gold
Start to date your soul more
Start to chase your goals more
Playing roles you know:
As the world turns,
I learned from twists in plots
Learned from twisted thoughts
That I gotta a lot of soul to forgive
And I gotta a lot of love, so I give
I gotta a lot of reasons to live
I got so much trust, yeah I'm rich
But I got no fucks to give, trick bitches**

**As worlds twist & turn, Love must be learned
Trust must be earned, As worlds twist & turn**

U & I

**When it comes to you & I, I can't find you Baby
When it comes to you & I, I can't find my place
When it comes to you & I, I keep my mind awake
When it comes to you & I, I forgive your mistakes
When it comes to you & I, I forget the missed dates
When it comes to you & I, I cherish the night's stayed
When it comes to you & I, I do miss getting laid lady**

**When it comes to you & I, I can't find you Baby
When it comes to you & I, I can't find my place
When it comes to you & I, I need to find a way
When it comes to & I, I seek to mind the space
When it comes to you & I, I reach the right state
When it comes to you & I, I please you right away
When it comes to you & I, why I feel so far away**

U Knew

**If you had my love
And I gave you all my trust
Would you comfort me?
And if somehow you knew
That your love would be untrue
Would you lie to me?
You knew that your love
Could not be true
Yet you still lied to me
Yet you hide from me
Y don't you reply to me
Ghostin' me so coldly
Scoldin' me so openly
Knowingly Avoiding ME
Showing me no sympathy
Ignoring me of your energy
If you had my love
And I gave you all my trust
Would you comfort me?
And if somehow you knew
That your love would be untrue
Would you lie to me?**

R U Still Down

Tell'em all call me a fool
But I'm stuck in this love thing
Plus I'm over heatin' from the rush
Our tongues touch
Kissin' fallin' fireworks
Watch the sky
I makes you smile
But you'd rather have what makes you cry
Say goodbye and leave now
With my heart on my sleeve
Memories now what I found is you
Still care you had feelings
And they're still there baby
Girl keep it real here

Are you still down?

Only once in a lifetime
Touch my soul go slow
Baby boo don't rush the flow
Got me all weak baby
But I'm strong in parts
More bounce to the ounce
With the longest sparks
Gettin' mine like fine wine
Measured in time
Many other brothers loved you
But the pleasure was mine
Mama taught me how
To love a woman properly sprung
We committed so I hit it
So it's properly done

Are you still down?

Union

Where are the tidings of union? That I may arise—
Forth from the dust I'll rise up to welcome thee!
My soul, like a homing bird, yearns for Paradise,
Shall soar, from the snares of the world set free.
When the voice of love calls me to be its slave,
I shall rise to a greater far than self-mastery
Of life and living, time and the mortal span:
Pour down, Lord! From the clouds guiding grace.
The rain of mercy that quickens on my grave,
Like dust the wind bears from place to place,
I arise and flee beyond the knowledge of man.
When to my grave you turn your blessed feet,
Wine and lute you shall bring and hand to me,
Your voice shall ring through my winding sheet,
And I will arise and dance to your minstrelsy.
Though I'm old, clasp me one night to your breast,
And I, when the dawn shall come to awaken me,
With a youthful flush on my cheek from bosom I'll rise.
Rise up! Let my eyes delight in all your glory and grace!
Thou art the goal to which all men's endeavor has pressed,
And Beloved you're the idol of Rima's worship; thy face
From the world and life shall bid to come forth and arise!

Unity

With the Soul's ear hear the soundless sound
Lover's tumultuous wailings are all around
I'm silently listening so speak soul of my soul
For from your presence words have formed
World within world continually takes shape
Amongst these with what do you associate
The worthy ones chose love to be revealed
For that is the King of Kings true appeal
Remember our Lord until self is forgotten
Beings absorbed in that work are forgiven
Dancing amorous gazes glance Eternal glory
Yet the temporal says half of romance's story
The blessed favor of one who bestows omens
And reveals secrets sung in my ear like hymns
Often my spiritual ear has eavesdropped on my heart
From two lips in betwixt the hips I heard a lot of talk
Let the mind's wine flow until we become selfless
For in existing as selves we've all become restless
Significant other silently listen become a witness
To the one who has civilized our living condition
I will keep my faith regardless of life's difficulties
By us remaining faithful life will be less difficult
So don't tell your God you have great problems
Let your problems know you have a Great God
In the physical realm without you we feel empty
O Beloved please enter and fill my house's vacancy
You were the very first and you'll be the very last
Much better than my very first make my very last

UpLifted

**This moment you will not re-create
The music swirls all falls into place
Heart beats in the under currents
A dark shadow lingering lurking
The nature of music, the music of nature,
Swept away into these shadows
The eternal melody lifting a soul
Placing it in the clouds
Realities rhythms echo
Driven desires flowing
Engulfs me knowingly
Escape would be futile
Drops drowning in life
Whole, close to paradise
The music chose to recite
Powerfully in its prime
Taking us along the way
This fantasy full of layers**

**I've drifted confessing my sins
I'm uplifted counting blessings**

Dream Carrier

I can't sleep and I can't think
My mind's whirling like a dervish
Twirling and Spinning in circles
It's normal for me to write like this
Through these spiraling storms, wildly
Driving whirlwinds form from inactivity
Many believe that time tends to fly
But meanwhile my pen hasn't run dry
This passion seeks to be felt as compassion
The quieter part of my mind rests in fashion
To restore my essence for future anticipations
Or past initiations accepting present invitations
Floating, drifting, effortlessly pursuing
What's been laid down before, consuming
Sought, no certainty beyond beliefs,
A far deeper vortex than conceived,
Yet surface value eloquently sufficient,
Self-control this is what you should be!
None knowing better than any other person
Why convert to any other, preform perfection!
All differentiating points, perspectives perceiving
Through filters, transmitting only colors absorbing.
Way ahead of the visible is simply beyond words
the protestor proclaiming that which he hates,
the protector embracing the lions at the gates.
Why limit thought to words, words form from thoughts!
Pure energy, solid form speeding faster than light,
Transcending both worlds, intertwine to combine,
Escape or remain, it'll all still be the same
The universe is a self-perpetuating space
Infinitely extended attracting like magnets
Since our stars are aligned, I'll just planet out

Vibes

**Tell me what's the vibes,
Are you down to ride?
Tell me what's the vibes,
Are you down to ride?
Going to treat you right
Let me love you long time
Are you up for flights?
Tell me what's your price
Lady, what's on your mind
Are you around tonight?
Tell me what's the vibes,
Are you down to ride?
Let me pick you up at nine
Oh you're such a fine dime
I really be liking your style
I really be missing your smile
Thinking about bump and grind
Feeling much more love for life
Now we're flying the friendly skies,
How high are these friends of mine?
You and your friends taking my ends....
Tell me what's the vibes,
Are you down to ride?**

Victory!

Learned Sunday's words to pray

Turned earthdays to birthdays

Earn rewards enjoy work play

Reap benefits of pursuing joy

Sow interest by exuding glory

Grow profits choosing victory

Young stocks to old bonds money

It costs to have a boss legacy

Songs respond to current stories

Beyond both night and day

Affection focused mind-state

Consciousness has the right to say

Feelings have the right to play

Really, I just got out that way

Being contains spaces of grace

Feelings attain states of fate

Speaking aims to gain praise

Respect

**Like Lebron commented:
Give me some more respect
We're all in competition
For each other's attention
What've we taken for granted
What has become our obsession
What we own becomes a possession
Love is our only natural progression
Our Beloved's the only actual presence
Lovers are merely virtual reflections
Uncovering these layers like curtains
Only of Life and Death am I certain
Turning nights to days is a blessing
Earning the right to stay we believe
Learning the right way gives me faith
Shining so bright reflecting light I blaze
Timing so right its grace's glorious state**

Waves

**Hu, like moonlight
Has come at midnight
Messenger of Love
From altar has come
Brought forth a torch
Fire to sleep setting
From sleepless majesty
Comes the King of Kings!
Hu, in clamor creating
Dervishes harvest to drown
Full flooded has come down
In Universe no one but love
Like king to doorkeeper has come
Hu, generously feast setting
Jubilant devotees he's inviting
All souls impatient all hearts quiver
A little of that quivering
Turns to trembling quicksilver
Kind and courteous to all servants
From those fine manners
Comes these high standards**

Well-Wishin'

**I wish you well
Oh you need some help
No, I ain't trying to deal
With none of that
Yeah, you should want it for yourself
And if you don't, too bad
I can't make up your mind for you
You've got to decide and choose
I can't take steps in your shoes
You've got to take and make moves
You've got to want to self-improve
We all really need the truth
Don't you want a better mood
Then have a better attitude
And you'll have more gratitude**

Wet Kisses

All my pleasure is to sip
Wine from my beloved's lip
I have gained the utmost bliss—
God alone be praised for this.
Fate, my old and stubborn foe,
Never let my darling go:
Give my mouth the golden wine
And her lips incarnadine.
(Clerics bigoted for God,
Elders who have lost the road—
These have made a tale of us
“Drunken sots and bibulous.”
Let the ascetic's life be dim,
I will have nothing of him;
If the monk is in piety,
God forgive his piety!)
Darling, what have I to say
Of my grief, with it away,
Save with tears and scalding eyes
And a hundred burning sighs?
Let no infidel behold
All the bitterness untold
Cypress knows to see thy grace,
Jealous moon to view thy face.
It is yearning for thy kiss
That has wrought Rima in this,
That no more he has in care
Nightly lecture, matin prayer.

Takes my breath away
She gives me high powers
Always makes me say, O babe**

**You got me trippin', feelin for different
Visions of wisdom from all religions

Who is seeking union with you and
The Universe, just u and i giving birth
To seeds planted in the mind's earth
Grow into people's speech and works
Now I'm buzzin' catching a vibe
I'm loving you, making me high

Wild Flower Child

**Within this dark room
A wild flower child grew
Bud rose close to its roots
Bloomed through the gloom of doom
Micro-Dosed off Magic Shrooms
Transformed drastically my view
Now as I look in the mirror
All I see is you, clearer
And myself nearer, ourself dearer
Taking one breath nearer to oneness
Getting one step closer to what I've wanted
From my loving consciousness
For my life and its guidance
Into the bright light's oneness**

Wise Counsel

This time around in loving
I've suddenly been caught
This time I've given my space to time
I've torn apart my heart from life
Now I live on other things higher states of being
I've burnt up my wisdom, feeling and thinking
Ah, people, I can no longer be one of you
Things I think about now are more pure
I've dealt with death, I've skipped mortality
Like an unborn child in the womb of maturity
I'm very drunk and you're insane,
So, who will take both of us home?
How many times have I told you
Not to drink so much alcohol?
I see no sober man in town:
Each drunker than the other
You playing hide and seek
Who is drunker, you or me?
Hey I'm out in the open, see
I left the house one day
Met a drunk on my way
If, in the school of Divine Love
You don't even know the alphabet
Don't worry; you'll be filled like Prophets
With both the Light of Love and Reason
Don't worry if you're not world famous
God knows best and hides his servants
Like a treasure, for their own security
And in places that are little known
For would you put your treasure
Where anyone could discover it?
The Love of God is a holy fire
Consuming all difficulties entirely
The ghosts are chased away by daylight
You're loved by Him look for the reply
In the same place the question arised
Look for the reply in the very same place
You bent in adoration with trust and faith

Wish

**Wishing from afar
Follow where you are
Wishing on the dream
Follow what it means
Wishing for a queen
Giving her everything
She has ever seen in her dreams
Following her brightest star
Wishing she'd co-star as my coast guard
Bringing us much closer
Gifting us with more culture
Following our nature
Wishing to our Creator
Working for a cause greater
Serving the purpose of pleasure
Learning the meaning of together
Living to be feeling better**

Witness

**God hasn't created anything
more mystical than man's spirit
Not in the earth nor in the heavens
He's revealed the mystery of all things
But He's sealed the mystery of us beings
Since the eye of the Witness beheld spirit
Nothing will never ever remain hidden
God's Our Beloved witnesses belong to Him
The eye of the Beloved becomes the just witness
The object of God's regard: the pure heart and spirit
The King's gaze is always fixed upon his favorite
The mystery of his amorous play with his favorite
Was the origin of all the veils in His creation
On the night of the Holy Prophet's Ascension
Our Loving Lord said for you I created Heaven**

WombMan

In a small house in Tripoli lives
an Ocean of wisdom. Watching her
motions, years of repetition have
perfected her skills. Her little
secrets make this daunting task
almost easy. Having raised her
babies, spent some seventy-odd years
sensing the world, sharing smiles,
advice, recipes...having discovered
the secrets of what makes the
world's axis spin, she knows that a
simple touch can bring comfort to a
restless mind; a smile bring ease
to a searching soul, with words,
make hearts strong. She does not
live life retrospectively; every day
a different chance to manifest into
a butterfly. Roaming the Earth has
left her delicate feet chapped, but
when dawn breaks, she smiles, stands,
and readies herself for the new day.
I stare in awe, watching her pray,
And pray that one day, I too will
Have the wisdom of the WombMan.
Within the Woman's Womb Man's given shape,
If it's our Woman Hu create can they be created?

Wonder

The everlasting universe of things
Flows through mind, rolls its rapid waves,
Now dark, now glittering, now reflecting gloom
Now lending splendor, where from secret springs
The source of human thought its tribute brings
Of waters with sounds half its own,
Such as feeble brooks will assume,
In wild woods, among mountains alone,
Where waterfalls around it leap forever,
Woods and winds contend, and a vast river
Over its rocks ceaselessly bursts and raves.
The fountains mingle with the river
And the rivers with the ocean,
The winds of heaven mix forever
With a sweet emotion
Nothing in the world's single
All things by a law divine
In one spirit meet and mingle.
Why not I with my wife?
See mountains kiss high heaven
And waves clasping one another
No sister flower would be forgiven
If she disdained her brother herb
And the sunlight clasps the earth
And the moonbeams kiss the sea:
What are busy bees work worth
If you won't kiss me my honey?

Won't Let Go

**Won't Let Go, Don't Let Go
Don't Lose Hope, Won't Lose Hope**

**I sure hope my flows dope
Like pure coke tony yay-yo
Light pure words full of hope
Use words so fully absorbed
Youth learn to follow the soul
Group's support helps for sure
Work chose self with the words
Goals shown well with the Herb
Home grown left me being remote
Mobile Phones extensions at home
Roaming Zones available networks
Soul's work prevails getting heard
Roles shown details of the Lord
Notes flowing tales of our Soul
Don't go away from the Source
Don't lose the way back Home**

Words....

One word's too often profaned
For me to profane it,
One feeling too falsely disdained
For you to disdain it,
One hope is too like despair
For prudence to smother,
And pity from you more dear
Than that from another
I can't give what men call love,
But will you accept not
The worship the heart lifts above
And the Heavens reject not,
Our desires for the stars,
Of tonight's for tomorrow's,
The devotion to something afar
From the sphere of our sorrows?
Music, when soft voices die,
Vibrates in our memory—
Odors, when sweet tulips sicken,
Live within the sense they quicken.
Rose leaves, when the rose is dead,
Are heaped for the beloved's bed;
So are thoughts, when we're gone,
Love itself shall slumber on.

Words...Words...Words

Word Play

**Where love is our true magnet
There words are like pure magic
Loveless words are cast into hell
Loving words supporting us well
Minds are like computers
Gossiping infects systems
Loving words rid toxic emotions
And dispel our fears of freedom
Taking things personally bothers
Making all important, prospers
Becoming immune to problems
Loving beings must solve them
Excuses made for controlling
Allies supplying short comings
Things taken less personally
Accepting separate realities
Seeing and hearing, selectively
Doing our best, we live intensely**

**Double edged, our words
Create or Destroy Worlds**

Work

The wings of Time are black and white,
Pied with morning and with night.
Mountain tall and ocean deep
Trembling balance duly keep.
In changing moon, in tidal wave,
Glows the feud of Want and Have.
Gauge of more and less through space
Electric star and pencil plays.
The lonely Earth amid the balls
That hurry through eternal halls,
A makeweight flying to the void,
Supplemental asteroid,
Or compensatory spark,
Shoots across the neutral Dark.
Man's the elm, and Wealth the vine;
Stanch and strong the tendrils twine:
Though the frail ringlets thee deceive,
None from its stock that vine can reave.
Fear not, then, thou child infirm,
There's no god dare wrong a worm.
Laurel crowns cleave to deserts,
And power to him who power exerts;
Hast not thy share? On winged feet,
Lo! it rushes thee to meet;
And all that Nature made thy own,
Floating in air or pent in stone,
Will rive the hills and swim the sea,
And, like thy shadow, follow thee.

XtraMentall

**As atoms are mainly empty space
If humans used full capacity of their brains
We'd know the other world from where we came**

**The reason the Universe exists
Is Experience for Consciousness
Or indwelling being, the higher self
Neither body nor mind the inner self
Not intertwined parts of the manifest
It's the underlying consciousness
Primal matter isn't conscious
Cosmic intelligence isn't conscious
The mind is something material
Like Emotions, Thoughts and Ego
Primal matter's manifestation exists
For indwelling being's experience
For over external factors to gain mastery
To its true nature becomes understanding
Consciousness isn't anything material
We detach consciousness from the external
First, we learn to detach from the physical
Then from emotional, mental and egotistical
We return to our nature as Pure Consciousness
This is called Self-realization or True Liberation.**

**As atoms are mainly empty space
If humans used full capacity of their brains
We'd know the other world from where we came**

Ya Heard

**My ears to the beats
Hear what they need
Here's what they seek
I'm dear to the streets

Amir's pen runs deep
Tears sweat to bleed
Smear ink on leaves
Clear links of poetry
Cheer drinks to receive
In nearness do believe
Everything's needed
Yes, let me repeat it
Every experiences needed
Things happen for reasons
Like the times and seasons

You Don't Own Me

**Yo, I know I don't own you
You can do what you want to
No, I'm not the one to argue
But from my point of view:
I'm just another boy toy
You use just for your joy
You're using me as a decoy
I proved I'm the Real McCoy
Without trust can you enjoy
You going from boy to boy
Collecting much more toys
Baby girl you're a baddie
So, nasty call me daddy
Spicy girl meet Sugar Daddy
Got the sweets & meats, papi
Giving treats but not to tricks
Been tricked by other bitches
Only thinking about my riches
Totally found out they're ditches
Found out their vicious, malicious
No, I don't want to be another victim
But I don't wanna be on they shit-list
Cause I've had their best interest, I did
Cause I stand for their best wishes, I did
And I've acted for your best benefits, indeed**

Are you still down with me?
Are you still around for me?
Which way will the ball bounce?
Before its hit, tipped out of bounds
So much grip handling all my rounds
Pitching no-hitters from the dug-out
Don't even need to be on the mound
Quit saying that I can't rebound
So, stop playing hard to be found
You see my feet firmly on the ground
I can be with you or move without
If you don't know what I'm about
You should know I'll never foul-out
I just want to free you of your doubt
Tell me your needs please speak up loud
Are you still down with me
Will you be around for me
You there when it counts with me
Was lost now found my peace
Was gone now around daily
Nightmares nights without sleep
Lit the way to live my dreams
Or co-exist within my means
For Justice, Respect and Liberty
Serving rights protecting lives yee
Earning stripes deserving life oo wee
Living stars preserving light truly
Giving starts freeing minds really
Gaining hearts enjoying life fully

Y

I always ask myself Y
Should I ever be shy
When I ask myself Y
I wouldn't even say hi
Then I ask myself Y
I couldn't ever say bye
I always ask myself Y
At times I didn't try
I always tell myself right
I never needed to lie
I always let myself sigh
Sometimes we all cry
So, I held myself tight
In those lonely nights
Yo, I helped myself rise
There's much more to life

Designed to feel all of life Y Peace is a Divine sign**

Z's

Take this kiss upon the brow!
And, in parting from you now,
Thus much let me avow —
You are not wrong, who deem
That my days have been a dream;
Yet if hope has flown away
In a night, or in a day,
In a vision, or in none,
Is it therefore the less *gone*?
All that we see or seem
Is but a dream within a dream.

I stand amid the roar
Of a surf-tormented shore,
And I hold within my hand
Grains of the golden sand —
How few! yet how they creep
Through my fingers to the deep,
While I weep — while I weep!
O God! Can I not grasp
Them with a tighter clasp?
O God! can I not save
One from the pitiless wave?

Is all that we see or seem,
Just a dream within a dream?
