**Stars of wonder, Stars of night  
Sparks fell from Perfect Light  
Where the Universe began  
Embers for the soul of man  
What you wanted to be when you grew  
Up until the time you knew the truth  
To set the record straight of your days  
And keep Infinity to watch and wait  
You have all the time in the world  
O Ancient child of flesh and bone  
Eternity echoes to each his own**

## **To King's**

**The wind blew in the dusk alleys  
We blew on dice's pulse luckily  
Our worldly desires of new adventures  
Like a special new beginning  
Wherever you say I've been  
I've got no fear, it's my lot  
This is where I'm from  
The way I walk you say I'm drunk  
I pause as I inhale 3 straight good hits  
To break free from the chain of my voice  
There still exists a far corner of this world  
Where I can witness magic in a dark room and exit  
If I was to take it easy now  
Then rest would be out of the question  
Now is the time for me to carry my dreams  
Now is the time for me to marry my queen  
Here is the rise of new beings, new beginnings  
Here is the rhyme of 2 Kings who carry their rings**

## **Seers**

**Our unexpressed essence  
Breed Infinite seeds potency  
Within the Sea's Existence  
Flowing Cosmic Intelligence  
Maximum supreme affection  
Great Divine Mind Manifestations  
With separate Thought Processors  
Connect to your Predecessors  
Different experiences evolving  
Bodies vehicle spiritually Loving  
Senses reception, full-capacity  
All Elements represented actively  
The X factor starring Alchemy  
Matter exists, conscious energy  
Words worth 24k gold, globe's whirl  
Be calm, become One with the World**

## **InterConnectivity**

**The interconnectivity of things creates God out of none,  
Is a mystery that no created being has solved.  
The chamber of my vision is your threshold  
Show courtesy and respect for this house is also yours  
O Beloved! What idol has your religion converted to?  
When is our blood more lawful than the milk of our mother?  
What shall I call “Existence” when the knowledge I have isn’t me?  
And to whom should I claim “Non-existence” when all I see is She/He?  
Wearing my heart on my sleeve believe my soul longs to be consoled by you  
Am I coming or going? For I’m looking forward to hearing from you...  
The holy musician creates the Sema sphere for those bound to be ecstatically eager  
Now the melody of thy assembly makes the sky dance  
That Rima’s sweet poetry is the speech of romance**

## **Beast Mode**

**All who come into the world have the mark of the beast  
Don't ask where reason has gone, in the belly of the beast!**

**Like the dust our bodies don't ascend  
as from the stardust we've descended**

**Count your blessings to receive more in consequence!  
How can I practice patience when I am so dependent?  
Who of you will send this prayer to the King's servants?  
Not neglecting beggars, sovereignty is a true privilege!  
The dervish, thou doesn't ask? And I fear what it isn't!  
The worries of recompense and concerns for forgiveness**

**Do you know what that mole is on your eyelid?  
A dot that fell from the i, dot it, to not doubt it!**

## **Adam's Apple**

I am one bit by your very own Adam's Apple  
Beneath your dimpled-chin are many souls  
O Heart! Hear the wise counsel that is closer to the Soul,  
For youth to prosper, heed the wise man's counsel.  
The tavern's water has flooded the ascetic's cloak  
The tavern's fire has lit our reason up in smoke  
Rima! Wash your religious garment and now be reborn  
For from the religious garment of hypocrisy fire has formed.  
Within the shape of the rose leaf, the rose-water hides  
Everything happens on time, like blessings in disguise  
The bar closed for us to open up to detoxing, we realized!  
Abandon idle talk; and consume the mind-illuminating wine  
For the candle burned idly, while we were conversing last night.  
Whether shepherd, king, conscious or high,  
In life's raffle a ticket is necessary to buy.

## **About You**

**Yo, believe in life's wise advice  
So, put aside leave behind vices  
Or you pay the price with a crisis  
For love's rays are lighting us up  
Or love's way is righteous, yo  
Desires move with memories of experience  
As desires move to the center of existence  
Desires are removed choosing truth's essence  
When we enter into different directions  
And remember the nearest connections  
Then we enter an even bigger dimension  
By remembering the clearest reflection  
All members with better introspections  
Are members with better self-expression**

## **Accomplished**

**Diamonds bling drippin’  
Champagne drink sippin’  
Topless Model kissin’  
Goddess Queen missis  
God bless between thinkin’  
I’m accomplished being  
An accomplice witnessing  
Watch this rhythmic expressing  
Monotonous thinking ending  
Autonomously linking extending  
Subconscious slipping transcending  
Consciously lifting existence  
Consciously shifting attention  
Obviously listening to affection  
Obviously hearing its intention  
Cause us to be nearer to perfection  
So long as we nearing the Resurrection  
Know it’s gonna be in the recent election  
For who else captures the rapture evident  
Left up to the Media and Press to present**

## **Again & Again**

**I thought I told you we won't stop  
I thought I told you we're on top  
Of the world Lo and Behold  
All I know as above so below  
In time all will become known  
In lines all will become shown  
With life all will become grown  
Fell in and out of love overnight  
Change of heart changed my mind  
I Found out who should be my wife  
Found out who should be by my side  
My ride or die is for life  
No not just for one night  
Cuz' a ho can't be a housewife  
Trust me yo I'm so tired of trying  
Been getting nowhere together so  
I knew I just had to let her go, oh  
All on my own walking lonely roads  
I just had to adjust go with the flow  
To come back with so much more  
My love for life will never get old  
My trust in love never loses hope**

## **Ancient Guide**

**The house of hope's built on sand  
And life's foundations rest on air  
Then come give wine into my hand  
That we may make an end of care  
Let me be a slave to my free-will  
Under the heavenly skies dome  
That keeps winning freedom still  
From all entanglements of soul  
Save that the mind entangled be  
With all her radiant loveliness  
Provoking both love and loyalty  
Relieves the mind of all distress  
Last night as hoping I had been  
In these bars shall I tell to thee  
What message from the unseen  
A heavenly angel revealed to me  
Heed now the counsel that I give  
And let it be to thy acts applied  
For these are words I did receive  
From her who was my ancient guide**

## **The Divine**

**We hope that we may bring  
Her waist to our embrace  
Mo' heart to heart feelings  
Yo, we linger in this place  
Preacher's frenzy complete  
Waste not the Sage advice  
Stand in the Beloved's street  
Not even seeking Paradise  
Sufis wheel in mystic dance  
While shouting for ecstasy  
We have our exuberance  
For we are also in ecstasy  
The earth with everything  
Where you've poured wine  
Just dust in the wind it seems  
Underneath your foot Divine**

## **Aligned**

**Come, let us pass this pathway over  
That to the tavern leads;  
There waits the wine, and there the door  
That every traveler needs.  
On that first day, when we did swear  
To cuddle and to kiss,  
It was our oath, that we would fare  
No other way but this.  
Where Jamshid's crown and royal throne  
Go sweeping down the wind,  
'Tis little comfort we should moan:  
In wine's a fine time to find.  
Because we hope that we may bring  
Her waist to our embrace,  
So, in our life-blood issuing  
We linger in this place.**

## **Don't Preach**

**Preacher, our frenzy is complete:**

**Waste not thy sage advice;**

**We stand in the Beloved's street,**

**And seek not Paradise.**

**Let Sufis wheel in mystic dance**

**And shout for ecstasy;**

**We, too, have our exuberance**

**Both of us are in ecstasy.**

**The earth with pearls and rubies gleams**

**Where you've poured fine wine;**

**Less than the dust are we, it seems,**

**Beneath thy foot of divine designs.**

**RimA, since we may never soar**

**To the ramparts of the high sky,**

**Here at the threshold of Paradise**

**Let us lie aligned with the Most High**

## **ALL FOR 1 & 1 FOR ALL**

**The reason the Universe exists**

**To Experience Consciousness**

**Indwelling being, the higher self**

**Not body nor mind, the inner self**

**It's the underlying consciousness**

**Primal matter is not conscious**

**The mind is something material**

**Like Emotions, Thoughts & Ego**

**Primal matter's manifestation exists**

**For our indwelling being's experience**

**To gain mastery over external factors**

**And our true nature has the answers**

**Detached consciousness of external**

**We start to detach from the physical**

**Then from emotional, mental, egotistical**

**Returning to nature of Pure Consciousness**

**This is Self-realization or True Liberation.**

**Transcendental Consciousness is Pure Consciousness**

**Of Beings connection with Consciousness**

**In Cosmic Consciousness there's a silence**

**That pervades waking, sleeping, dreaming**

## **All In**

**All in when on the paper  
All or nothing chasing paper  
All I'm wanting making paper  
All my loving's getting better  
Only loving keeps getting better  
Only judging keeps us severed  
Only being's forever treasured  
Only one thing forever measured  
Only oneness togethers pleasure  
Souls experiencing Earth together  
Souls experience the world together  
Souls are reaching goals together**

**Kind All the Time don't need you to reply**  
**Aligned All the Time free you from my sight**  
**High All the Time to keep you off my mind**

## **Don't Judge**

**They who grudge days full of drudge  
Judgements fly while opinions go by  
Unknown facts attached to minds  
Mindless conclusions of all kinds  
Details eschewed foibles of un-intent  
Disaster stated, doldrums presented  
Negative fantasies strike violently  
Euphemisms exploding into reality  
Victims hit, the bard finding its touch  
The center mark seeming a bit much**

## **That's All**

**All this hear is cadence  
All I read its sentences  
All my reasons rhyming  
All my seasons in timing  
All I teach: non-violence  
All we need is kindness  
All they seek is guidance  
All they need forbearance  
All they seek is acceptance  
All we need our sustenance  
All we reveal our conscious  
All we really feel is oneness**

## **Creator**

“Thou mastering me  
God! giver of breath and bread;  
World’s strand, sway of the sea;  
Lord of the living and the dead;  
Thou hast bound bones and veins in me, fastened my flesh,  
And after it almost unmade, what with dread,  
Thy doing: and dost thou touch me afresh?  
Over again I feel thy finger and find thee.”

“I kiss my own hand  
To the stars, lovely-asunder  
Starlight, wafting him out of it; and  
Glow, glory in thunder;  
Kiss my hand to the dappled-with-damson west:  
Since, though he is under the world’s splendor and wonder,  
His mystery must be instressed, stressed;  
For I greet him the days I meet him, and bless when I understand.”

## **Stars & Stripes**

**AmiRima's conversation with God  
My flows toast to the lovedrunk  
I rose proposing to the Holy Ghost  
The host chosen to be in everyone  
Soul's spoken in rhymes forever young  
Organized frame of mind's never dumb  
Life lines are wired by those spark plugs  
Ripe minds chewing food for knowledge  
Like rhymes digesting thought processes  
Spirits adjust, adapt and extend progress  
Seeds of life root to ooze the Art of Love  
Promises land to expand sacred palaces  
To overcome all our profane challenges  
Braveheart's shine, reflecting in actions  
Stripes earned with sweat and blood  
And our tears turning us all into stars  
In no sense caused us to pay these costs  
For the innocence that we've once lost  
The price of pure intentions comes across  
This banner of broad stripes and bright stars**

## **Liberty & Justice**

**Space has no time it doesn't tic-toc  
States never mind to trust in God  
Stakes will forever rise to its top  
Greatest treasures remind us of love  
Pain and Pleasure leading to the one  
Takes both measures to finally become  
Libra's Scales tips in favor of Wisdom  
Forward towards holding Nature's Hands  
Bound to be consoling our Creator's Plans  
Supplying basic necessities most in demand  
Survival of the fittest must fulfill commands  
Rather listen to my soul's song than sing along  
Gathering these visions which speak in tongues  
Awareness of Master's answering questions  
Global Dancers moving our consciousness  
Hiding behind social masks  
Covered up under national flags  
Are these guises and disguises of Man  
That sets us out to conquer and divide  
Seeking to find Liberty and Just Us**

## **Alrite**

**Giving love makes it alright  
Only you can make it alright  
Nothing else ever feels right  
Something's left better to time  
All being's felt together in minds  
Love's pleasure needs more life  
Soul's measure seeks your sight  
Goal's treasure feels more light  
Gods not finished, I'm not finished  
Amir's not finished, Rima's not finished**

## **Amen**

**I need a beat to start speaking Amen**

**Beats on BeatStars and Soundee Amen**

**Producing music for years for I'm Here Amen**

**Composing hits to hear so say cheers Amen**

**We're all loving it here cheers Amen**

**We're longing to be near dear Amen**

**We're wanting to be so sincere Amen**

**We're having to be so very clear Amen**

## **Angel Eyes**

**As I looked through an angel's eyes  
To my surprise what did I find  
Shy behind that sight was fright  
The vision didn't lead to my delight  
The mission was filled with flights  
The wisdom has led me to the heights  
The children have led me to the lights  
The kingdom has led me to be right  
Unrealistic expectations of me spending cash  
Idealistic destinations of me getting some ass  
In a big bed she was giving me head  
Her sex the best legs spread cock erect  
Opium scented fallopian rocking the event  
Her orgasms flowing, squirting me wet  
I'm coming up to bust yes best bet the chef  
After sex you know what's next a cigarette  
Followed by breakfast lunch or dinner in bed**

## **AnyWay**

**Any way you wanna go  
Every day you gotta grow  
Any Way you wanna flow  
And by the way you gonna know  
And by the way you gotta show  
Any Way you gonna go  
Any Way you gotta go  
Any Way you wanna go  
Many Ways you wanna home  
And any place you gonna own  
That's any place you call yo own  
At any rate you can also come home**

## **ART**

**Art has to be a direct communication  
Between the Artist's imagination  
And that of the one looking/listening  
Seeing reason as coming slowly from imagination  
Art is its clearest, nearest manifestation  
The Creator is the Light, Life is creation  
Everything else is empty in comparison  
And God created music as the common language  
So only poetry is the language that can manage  
To reflect between Soul and Man any understanding  
God's consummate art between all poles of opposite expression  
Is poetry also known as rhythmic balanced interchanges  
To religion's love is the highest knowledge  
Scriptures written in poetry, no coincidence  
The significance is that shows the affinity  
And closeness between Poets and Mystics  
The difference is Poets are Mystics in some moments  
In which they have glimpses A mystic is in the world of Love  
And through the heart lives it, The poet sometimes fall down to the heart  
But goes to the head again for some seconds  
The Poet experiences reality, but doesn't know the passage  
The Mystic living in the heart whatsoever he does becomes poetic  
The Mystics can't use prose for their prose is also poetic**

## **ArtCraft**

**In my craft or sullen art  
Exercised in the still night  
When only the moon rages  
And the lovers lie abed  
With all their griefs in their arms,  
I labor by singing light  
Not for ambition or bread  
Or the strut and trade of charms  
Or the wary phases on ivory stages  
But for the spendthrift wages  
Of their most secret heart.  
Not for the proud man apart  
From the raging moon I write  
On these spindrift pages  
Not for the walking dead or talking heads  
But for the nightingales and their psalms  
And for the lovers, their arms  
Round the griefs of the ages,  
Who pay no praise or wages  
Nor heed my craft or my art.  
My rap's are just half of my ArtCraft,  
The other half must be my acts, facts....**

## **Asun**

**When the sun comes up, where's the night?  
When the One Loves GOD, what's the time?  
Where the mindless heart of love feels for life  
Where our guidance starts to seek the light  
Where experiences call on love, feel the vibes  
When the essence talks for us hear the wise  
When the presence walks for us by our side  
Where our reflection loves us seek its sight  
Why the expression Love is All needs to rise  
Tied to lessons God is Love frees our minds  
There, sessions All is One teaches us rights  
Then affection trusts in love to feel so fine  
These confessions lust for love to speak no lies  
There professions trust us to reach our primes  
Then directions come through us just in time  
There protection comforts us to be just fine  
There affiliations come to us they must arrive  
Then affirmations confirm trust in the Divine**

## **Asea**

**Both my tongue and soul left with His union  
Where's a tongue to express my soil's region?**

**Only at nighttime can the moonlight be seen  
Only through desire we find our heart's dream  
I am truly in love with God's mercy and wrath  
Such a wonder I'm in love with opposite paths**

**Love's nationality is apart from all religions  
The Lover's nationality is our Beloved religion  
The Lover's reason is apart from other reasons  
Love is both the light of time and life's season**

**God has created both the earth and the sky  
In their midst has lit many fires and lights**

**The earth is for our physical well-being**

**The sky is for our spiritual well-being**

**Through love God created both worlds**

**Everyone benefitted from our Lord's work  
Ask from the One who saw the Sun of Religion  
What is the path to the Kingdom of Heaven?**

## **AwaKing**

Ho, tender, haste, the beaker bring,  
Fill up, and pass it round the ring;  
Love seemed at first an easy thing—  
    But ah! the hard awakening.  
So sweet perfume the morning air  
    Did lately from the tresses bear,  
Her twisted, musk-diffusing hair—  
    What heart's calamity was there!  
    Within life's caravanserai  
    What brief security have I,  
When momentarily the bell doth cry,  
Bind on your loads; the hour is nigh!  
Mark now the mad career of me,  
    From willfulness to infamy;  
    Yet how conceal that mystery  
    Whereof men make festivity?  
A mountain sea, moon clouded over,  
And nigh the whirlpool's awful roar—  
    How can they know our labor sore  
Who pass light-burdened on the shore?  
Rima, if thou wouldst win her grace,  
    Be never absent from thy place;  
When thou dost see the well-loved face,  
    Be lost at last to time and space.

## **Baby**

**Baby we can get it  
Maybe we can get it on  
Maybe we can hit it  
Baby we can hit it off  
I just want your loving  
I will never shut you off  
Pull it off together  
I know we've been here before  
Baby we can get it  
Maybe we can get it on  
Maybe we can hit it  
Baby we can hit it off  
I can't find a reason  
Why we held it off so long  
I can't stop believing  
I will never do you wrong**

# **BANG!**

**Bang bang, she shot me down  
Bang bang, I hit the ground  
Bang bang, that awful sound  
Bang bang, my baby shot me down**

**I was fine, and she was sick  
Holes of whore's came with tricks  
I was the day and she was the night  
She would always dim the lights  
Seasons came and changed the time  
When I knew love, I called her mine  
But she would always laugh and say  
"Remember when we used to play?"**

**Music played, and people sang  
Just for me the church bells rang  
Now she's gone, I don't know why  
And 'til this day sometimes I cry  
She didn't even say "Goodbye"  
She didn't even take the time to lie**

**Bang bang, she shot me down  
Bang bang, I hit the ground  
Bang bang, that awful sound  
Bang bang, my baby shot me down**

## **Deeds Sown**

**In the skies green fields there's a sickle moon  
My deeds sown so the harvest will come soon  
My luck has dawned and brought out the sun  
The past is gone don't despair all you've done  
The time we die we climb up through the sky  
Your lamp will light up the sun as you rise  
Please don't trust the shining moon who  
Stole King Cyrus's throne and others too  
Jewelry can charm and may lead you on  
Beauty's reign is brief and quickly gone  
God keep the evil eye away from our field  
God please make the sun and moon yield  
Don't boast when love's matched with you  
The moon and stars harvest a grain or two**

## **Temporal Consequences**

**Doses of emotionless Souls  
Whose stillness follows motions  
Past pushes flows into moments  
The future's pulled by our presence  
A Precedence of Presupposition  
Experience sufficient Evidence  
Past initiations, present invitations  
Statically shedding existence

## **Paper Chase**

**Lab rats on the paper chase  
Lap tracks to raise the stakes  
No place to escape so chase the race  
In a hazmat suit with a gas mask,  
Getting a lap dance do twerk dat ass  
I'm in my bag, man, I bridge the gaps  
Space is sacred yo I change the game  
Players I name aim to be humane  
Rules we make ain't no other way  
Moods upgrade states are attained  
Fools are late passing is this parade  
Tools of the trade act like its charades  
Schools we train with signs of language  
True gains, smile laughing to the bank**

## **BeLoved**

**HU would be loved let him possess  
A true Beloved's blessedness  
And share a secret oneness  
Love's mysterious consciousness  
Lovers like us none else, I guess  
Are found in each other's presence  
Soul of the World was the name  
Whom my idol made sacred  
While I'm alive her I proclaim  
The Soul of my World became  
None other own's the same place  
Of trust and loyalty that we share  
So, take me as I am, hold my hand  
I promise I'll be the best man I can  
Promise me you'll be my best woman  
And I swear by you I'll always stand**

## **A mirror**

**I existed in the days  
When there was no age  
When there were no names  
No sign of anything named  
From high came all the names  
No-mind, no time in that space  
God's light is the place of no place  
God's sight is both night and day  
My eyes close while I meditate  
My mouth opens while I pray  
The mirror reflects our faces  
Yet the mirror has no faith**

## **ConSequence**

**Consciousness a consequence of coincidence**

## **Common Sense**

**Common sense welcomes comments  
Because logic seldom takes offence  
As it rejects the pretense of defense  
Rather embraces embarrassments  
While gathering our consciousness  
In order to gain more conveniences  
And attain life's balanced conditions  
Of these purely passionate attractions  
With truly dispassionate detachments  
Believe compassionate commiseration  
Actively receives physical sensations  
Passively achieves spiritual realizations**

## **Make-Over**

**Shall I tell you a secret?  
We're charming robbers  
And the stealers of hearts  
Successful friends of the One  
Outdated preaching is Done  
We aim straight at the heart  
If the mind tries to take over  
We will find it a make-over  
We turn poison into medicine  
And our sorrows into blessings  
Blessed are poems pouring thru me  
Because the sound of my own poetry  
Will drown out the Song of Love  
Poetry flowing the Wine of Love  
That I accept only from my Beloved  
Forever lives the poem of our Beloved**

## **OverLord**

**Beyond this known world  
And the life that we know  
Watching over us is our Lord  
He is hidden from us All  
Us beings are His shadow  
Our shadow is this world  
Light up the road to love  
Lighten the load of All  
Let Love be the Judge  
Beings in love with love  
Are friends of the Beloved  
Become drunk offering love  
Leading to my Lover is my heart  
Soul leading us all to our Beloved**

## **Blinded**

**I don't know what we been looking for**

**I hope we find it**

**I'm so indecisive**

**Stuck on you I'm blinded**

## **ArcheType**

**For every form witnessed has its archetype in Infinity  
The form has transformed matter to rest in Eternity  
Every face you've seen or names you've heard  
May've passed but don't regret that they've left  
Discovering the body's temple uncovers our soul,  
The world's cup is pure love, all who drink are whole.  
When the tavern's host becomes my heart's companion  
My blood ferments to wine my heart's cooked filet mignon  
When our vision's decision sees all as God's Children  
Thy will be done, Holy Grail your Trail we'll see Wisdom  
Love's work goes under the covers to purify us lovers  
Involved for us to solve and evolve into our Beloved  
When all of a sudden my heart saw Love's Sea,  
It left me and leapt up singing, "Where are we!"  
The radiating light of the Sun's resplendent rays  
Trace the sky like passing clouds on any given day**

## **Immortal Mortals**

**Last night I delivered a message to the stars  
Sent the moon my regards to take care of us all  
I prostrated myself in prayer saluting the sun  
That transforms stones to gold by reflection  
I bared my breast and showed my beauty scars  
Cheers to the Beloved, who drinks our blood  
I sought to and fro to quiet my inner child  
Hand's that rock cradles, also raise child's  
True nature-fed inner child's stop weeping  
Surely mature best the time we start weaning  
The heart's home has always been our Unity!  
How long will our monkey mind climb trees?  
I am speechlessly selfless for you must realize  
Mortals are given life just to become Immortalized!**

## **Hide & See**

**Each moment and every night  
Someone's walking into my sight  
Someone's talking into my mind  
Somebody who's not by my side**

**O my Beloved beauty (cutie)  
When you wear blue (hue)  
You become like the sea (deep)  
Full of long waves and love songs  
You become like the sky (high)  
Filled with light rays and sunshine  
I'll be a fish thirsty for your water  
I'll be a bird in need of your air  
Joyous for being united with you my lover  
Loving, Laughing, Dancing and Romancing  
Couple's kissing and hugging, Single's mingling**

## **Oneness**

**Life flourishes as your bright countenance is here  
Come! For without your face spring's left the year  
If tears course down like raindrops now, it's right  
My life flashed by longing for you all these nights  
Seize these moments while still time for meeting  
Since none knows what life brings: life's fleeting  
How long we enjoy our sweet sleep our red wine  
How long we enjoy our green weed our get high  
Wake up think of it! This life's only for a while  
Wake up think! This life's not yours nor mine  
She passed me up without even a glance none  
My wretched heart witnessed life being gone  
All lives centered on her lovely mouth confess  
Less thoughts so feel absorbed in the oneness  
I've lived my life without a life, it is what it is,  
Who counts misses, for life gets what it gives!**

## **Can't Blame**

**My heart goes out too easily  
That happens when its on the sleeve  
Off the cuff-links not even bluffing

## **Conscience Conscious**

**I know that I don't know, I'm conscious  
And I feel what you feel in my conscience  
I love what I hate with no contradictions  
Yo, U lie when you say the truth's constant  
I say the truth that conscience is constant  
Our conscience exists without contradictions  
Only with consciousness exists true oneness  
Therefore, in oneness lives our consciousness  
Without contradictions lives our conscience  
Your conscience, in truth, is what's constant  
I'd be lying if I said that my truth's constant  
As we all hate what we love so constantly  
Yet, I feel what you feel in my conscience  
Tho, I don't know what I know unconsciously  
More Conscience Emotions, More Conscious Intellects**

## **Coquetry**

**We were two kids sitting in a warm moon shadow,  
breathing truceful air  
of fresh pine needles.**

**We were two micro-dots  
revolving in cold space  
as planets came and went with  
a loud rumble.**

**We were two giants  
sitting on kingdoms,  
listening to the footfalls  
of a thousand tiny feet.**

**We were nonexistent,  
watching mechanical lighted birds  
carrying precious cargo  
to their destinations.**

**We were very silently  
saying more than a million words,  
sitting in a warm moon shadow.**

**The world's an old woman  
Don't be fooled by her covering:  
From the outside, all coquetry;  
From the inside, all infamy.  
Don't lose your heart to her coquetry**

## **Cosmic Pallet**

**He takes His brush,  
Mixes His never-ending pallet,  
Pours it upon the Earth.  
Mixing, swirling, ever-changing,  
A kaleidoscope made only for me.  
A wonder, a blessing on mortal sight,  
He creates the night  
While all colors fade to gray.  
All vibrancy simply an illusion,  
A remembrance of times past,  
He pierces the cloud of darkness  
With His celestial pinprick.  
Darkness calls, brings one and all,  
The death of light, the draw of night,  
Brings crippling fright as an awesome sight.  
The night is mended as the dawn breaks.  
The great tailor repairs the pinpricks of luminescence,  
He folds the black cover of night and stores it for another time.  
The painter begins anew.  
The beauty of day, the mystique of night,  
All pale to the transition.  
Sunrise, sunset. Inhale, exhale.**

## **Creation**

**Joyous when both of us are seated in the castle  
With two different bodies but with the same soul  
This is the greatest wonder that while sitting,  
Our souls can travel by astrally projecting  
World's a mirror and love's its perfect reflection  
Whenever have parts been more than their sum  
With a Midas Touch he was playing a sweet melody  
Drunken and distraught from the night's festivities  
New information has come just in case you're sleeping  
In case you have no love jealous heart's are bleeding  
Taking away veils Love's an Ascension Movement  
Begins by being selfless ending with transcendence  
Created in God's image to show the value of existence**

Anything more you must decline  
To the mystics, wine those who give  
May they with lovers forever live  
And to his lovers, a girl who's kind  
An eternal bliss may the darling find  
The eyes, which lovers with arrows slay  
May they forever be happy and okay  
My lips, the victims of her prejudice  
May her juicy lips some day they kiss  
Her past lovers, my lady does disdain  
O may my lover never feel any pain  
My faults, the preacher's do hate  
May they never be a victim of fate

## **Dears**

**The mirror was surprised, I thought it was you  
The moon in hiding from sight, I thought of you  
There were footprints behind the redwoods, true  
The deers were bewildered, I thought it was you  
The restless winds of loving days continually blew  
Where there were disheveled hair, I thought of you  
The hair's shadow cloud-like left hell out of the blue  
Another fire turned into the garden, I thought of you  
The winds pulled the skirt from the grasp of the flowers  
The lotus scent spread, I thought it was from your power  
As flowers in the garden, in your sadness I offered a rose  
Your bud became so flabbergasted, I opened up and spoke  
You saw a dead being under your feet you were sure it's me  
Then it became a shadow of a guest, and I thought it was she**

**Come and pass me the weed  
A simple game love seemed  
When I'd first encountered it  
Then difficulties I experienced  
In longing for the musky scent  
Such blood wells in lover's chests  
The breeze brings forth from her hair  
Offering us much suffering and despair  
What can truly ensure my happiness  
At love's stage in my drunken madness  
When every instant within each start  
Leaving us longing for our sweetheart  
The true initiates when offered love  
Wouldn't be intimates refusing love  
Pilgrims are known to play their part  
Wisdom's shown the way to our heart  
Vision shows us sights of the Sought  
Decision knows rights from wrongs  
The Beloved we want to unite  
No, we won't be able to find  
Til we leave the world behind  
Will we really self-actualize**

## **DescenD**

I made a far journey  
Earth's fair cities to view,  
But like to love's city  
City none I knew  
At first I knew not  
That city's worth,  
And turned in my folly  
A wanderer on earth  
From so sweet a country  
I must needs pass,  
Blazed on every grass  
What voice in this world  
To my ear has come  
Save the voice of love  
Was a tapped drum  
Yet for that drum-tap  
From the world of All  
Into this perishing  
Land I did fall  
That wine was laughter  
And grace to sip  
Like a rose I tasted  
Without throat or lip

## **Expedition**

Spirit, go a journey  
Love's voice said:  
Lo, a home of travail  
I have made  
Even now as I shrink  
To be gone from here,  
Even so then  
To part I did fear  
Spirit, go thy way  
Love called again  
And I shall be ever near  
Than your neck's vein  
Much did love enchant me  
And made much guile;  
Love's guile and enchantment  
Captured me all the while  
Now I would tell  
How you may have come  
But ah, my pen is broken  
And now I am Done

## **Different**

**Nothing was ever the same  
Other than everyone's name  
What else hangs from the chain  
What's your claim to fame?  
Uh, from the cradle to the grave  
Yeah, with no pain you get no gain  
How many graces have you stated?  
What stakes have you really raised?  
What games have you even changed?  
What states have you really attained?  
Yo, that's fate and you create it  
So, what shape have you stayed in?  
How much weight have you managed?  
In what ways have you needed challenge,  
To be what it takes for you to imagine?  
It's what makes you feel so balanced!  
Is to wake up from a trance  
In the gaze of abundance  
Ends the trace of famine  
Just the way we've fathomed**

## **Discover**

**I'll build a row-boat  
With hopes it'll float  
To sail away from shore  
And see more of the world  
In search of being more  
Aware than I was before  
Of what is beyond the shore  
I have to sail away and roam  
Like a nomad across the globe  
To know where I'll call my home  
And where I feel loved the most  
There I'll feel welcomed the most  
Where can I find peace in my soul,  
Within a world so divided and torn?  
Wisdom works to unite all life forms  
In the Lord's Kingdom we feel at home!  
We got to leave what we've known  
In order to discover other worlds....**

## **DiviNation**

**In the wine's sparkle mystics know hidden mysteries  
Every being's essence can be seen through this ruby  
The true value of the garden the birds of dawn know  
Truly not everyone that can read, its meaning shows  
O thou that learns Love's Verse from Reason's Book!  
We don't reach results by studying, have another look!  
Bring wine! The world's garden doesn't boast of flowers  
The one the wind's thief deemed lunacy was a Knower  
I offered both worlds the price of my working heart  
Other than your lasting love, everything else parts  
Stones, roses, or clay are made with auspicious glances  
Hu knows the value of life's breath, mystically dances  
Since then, the time has passed when I judged people  
For when beings are really in love, they all feel equal  
The Beloved doesn't consider ease as time's concern  
On our behalf we shouldn't be the one's concerned!  
Lyrical jewels pour out the Divine Mind of Poets,  
Hu's Known to have direct effects on his subjects**

The Truth buries the lies  
Hiding in the cloudy mind  
Where's justice to the blind  
Themselves seek to justify!

Where to see the Light  
To those short of sight  
The Need to be Right  
Never Frees the Mind  
Then why do we confine  
Risks daring us to be Alive  
Taking us to the other side  
Of the beliefs we've defined  
To change our dream of life  
Will sees a need to decide  
As Love Agrees to become Free

Til' it gives birth to longing so sublime  
Turns senseless dust to beings so divine  
That's the endless love of the Most High  
Love's presence is why we're all alive  
A message to stars I conceived last night  
A lesson of ours I received to pass time

The dimension of souls I believe that's life**

No other sickness may ever compare  
Love's a malady apart, the symbols sign  
An astrolabe of mysteries sublimely Divine  
Whether of heavenly mold or worldly cast  
Love still does lead us beyond at the last  
Reason, explaining Love, usually flounders  
Like asses in mud, Love's its own expounder  
Does not the Sun himself the Sun declare?  
Behold him! All the proof you seek is there  
The good you are set upon, whatever it be  
Its imperfection has been hid from thee  
For, every act of sin that's left undone  
Its cause has shown you what to shun**

## **Free-Speech**

I'll say it openly and be  
Happy to speak my mind  
I am the slave of love and I  
Have left both worlds behind  
I am a bird from paradise  
And can't account for how  
I fell into this trap of troubles  
Where I must languish now  
I was an angel the highest court  
Of heaven was home to me  
Adam it was who brought me  
Here to this ruined monastery  
But heavenly shade the water there  
The angels' proffered love  
Are all forgotten now and it's  
Your street I'm dreaming of  
And on the tablets of my heart  
My friend's tall stature written  
What can I do? My master's lesson  
Was this and now I'm smitten  
No wise astrologer can tell  
What stars are assigned to me  
O God when mother earth bore me,  
What did the heavenly father decree?

But only if she insists, me won't resist  
First, we appeared in the realm inanimate  
Then we came into the world of the plants  
For a very long time we were the plant life  
What we had been then we went on high  
Then turning into animal's existence  
We don't remember the life vegetive  
Save when we feel moved with desire  
Towards it in the season of sweet vines  
As babes seek the breast not knowing why  
Though it was needed to give us our lives  
For us names and shapes came into space  
At the Genesis when we were all the same**

You would lose yourself in spiritual selflessness  
I am seeking for that sacred placeless space  
That witnessing being of all forms and shapes  
Present before primordial archetypical names  
Before there was any signs of forms and shapes  
That's the nameless essence that can't be named  
It's like the traceless presence that can't be traced  
God evades being given definite shapes in any space  
Love creates life to take itself out of time and space  
Disregarding numbers speak the language of Soul  
Colorless purity's a quality rooted in the True Work  
The Sun's on the sky's throne higher than any Being  
Before which my rhymes are ready more than willing**

## **Not Indifferent**

**I need a direct injection  
Of intravenous confection  
Sent to those silent synapses  
Responsible for these lapses  
Of momentary sick sadness  
Or sudden moans of madness  
Free from mental hibernation  
Alive are our senses fascination  
Lift me from my darkened cell  
Out of the gloom I know too well  
Let my broken heart love anew  
Let my burning soul shine through  
Not indifferent but comfortably different**

## **Love, Peace & Happiness**

**Won't you get it in your head  
Got things to get off my chest  
I'll stop at nothing to express  
I want everything for my friends  
And I'm not done taking requests  
Cause I wish you all the very best  
I want us to live a life that's blessed  
I wish we'd forgive more forget less  
I want us all to live with less regrets  
I want us all to live with less stress  
We all need love, peace and happiness**

## **Getting There Together**

**Dreaming thinking in sleep  
Seeing things and beings  
Meeting for freeing the need  
For the fear of greed is leaving  
Those dear all seek more peace  
Those near all reach to agree  
Folks here all teach the angry  
Soul's freer all feel more happy  
World seer's all need the money  
Road's clear a seat for my honey  
Forms nearer only need be loving  
Born leaders only be understanding  
Only Creator will be the one judging  
Holy Creatures are the one's loving  
Lordly features be what we're wanting  
World seekers still needing something  
Together we're getting there, Altogether**

## **Reverse the Curse**

**You never know when we converse  
Whose path we'll happen to traverse  
Can anyone really be that perverse  
To willy nilly cast out a nasty curse  
To chant for effects brutally adverse  
With implications bitterly diverse  
An evil voodoo spell I must reverse  
Boils, hives, warts somehow inverse  
I throw on a coat and grab my purse  
Head off to see a doctor or a nurse  
In remedies I'm willing to immerse  
Medical bills disburse then reimburse  
I hope to feel better but I feel worse  
Suspecting I may be losing my nerves  
Let me sing my song or write a verse  
And leave my mark on this universe**

## **Get What You Give**

**My wisdom spans over thousands of years  
Genres generated from much greater Gods  
But do not bid me your generous cheer  
For fools place on others their own odds  
But it's true I've gone here and there  
My muses range from ancients to peers  
Yet do not mock me for the secrets I share  
How would I greet you? In silence and tears  
Before you judge, one more for you to hear  
The songs title is from a friend I hold dear  
Yeah, it is what it is you get what you give**

## **Give Love**

**Once upon a time  
Somewhere in life  
Deep inside the mind  
Seek to find the light  
See the night will shine  
Speak the light into life  
Feeling vibes, Speaking rhymes  
Seeing sights, Freeing minds  
Feeling fine, Reaching heights  
Treat them nice you'll be liked  
She spent the night by my side  
It felt so right by her side  
I hit it twice once from behind  
I did it thrice no I'm not one time  
Sex no sin, we committed no crime  
Let's all win giving good times  
Let's all win living good lives  
We saw the sunrise in our eyes  
We saw the sunshine on our minds  
We want the fun times to arrive  
We want the fun times to decide  
We got to love life at all times  
We gotta give love to all life  
We gonna give love to all life**

## **Gift to You**

**I need to give to you**

**I seek to live thru you**

**Yo, I feel what you go through**

**So, keep loving all that you do**

**Being happy with what you do**

**Seeing that you are doing you**

**By hearing that I will continue**

**Reaching back for your truth**

**Agreeing to pacts for more use**

**Freedom in actions is a virtue**

**Your reaction just shows you**

**Speaking raps in groovy tunes**

**Peace in fact is good for you**

**I need to give to you**

**I seek to live thru you**

## **Gazes & Glances**

**You can be the light of my nights  
And, yes life can have better times  
You and I are in the sea and sky  
For all of us here are passing by  
I really need you to speak and reply  
Much more than just once in a while  
At the sunset of fading clouds, I smile  
But please don't bring tears to my eyes  
Look, as simple pleasures come to sight  
Took simple measures to have me in mind  
How colorless and lifeless are these lines  
Your presence gives meaning to my rhymes  
Once more my poetry is seeking its flight  
If I'm a bird you're the wings I need to fly  
Your amorous glance kills all my false pride  
You always give good vibes making me high  
I love taking risks with you by my side,  
Beloved I'm dangerously in love with life**

**I've loved you in numberless forms, countless times,  
Always, in age after age, Forever, in life after life  
My spellbound heart has made/remade the necklace of songs,  
You take as a gift, wear round your neck in your many bonds  
In life after life, always, in age after age, forever.  
I hear stories of love, tell tales of being together.  
As I stare on and on into the past, in the end you arrive,  
In the light of a pole-star piercing the darkness of time:  
You become an image of what is remembered forever.  
We've floated here on streams bringing us together.  
In the heart of time, love of one for another.  
We have played alongside millions of lovers,  
Shared the same sweetness of meeting,  
Shared the same bitterness of leaving...  
Old love that continues to renew  
Today it has found its end in you.  
The love of all man's days both past and forever:  
Universal life, universal trials, universal pleasure.  
The memories of all loves saving our treasure  
And the songs of every poet past and forever.**

## **Gone**

**It takes so long to get back home, I know we Gonna  
Fight that's the way I know that the love has Gone**

**Yeah I know how to write a song

Yeah I show how to right a wrong  
Yeah I show how the rite's flowing  
Yeah I flow now the nights are long  
Yeah we grow how the vibe is strong  
Yeah we home now the drive is bond  
Yeah we boned now the high is gone  
Yeah I'm stoned now the lights are on  
In a zone now the heights are so long  
In my mode now the fights are done  
Mark my words how the wait has gone**
