## **Rima Remembered**

**Rima! From whom have you learned to pray this way?  
That the Beloved, into gold turned your words and name!**

*Silence:* **your peace of mind is a gold mine so Sacred  
Now Here is nearest for seeing with proper vision  
Where the body becomes the Soul's instrument  
Conscious of hidden treasures within the chef's recipe,  
The soul kitchen's main ingredient is Love's specialty.  
In this world's marketplace don't seek contentedness  
For the Creators are the most joyous and conscious  
Those with purely polished mirrors as hearts  
Are capable and able to perfectly reflect life's art  
If the poor lover scattered his heart's counterfeit part,  
Don't worry for his matter completes another's part.  
Although I am far from you, you are far from none:  
For my hope of union with you has never gone!**

# **KisMet**

**Above & Beyond outstanding  
Forever, Always standing out  
Hanging out Rapping out loud  
Matching sounds making rounds  
Watching crowds Attracting fans  
Creating supplies Gaining demands  
Innovative minds reigning in command  
Awake souls sharing content control  
It's our world of shapes and forms  
It's our words shaping our forms  
From two we form the One re-born  
From two we join for One re-form  
Involved in love evolved lovers perform  
Informed of problems we solve dissolve 'em  
Revolving around each other's best interests  
With our attention on pure intentions  
And true affection for all us members  
Remember we're all sure to benefit**

Creating time and space**

**Ya, you are my heart  
The place all life starts**

## **Better World**

Love's freeing thoughts in mind's jail  
Light speeds ahead of time's grey scale  
Life's led within the space that prevails  
The truth of each being leading the race  
Reaching freedom what us beings crave  
See-shores are also hearing these waves  
Peaking hills spill waterfalls into valleys  
Freeways, streets, boulevards and alleys  
Us beings always seeking pleasure's route  
But beliefs never where treasure's found  
Nothing new under the Sun, no doubt  
Sky's hue always blue without clouds  
Witnessing its silver linings all around  
This better world that we all dream about  
Wishing lucky stars will be shining down...  
Telling hopes to telescope's looking glass  
Absorbing self, to recording cosmic raps  
Peace cords, morphing notes into pacts  
G codes pick locks off Master Keypads  
Beast mode slipping off this duck's back  
Twilighting dusk's moon up dawn's crack  
Early birds-eye view more worms to catch

## **HER**

Who is “She”? Hu is “She”!  
She who gives you so much passion,  
She who turns your bitterness to joy,  
She who transforms a devil to an angel,  
Hu turns mornings to a feast,  
She who grants vision and wisdom to a man born blind,  
Hu brightens up the dark,  
Hu softens the thorns and turns them to flowers!  
She who gives light to the stars;  
She who solves the unsolvable;  
She gives mercy to all servants and admires Her own creation too;  
She who lets sins fall away, like the autumn leaves,  
Hu whispers excuses in the unbelievers’ ears,  
Tells her to say, “O owner of loyalty, forgive me, for my sins”  
And when she starts praying in hiding She whispers, “Amen.”  
It’s love that in good and evil puts power in our arms and legs.  
It’s love that matches this weak body with the body of Gods.  
Besides her, I have nothing else to do.  
She’s my work, she’s my workshop too.  
She’s my world, and my worldliness too.  
I brag and brag and brag, because she’s purchasing me.  
I’ll fly to the sky since she’s my feathers and my wings.  
I’ll reach to the heavens, because she’s my head and turban.  
Like a garden of flowers, I color-she’s given me all the paints.  
Like the life-giving sun, she showers me with precious light.  
Why has the house of my body become the Mecca of the masses?  
Because night and day she’s all over my body.  
She says, “Stop now-how much you brag and brag!”  
What can I do? I am so very helpless, ooh  
My “too little” and my “too much” are of her too.

## **High On Life**

I don't speak, I float in the air wrapped in a sheet  
I'm not a real being, just a ghost trapped in a beat  
Speaker boxes release me of my trance, so party and dance  
I translate as my voice is read through an echocardiogram  
The noise instead transmitting Life Lines straight ahead  
To uplift all spirits becomes the only choice that's left  
Right now see your soul Opening wings take flight  
Like the GOAT Michael "Air" Jordan in his prime  
Teach tongue in cheek let students stick out their tongues  
Begin French kissing miss and mister now speak in tongues  
There's a certain intrigue within our physique, a witnessing energy  
Its mystique seeks to show the unique, even though it knows unity  
Poetry roots deep, rockin' steady, for our seeds to grow fully  
Blessed MiCs from Cali to Iran, AmiRimA, rap flows yours truly

## **His Story**

**In all the Magian Monastery  
There isn't one as high as me  
My cloak is the wine's hostage  
Its chamber is within my heart  
If the mirror of our king is dusty  
From God I seek to speak clearly  
I've repented to that idol wine seller  
Not to drink without our fortune teller  
The flower bragged about its own scent  
Don't fret even the blind are given attention  
His story can only be told by a burning candle  
Or else the butterfly wouldn't care to lament  
This stream is plugged from the outskirts  
Of our sights unless they put me on first  
Freight ships bringing barrels of wine  
Compassionately I've searched to find  
Don't worry me with finding my mate  
With wine and weed merry I will make  
This story is told by the glorious morning  
For inside the bars music will be playing**

## **Hold My Own**

**Yo, I can hold my own  
With the world's known  
Poets in verse or prose  
Poetry immerses the flow  
As I get up from my revelry  
I'm all set to have no rivalry  
Left with my thoughtful dome  
And when that leaves me alone  
I roam to Rome and back home  
Undeclared—Undetected—Perfected  
My style's mastered and protected  
By the Most High's Divine connection  
Impulses, inclinations giving direction  
Listening intently to sense's intuition  
For the next bend along life's mission  
The latest end begins as a decision  
Til time blends it all in your vision  
In consciousness enters intention  
It takes space to implement, right  
For it does take some time to find  
The sight that shines in your mind  
Is the light that shines in your eyes**

## **Holdin'**

**Dear Beloved Life  
Near as Beloved Wife  
Here as Love & Light  
Years of Sun & Shine  
Fears gone out my mind  
Tears poured out my eyes  
Clear your own lies  
Heal your own ties  
Feel your own high  
Need your own time  
Be your own Guide  
Free your own mind  
Reveal your own light  
Appeal to your own kind  
Be Real to your own life  
Yo, so seek and you'll find  
Fixed designs of light divine  
Color Coded in my rhymes**

## **Holy Grail II**

**I'd give it all up my love  
Drinking from the cup  
Of youth's fountain love  
On truth's mountain, yuh  
If speech is silver, yo  
Then silence is golden  
I'm blazing more trails  
While waiting to exhale  
Like raining Mary's Hail  
Like chasing Ginger's Ale  
Stating stories singing tales  
Gaining glory and Holy Grails  
My cup overflowing Holy Grail  
My bud always grows Holy Grail**

## **Holy War**

**We at war with unjust politicians  
Greedy dictators, corrupt terrorists  
And big businesses rigging this system  
See the stem and get to its root  
Not far from the tree fell its fruit  
Seeds planted into our children grew  
To raise the youth tell them the truth  
The flavor you taste is sent as proof  
The labor you take to squeeze its juice  
That favor's repaid by seeking its use  
Savor what's made don't be confused  
Seize the day, for the sleep you lose  
Seeks to gain the field you choose  
Don't speak in vain to feel valued  
Those deeds yield pain, not virtue  
You reap what you sow that's true  
You won't keep what you owe, sure  
Yo, teach what you know to be sure  
Go, reach that to grow and be pure  
The Holy War's against our carnal soul  
It's not against the people of the world**

## **Home Coming**

**I'm coming Home, I'm coming Home, I'm coming Home**

Uh coming into my own  
To holding down the fort  
Even when we're on the road  
Can't leave without our phones  
Beings are seeking to be known  
Some things just never get old  
Other things we just can't afford  
Want to see how much I've grown  
While managing my time alone  
Child's adapting being in the zone  
Fathering my style never been a clone  
New wedding trends enter the drones  
New setting still sitting on our soul  
Truth raises us up to love our work  
Time changes us just go with the flow  
Mind states polishing philosopher stones  
Blind faith adjusting its focus with hope  
Find grace by loving people and the world

## **Home Coming**

**I just wanna pour my Soul  
In every rhyme that I flow  
In every line that he spoke  
In any line that she wrote  
Alchemy's shine can't be broke  
Family time find me at home  
Daily life day in the life  
Of I'm at your service  
for what serves souls  
Purpose if that prospers souls  
Worth it Rap rules my world  
Fortunes attract girls in stores  
Porsche's driven by Persian girls  
Gorgeous gifted gab dulce deluxe  
Forbes A-list celebrity's living large  
Love willing demands gain scores  
Fore-fitting plans staying at home**

## **Honestly**

**Honestly you never had, honesty  
Honesty, you never had honestly  
Modesty you never had modestly  
Commonly you never had courtesy  
Policy you never had any properly  
Properly you never had property  
Probably you never had possibility  
Possibly you never had opportunity  
Opportunity you never had probably  
Property you never had properly  
Properly you never had any policy  
Courtesy you never had commonly  
Modestly you never had modesty  
Honesty, you never had honestly  
Honestly you never had, honesty**

## **Honesty**

**Honestly the honesty  
Is why they love us  
Modestly the money  
Is why they trust us  
Commonly a commodity  
Like stocks that bond us  
Properly like property  
Lands shelters houses  
Safety likes security  
And serves protection  
Serenity like tranquility  
Deserves our affection  
Surely why certainty  
Learns its direction  
Is truly why clarity  
Earns its connection**

## **Session**

**If wood could bark  
Then dogs should talk  
Eyes are watching GOD  
Rhymes are talking Love  
These times keep testing Us  
Young minds stretching out  
Love Drunk was getting up  
God's Sun keeps shining on  
One for All, All for One  
Got so much Love y'all  
Like Laws of Attraction  
If just are being's passions  
Its cause keeps on matching  
Karma's sly sense of fashion  
That's trusting this compassion  
It's adjusting our reactions  
Or adapting with detachment  
And acting with dispassion  
Adding it all up is a blessing  
Rapping up yet another session**

## **Fine-Tuned**

**Eyes ruby red tears  
For your ruby red lips  
True I'm thinking of you  
Unsure if you think of me too  
Assured new things coming soon  
Chosen Few beings controlling moods  
Spoken true lyrics consoling you  
Woke pure music conscious view  
Souls tuned into it one with tune  
Core's croon to it come on resume  
Words work to be worth volumes  
Records of songs in internet stores  
To performing songs in concert shows**

# **Honor**

**It can be only me  
I'll enjoy my company  
Loving my family  
Living comfortably  
Taking it as it comes to me  
Making it rap suddenly  
Rain, Storm, Thunder, Lightning formed  
Pray for wonder rhyming words  
Say as an honor writing rhymes  
May your honor enlighten minds  
Praise the order brighten times  
Raise your order liken minds  
Attain the border heighten lines  
Gain the decoder decipher the times  
Again gotta be bolder discover light  
Ages gotten to get older discover sight  
Sages taught with controllers discover minds  
Paces walked with cordless covered minds  
Phases thought this sort of OverMind  
Pages wrought with words to never mind  
Phrases sung musically for better times**

**Your Honor: Honor Your Honor....**

# **HOPE**

**Hoping for the better days  
Now we got a different way  
How 'bout giving myself away  
By giving what I want to gain  
Like another way to give thanks  
Find another way to sing praise  
There are so many ways to pray  
Wild hunters chase larger game  
I'm wishing to make a change  
Signing way too many surveys  
Want to raise minimum wage  
We're working for bigger pay  
Or for serving a greater state  
Learning more we appreciate  
Earning rewards keep on saving  
Yup, checks and stripes are stating**

## **Hope for the Homeless**

Have you ever wondered  
Why we feel so bothered  
Why we drink so much  
Why we crave for drugs  
Why we dig in the trash  
Or why we beg for cash  
Have you ever really looked  
Deeply into our eyes, look:  
You'll see the loss of being loved  
And feel the lack of being touched  
Tell me why can't you see  
That we're also human beings  
Nonetheless, so very true  
It could have been you  
That never got the love  
Or never had the trust  
Of parents and friends  
To make the ends meet  
And of course we see:  
That we're mostly to blame  
Yet most of us feel ashamed  
For making our own mistakes  
Should we forever have to pay  
Should we always feel in vain  
Tell me why can't you see  
Us in your family tree  
  
We all need to be loved  
We all want to be touched  
If we all just had enough,  
We wouldn't struggle so much

## **Horizon**

As the dark sky fades into bright brilliance,  
My mind travels on a magical path,  
Penetrating into another world behind the horizon.  
The sun of new life has just begun.  
My feet are soaring like wings,  
My soul gains way to newness and anticipation.  
The heinous struggles have left me.  
All the icy pasts spare my sanity.  
The roaring seas of danger I have overcome,  
The sadistic strains of reality have blossomed into strength.  
The sky was once in its darkest gloom,  
The sun was seemingly hidden for eternal doom.  
The picture of the sky was an abominable sight,  
Everything seems to have lost its glory of life.  
But dusk arrives like in a shining armor of light and hope.  
The majestic sun glows and rises like a phoenix from ashes.  
The sunrays give strength and newness,  
Darkness has no chains and controls.  
It is time to leave the dusts of time behind and move on.  
A new life has just begun again,  
Just beyond that beautiful horizon.  
A new life has just begun again,  
Just beyond that beautiful horizon.

## **How Many**

**How many times must I recreate  
How many minds must I restate  
How many rhymes must I relay  
How many vibes I just translate  
How many nines I just gotta slay  
How many dimes I just gotta stay  
How many lies I'm not gonna name  
How many nights I'm not gonna state  
How many drives did you wanna take  
How many dives I don't wanna take  
How many smiles I don't wanna waste  
How many lines I'm not gonna wait  
How many miles I've come a long way  
How many rides I've road long ways  
How many drives I've drove long days  
And late nights I've known both ways  
Celebrate life I perform to praise yo taste  
Celebrate light perform for grace's sake  
Celebrate love I perform to raise tha' state  
Celebrate one I perform for our great gains**

## **I Care**

**I want you to know I care  
Come here we can go there  
I want you more than air  
I want you to know I share  
Love, no fear I'm not scared  
I want you to know I'm prepared  
You got to know I'm aware  
I'm just I'll show you I'm fair  
You must know I'll share  
I trust we'll grow like hair  
I want you to know I'm there  
I want you all to know I care**

You're all I wanna be told  
Warn me when I'm too bold  
You're all I wanna hold  
Warm me when I'm cold  
Somethings never get old  
Wanting better for souls  
Loving forever my girl  
Wanting everything for her  
Something every man longs for  
Same thing every man comes from  
Main thing every man comes for**

**I Swear to God I Love U  
I Swear to God I Love U  
I Swear to God I Love U**

# **illuminati**

**If we knew more about the money system  
We would revolt like soldiers on a mission  
Central banks are cartels of governments  
As their partners granted by our politicians  
To create counterfeit money causing global debt  
They disguise the cost and hide those at fault  
Hiring citizens as slaves to labor their wages  
Tax was regulated for us to pay politicians  
That debt plus interest to central banks  
The secret agenda of those bank owners  
Is total global reform planning to control us  
Secret societies controlling supplies  
Got their eye on our souls like spies  
By controlling money, energy: food, water  
Health the media and seeking to privatize the net  
Repeating their mistakes is a policy of dishonesty!  
The illuminati are shifting the shape of the world  
Into super states beyond nations to control  
They have created populations of prisoners  
Planning to cremate most of those inmates  
Distorted destructive world view of scared scarcity  
That in fact has created desperate governments  
A new World View sees this crisis as a catharsis  
Let's actively participate locally for global renaissance....**

## **I'm Down**

**I want to be down (down)  
With what you're going through  
I wanna be down (wanna be around)  
I'm gonna be around for you (for you)**

**I know everybody's lonely  
Without somebody to love  
Yes, I want to stay by your side  
Let you know all will be alright  
If all you need is my time  
Be with me while I'm alive  
If you don't know I'm for real  
I could be wrong but I also feel  
But the more that I see you  
The more it becomes so true  
That all my love's just for you  
Of that I want you to be so sure**

**I want to be down (down)  
With what you're going through  
I wanna be down (wanna be around)  
I'm gonna be around for you (for you)**

## **No Fear**

**Yo I'm here  
Wit no fear  
We all disappear  
And reappear  
Just us here  
Trust love dear  
Want us clear  
Want us near  
Love in yo ear  
Loving you freer  
Look in the mirror  
See the bigger picture  
Go fish the figures  
Go fix the triggers  
Hangman Stick-figures  
Satsang's sing scriptures**

## **I'm Just...**

**I'm just a sailor**

**Whose gonna lose sight of the shore again**

**I'm just a tailor**

**Who wanna sew your size again**

**I'm just a mayor**

**Standing up for your rights again**

**I'm just a player**

**Gaming for your delight my friend**

**I'm just a preacher**

**Speaking for the light my friend**

**I'm just a teacher**

**Your speaking is just fine my friend**

**I'm just a believer**

**Siding with the times my friend**

**I'm just a seeker**

**Seeking to find you again my friend**

## **G.'s Fourth Way**

**For the fourth way you don't have to change the situation  
the preparation must be gotten ordinarily and be a very serious one  
furthermore there has to be favorable conditions  
that is for work on the fourth way, conditions  
of life in which at the beginning  
of the work, the work finds him  
so for him these are natural conditions  
The man himself are these conditions  
since a man's life normally correspond to it's conditions  
The fourth way is named that of the 'sly' one  
who knows some secret the others don't own  
how this trick was learned is not given and faith isn't needed to be shown  
Known is it consists of simultaneously working on the 3 rooms  
i.e. while working on the body working on the mind  
and emotions all at the same time  
while working on the emotions working on the mind  
and body or even when working on the mind  
working on the body and emotions again at the same time  
A whole parallel series of physical, mental, emotional  
exercises combine to serve the purpose of becoming immortal**

## **ImproveMent**

**This movement  
Started in my room  
Towards improvement  
Forward the moment, few  
Pins that hit the ground  
This pen lit with sound  
To open up in surround  
Ana logs off to dig it all  
Rima longs to get it all  
Together to gather rather  
Forever farther the race  
My friends partners or flames  
These poems spoken as words rhyme  
These flows chosen like world's minds  
Self-awoken like we're on soul's time  
Fluently flowing holy host of lines  
Briefly showing up to toasting wine  
All One only roles we're assigned  
Assuming desired positions are hiring**

**The Iranians living abroad  
Mostly North America, Canada  
England, Turkey and Australia  
Never gone Down Under, man  
To that Aussie Southern Land  
A third populated by immigrants  
Though London I've often visited  
There I have cousins and relatives  
Turkey Iran are equal in inhabitants  
But I've been to Toronto two times  
Up in the CN Tower scraped the sky  
See-Thru glass don't be scared to try  
Plus, the Niagara Falls with boat rides  
Love I'm from Cali the state of sunshine  
Living in the city of angels creating light**

**Positivity horizontally vertically  
Time after time in many Countries  
In ideas speech and deeds  
Leading to loving states of Being  
Gradually evolving states of beings  
Eventually enlivening states of beings  
Consequently, enlightened states experienced  
Experiencing life's state of experience

## **Jealousy**

**The root of hate is jealousy  
I cannot mess with it's energy  
That's not why I keep breathing  
That's not why my heart's beating  
It's gonna take the man in me  
To defeat and conquer our enemies  
Politics greed business monstrosities  
Dismissing people's needs necessities  
Just dissing money hungry monopolies  
Conglomerate corporation's companies  
Justice keeps loving all human beings  
Giving each other more opportunities  
Living our lives more respectfully  
Keep getting closer to liberty  
Creating possibilities following dreams  
Empowering you and me to be free  
Honesty being life's policy  
Modesty being love's priority**

**We make dope music just say no to drugs  
If I'm talking to them then I already said yes  
But I guess someone took my mood ring  
Now I don't know how I feel about it  
But I found out they weren't useless  
For they served as bad examples  
Hear about the new restaurant Karma  
There's no menu you get what you deserve  
Scientists why don't you trust atoms  
Because they make up everything  
How do you throw a space party? You planet  
You hear about a couple who stole the calendar  
Yeah, they each got six months  
What's an apology written in dots and dashes  
It's called a Re-Morse Code  
Times New Roman and Arial walk in a bar  
Bartender yells "We don't serve your type!"  
Yo, how do poets say hello  
Hey haven't we metaphor  
I, for one, like Roman numerals  
Why can't you explain puns to kleptos  
'Cause they always take things so literally**

## **Jo Kin' II**

**One hat told the other you wait here, I'll go on a head  
My left eye told my right eye between us something smells  
Someone spilled scrabble letters on the road  
So I asked what's the word on the street  
To drown a hipster throw them into the mainstream  
What's a train carrying bubblegum A chew-chew train  
Hu is the claustrophobic astronaut  
The one who just needs a little space  
You hear about the actor who fell through the floor  
Yeah, they say he was just going through a stage  
Doc help me I'm addicted to InstaGram  
The doctor said, "Sorry I don't follow you!"  
Yo, why did the M&M go to school  
Because it wanted to be a Smartie  
How does a Rabbi make coffee He brews it  
Rest In Peace boiling water just know you'll be Mist!**

## **Journey**

Inevitably, from my journey  
The wind trapped isn't free  
It is possible to run away from self  
Feeling the sorrow of homelessness  
People not recognizing you isn't sojourn  
When your friends forget you it's sojourn  
What is love? Baby don't hurt me  
Lady don't hurt me, pretty please  
In vain your eyes are fixed on the mirror  
Tears fell from eyes when it became a mirror  
Traveling's an excuse to meet each other  
Traveling's an excuse to know each other  
In your locks of hair there's a knot  
Don't think it's time to untie our knots  
Way too many are far worse than me  
And many are better than you'll ever be  
Language is limited in these lines  
To salvage our liberation don't fly  
What are you so very attached to these days?  
Like criss-crossing lines we go our own way!  
I came hesitantly but left with certainty  
I shouldn't have gone to the busy street  
We easily could hear his own footsteps  
But before he opened the door we left  
Life's an apple that has fell to the ground  
We seemed to be ripe but then got rotten  
Our last home is the wandering location  
We roamed while losing the destination

## **JOY**

Happiness Happens  
When I begin rapping  
Sentences end rapidly  
Pen's sly fashion sense  
Extends attracting compassion  
Expands matching in passion  
Swag in our actions  
Sagging our pants'  
Flashing your reactions  
Splashing on life's canvas  
Blazing out on its campus  
Gazing out at the Sun  
Fading into the Moon  
Hailing comets to stars  
Failing planet to Mars  
Dripping icebergs start  
Slimming reserves and parks  
Trimming support for US  
Fitting, our soldiers depart  
Getting colder in the dark  
Growing closer is an art  
Not folding your cards  
Showing roles knowing parts  
Assuming those positions  
Resuming within the rhythms  
So including's the mission  
So producing's a system  
So seducing's this vision  
So reducing is wisdom  
Soul consuming its kingdom

# **MasterPeace**

**I watched your tears fall  
Like tiny crystals  
Pierced by God's pure light  
Revealing the kaleidoscope of colors  
In your life  
Your face etched finely  
With the lines of time  
Mapping the travel of a life so full  
Boundary lines of following rules  
Depth, passion, and wisdom  
Have held me in your glance  
Your embraces kept me in a trance  
Oh, to let you know  
I'll follow where you go  
To watch your watercolors fade  
A pool of rainbow haze  
My life has been spent  
To witness each event  
A work in progress now complete  
So, behold our masterpiece**

**Yo man I'm from LA  
No mam I don't bang  
I'm all about my game

Don't need to go against the grain  
Joining people against the pain  
Flowing equal stand the rain  
Knowing legal command the chain  
Showing deep love demand the fame  
Growing keeps us understanding the ways  
And means just enjoying our days  
As night falls into more daze  
Spirit spiritual rituals so mystical

The peace which seeks to be gained y'all  
Is the peace which seeks to be given y'all  
Yo So keep the peace of a peacekeeper  
AmiRimA's speaking to MasterPeace**

# **Language**

Within the unconscious collective  
Bodies speak through nerve webs  
In the dialect of astral origins  
Way beyond our intellects  
In cool quarrels of reason  
We lose ourselves in ourselves  
While our place in the universe  
Is always perfect and our fantasies  
Of lustrous metaphors carry us across  
The fences of what we fear to believe  
To hope to know our slumbered dreams  
Our subconscious maps vaguely mystify  
Our waking dreams rarely do they realize  
We must speak another language  
Where waves beat against rocks  
Like white foam of countenances  
Another language than only bread  
And the rustling of money bills  
Language: not monotone intonations  
Of the anchorman's news reels  
If not the almost unthinkable occurs  
The pain invades in stressing hormones  
Another language than everyday semantics  
And our conversational reflections  
Far beyond all of our beliefs  
Is a language where beings meet

## **Legend**

**You know our Personal Legends  
Are in the Soul of the Universe  
Yo, joy feeds the World's Soul  
Our Legend is our Soul's work  
It begins with beginner's luck  
Or principle of being favored  
Coincidences, chance encounters  
Being interested in the present  
Gives us the gift of happiness  
Living life with consciousness  
Physically, mentally we'll be tested  
For our spirits to reach perfection

## **Being's Essence**

**Because loving is truly Divine  
The cause of longing is to unite  
Within our Lord the Most High  
Written are words in the Soul's sky  
Hear art works for our Soul's flight  
Near are souls to the World's light  
Like the Sun giving us all life  
Like the Moon rising our tides  
Like the Stars shining at night  
Light of Day guiding us alright  
Light the Way guiding all of life  
Light's waves rhyming at all times**

**Yes, I have witnessed many things  
Yet you're the essence of my being**

## **Light & Waves**

**Since we are from Above  
Therefore, we'll go Above  
As we are all from the Sea  
Then we'll end up in the Sea  
Not from here nor there  
We are from nowhere  
And we will all go there  
The story of Love is One  
But it makes me wonder  
Whoever that it comes from  
It's never repeated even once  
If angels are hidden from sight  
Humans concealed to the wise  
Not even relatives can define  
If soul is hidden from our eyes  
The Holy Spirit won't be in sight**

# **Light Of Words**

**To ever go against  
One of your opponents  
Or several of them  
Is severing exponents  
And factors from the equation  
Parts are less than their total sum  
Numbers divided into fractions  
Talking less: math lessons  
Members defined by actions  
Remember why I'm rapping  
Whenever I rhyme I'm happy  
Wherever I write I'm at ease  
However, I unite I'm at peace  
Forever the light shines in poetry  
Words can never paint a picture well  
Worth whatever's said in a scriptures tale  
Scroll better navigating heaven and hell  
Chosen letter migrating from cell to cell  
Go getter translating to more sales  
Goals getting relayed for retail  
Worlds getting played for its details  
Souls destined to stay on these trails  
The Role I question to pay and prevail  
The Whole I'm blessed to pray and farewell**

## **Money & Security**

**You didn't want to get next to me  
I think I just sent texts for free  
My coffee must melt chests of greed  
My shrink must take shots for me

Our work must prevail so let it be  
Our world must fare well so help it be  
Our words just mean well let them speak  
Our Lord just meant well let Him teach  
Our roads must be lit so let light lead  
Our goals need work and opportunity  
All souls just want money and security**

Here we'll be singing along!  
Clear will be our expressions  
Dear will be our intentions  
Happier will be experiences  
Better will be experiments  
Satisfied with the evidence  
Can it be that it was all so simple?  
Can it be that it was all so simple?**

**Must get Love to give Love  
Must give Love to get Love**

## **Love Life, Use Things**

**If it's Love that involves our Souls?  
What's this World? A revolving whore?  
Puppet master's slaves chopping trees!  
Running the paper race chasing money!  
Mummies, zombies choking on the green!  
Speed's addiction, charging us to breathe!  
World's war for its resources an insane fate  
Soul's torn from their source, cause of hate  
Resist the endless temptations of excess  
Relentlessly lead nations toward progress  
Knowledge's conquest conquers cowards,  
Acknowledge power's presence to empower...**

**If it's Love that involves our Souls?  
Want some more? Revolving stores?  
Have we become prisoners of our phones?  
Have we become victims without homes?  
Evicted from our cells, we still aren't free!  
Searching for visions, we still can't see!  
Corporate mentality locking away the key  
Conglomerate reality knocking for victory  
Stop raping the Terra Firma we call home  
Star maps gazing on Merkabah's Throne  
The information programs our formation,  
Hacked not be too attached to its location!**

# **Love Poet**

Yo, I know the best things  
So I chose the best feelings  
I rose to bless beings  
I spoke for existence

Our God is so kind  
Most High For All Sides  
At all times unified

The rhyme inside the light  
Fine times finding sunshine  
Nice nights shining bright  
Highlights bind silver lines  
Since seekers will find  
The secret of desires  
Its results are required  
Ya, you inspire drunk rhymes  
As I aspire for more punch lines  
To feast on beats like its lunch time  
Treats no tricks on this munch grind**

not composed of elements not natural or ethereal,  
I never existed as a worldly entity,  
Didn't come from origin stories.**

**My place is placeless, a trace of the traceless.  
The Truth has shared so much of Itself with me  
That I no longer call myself man, woman, angel  
Neither body or soul, I belong to the Beloved,  
Love has befriended me ever so completely  
It has freed me of every concept my mind has known.  
seen the two worlds as One and that One call to and know,  
first, last, outer, inner... just A Being Witnessing LOVE.**

**The more Life gets Love Drunk  
Beings become more Conscious**

## **LoveLight**

Lovers like souls are the light  
As stars circle the moon at night  
You, on horse of immortality riding,  
The mortal world are leaving.  
You, the pathfinder, a seer,  
Knowing the direction you're going  
Not as a trap-setting reason,  
Not with hatred filled heart  
Bitterness leaving behind  
As soul's heart you're going  
You, as spheres interwoven,  
You, the very sun ablaze,  
Found direction to the way,  
Into obscurity you're going.  
You, in his ecstasy drowned,  
By his morning breeze fallen,  
Far from schools of names,  
Deeper into meaning you're going  
O sun of the hidden world!  
In a particle enfolded.  
O king, wearing medals of kings!  
As guard you're going  
You hidden obvious soul!  
As servants, as kings O soul!  
When do I see hidden souls?  
Into silence you're going.

## **Loyalty**

**Love's loyalty Trust's Royalty Truth's Reality  
Got enough money we spend energy you feel me  
Our modesty shows honesty's policy of credibility  
So, holla at me honey whenever you want from me  
Learn to be happy for good feelings are within reach  
Deserve fun, funny doesn't take things too seriously  
Not to worry I got what you need please believe me  
Never be in a hurry and you won't ever feel sorry  
We seek peace by accepting, agreeing, forgiving  
We'll reach our own being by loving to be giving**

## **Magic**

**Yeah I believe in magic  
As I speak I'm attractin'  
All I seek like a magnet  
Yet I receive compassion  
Yes I achieve with passion  
On the beats rhymes happen  
For more peace I'm relaxin'  
For all our needs I'm so active  
For real free minds my practice  
So feel me my sign is balance  
Yo heal with sights nostalgic  
Or lead the nights so romantic**

**Do you truly believe in magic?  
For this Déjà Vu's feeling static**

## **Magic Bowl**

**Fill my magic bowl...feel my Soul**

**My heart was looking for the magic bowl**

**While it was always there built in our soul**

**It was like an oyster asking for a pearl**

**Something it could very easily unfurl**

**Still, I went to the keeper of the bar**

**In solving our riddles, love is a star**

**We all were merrily holding the cup**

**Watching the world's down's & up's**

**When asked, we said we got our bowl**

**Before the Lord could heavens unroll**

**He said that reason had a magic show**

**It could fool Moses if he didn't know**

**The answer you need only mystics know**

**The wisdom you seek only they can bestow**

**Or go to Gabriel; he'll do the feat**

**Jesus' miracles only he can repeat**

**About my girl's curls when I asked outright**

**Our Lord said they're long like the dark night**

## **Arabian Desert's Star**

**A star from Heaven came down to earth  
In the Arabian Desert he took his birth  
He couldn't read and he couldn't write  
But he could teach the brightest of lights  
A great edifice he built with such skill  
A Divine Mission Mohammad did fulfill  
My love has made me so very dignified  
That over the drinkers I now preside  
Wipe not wine from your juicy lip  
And give my lips a chance to sip  
Oh, please my darling do not be a flirt  
Unless creed & logic your lover's desert  
They'll eat, and drink and dance and sing  
And they'll become the envy of every king  
Their lovesick hearts will be ever more sick  
They'll yell, and scream and shout and kick  
They'll lose their faith, and belief, and creed  
And advice and counsel they will not heed  
And the troubles that I have I think  
Are because I chase girls and I drink**

## **Soul Songs Right the World's Wrongs**

**I'm writing these soul songs  
to be righting the world's wrongs  
Choice of fighting is with my pen  
When I'm reciting, then voice's my weapon  
My tongue's gun goes through drums of ears  
Flows whisper words, trigger the mind of the hearer  
nearer blowing brain tissues with humane issues  
to get veins closer to the heart's artistry, since you  
don't feel other cells' pain I'm making myself plain  
make life simple is my aim by taking the straightest way  
I forgo Amir for the most thorough borough to and fro  
forth and back I come to no name is what I came from  
rap flows rep that which never goes for forever knows  
no ups nor downs, off limits its infinite  
not in the vicinity it's the solely witnessed  
out of bounds it's the only thing found within**

## **Marry Me**

**May your beauty delight everyone's eye**

**May beauty itself you define and glorify**

**A heart that's not bound to her**

**May it be sorrowfully in despair**

**The piercing arrow of your lovely eye**

**Directly flies into my heart and mind**

**That vintage wine of your ruby lip**

**May I someday soon leisurely sip**

**May my true love be always renewed**

**And boost your beauty in magnitude**

**Someone who hasn't loved your face**

**To all of mankind he'll be a disgrace**

**I worship you with loving devotion so**

**May I very soon become your only beau**

**Will you marry me? Will you marry me?**

## **Beauty Queen**

**She's the queen of beauty, so bright, so sunny  
And she's my one and only lovely honey bunny  
To her I must surrender my love and my reason  
Preacher, she's all I have that's beyond seasons  
When you're a lover all you do is give your gifts  
You don't think of profit, that's the way you live  
In the thinking of lovers there's no twists or kinks  
We always do what we say and say what we think  
And whatever she asks you render, so just remember  
You can't be a lover if your will you don't surrender!**

## **Masks**

**We wear the mask that grins and lies,  
It hides our cheeks and shades our eyes,  
This debt we pay to human guile;  
With torn and bleeding hearts we smile,  
And mouth with myriad subtleties.  
Why should the world be over-wise,  
In counting all our tears and sighs?  
Nay, let them only see us, while  
We wear the mask.  
We smile, but, O great Christ, our cries  
To thee from tortured souls arise.  
We sing, but oh the clay is vile  
Beneath our feet, and long the mile;  
But let the world dream otherwise,  
Meanwhile, we wear the mask!**

## **Master Key**

**The key to our heart  
The freedom to love  
The kingdom of God  
The vision of One  
The children of Love  
Our mission has begun  
This system's corrupt  
Its wisdom was just  
The decision to become  
In rhythms of songs  
To right my wrongs  
The sighs, the yawns  
Its dusks, its dawns  
Its ups, its downs  
Comes to go around  
Become your soul now  
Be calm, you're home now  
Speaking your own sound  
Reasoning my words out  
Seasoning my flow now**

# **Match**

**The match is lit this track's a hit**

**Match the energy**

**Give affection to your attention**

**And attention to your intentions**

**And expression from your affection**

**The leap of faith had to begin**

**The need for a mate I had to win**

**To seek for a flame that's my twin**

**She'll fan my flames spread my wings**

**At dawn she'll wake her Pegasus**

**At the dock she'll take her Poseidon**

**On the clock she takes her medicine**

**Everybody has its own confessions**

Rhythmic Melodies of Harmony**

**Without music, spirits of beauty  
Wouldn't seek lyrics and poetry  
Shouldn't beats enrich our speech  
Shouldn't speech uplift the beats  
Couldn't peace gift all our needs  
Couldn't each live in their means  
Could've seen this in my dreams  
Should've seen it much more clear  
Should've been without any fear  
About how and when I'd appear  
Crowd bows and then I disappear  
Turnt up Loud then I'll reappear  
Learn Love Now I'm your mirror  
Discern Lust Now we're clearer

## **My Embrace**

**The brooding darkness of these woods  
Fed upon the native blood  
In the twisted tangle of the fallen wood  
The spirit of the fallen Indian stood  
Oh brothers, your identity a mistake  
Those who oceans crossed did make  
The greed for gold and land  
Laid waste the spirit of wisdom and grace  
The children of those who by murder did take  
Are taintless of their forefather's mistake  
But those who lived, fed upon milk of courage and pride  
Stand as spirits of defeat and shame**

**O the murdered and the murderous  
Embrace me, let me set your spirits to rest**

Maybe at the liquor store, maybe at the health food stand  
They don't know that I'm your man

**You're my lady, My divine sublimely fine lady**

I can tell they're looking at us  
I pick you up everyday from your job  
And every guy in the parking lot wants to rob me of my girl  
And my heart and soul, everybody wants to treat me so cold  
But I know I love you and you love me too  
There's no other lover for me or you

**You're my lady, My divine sublimely fine lady**

**The dirt grew into love's alleys**

**Like a lucky new beginning**

**Wherever you say I've been**

**I've got no fear, it's my lot**

**I'm here it's where I'm from**

**The way I walk they say I'm drunk**

## **No Coincidence**

**You don't believe in coincidence  
How did ya receive consciousness?  
You didn't disbelieve consequence!  
How did ya receive common sense?  
Now didn't ya perceive compliments  
How did you achieve confidence?  
Now don't deceive ya convenience  
You won't relieve ya conscience  
Of not keeping commitments  
Don't victimize circumstance  
I wanna concede the Word to Man  
We gotta complete the Cycle's Plan  
Me want peace with the unknown &  
She won't seek finding a Whole Man  
He won't need getting it at Home, nah  
We gonna be getting with the Program  
Each gotta be giving others more back**

**If God's consciousness**

**It's no coincidence**

**Notice consequence**

## **No News**

No news and no one new  
My love has sent me no letter  
For some time I haven't heard  
No greetings salutations from her  
No inquiries not even one word  
A thousand rhymes I've written her  
She's playing hard to get go-getter  
Hasn't even sent a single emissary  
Not one text no message nothing  
I'm wild with waiting stir-crazy  
Yet she's sent no envoy this lady  
She knows my heart must be  
Like a fluttering bird but she  
Still hasn't sent me a reply  
And I'm still wondering why  
That sweet-lipped serving girl  
Knows me now so very well  
I need weed to kiss the sky  
Although my mouth is dry  
I need red wine to drink tonight  
How much I boasted of her favors  
And all the kindnesses we shared  
Yet I'm still completely unaware  
Of how she's been and where  
But this is no surprise, Prince  
Calm yourself down, behave  
You can't expect a princess  
To write love letters to a slave

## **No Regrets**

**This is for all the people that do what they gotta do**

**Why do we take what we have for granted  
Granted that what we have isn't guaranteed  
To come with a lifetime warranty  
So make the most of the time warrantied  
With those making life worry-free  
Kiss, hug make love for more World Peace  
It's the Drug of Love which we all need  
I need to stay focused  
Serious pay me for my choices  
I keep hearing voices  
Between clearing the noises  
I'm feeling so hopeless  
Really give me some motive  
It seems like I go unnoticed  
As MC I know I'm one of the dopest  
Heavenly mind forms rhymes poetry I flow it  
Seventy-nine born you know who the GOAT is!**

## **No Resistance**

**Little to no resistance  
In this instance, yo  
Flowing with existence  
You know who this is  
MC AmiRimA's lyrics  
Strike hearts targets  
Like arrows of cupid  
Life's art gets  
Light grown in sense  
Time travels in distance  
Rhyme unravels its relevance  
Rhythm dances in attendance  
Wisdom watches in silence  
Witness the essence, Listen  
To the intuition of innocence  
Never think they got me  
Never been no carbon copy  
Never been no bargain not me  
Never in no jargon, sorry  
Forever been applauding Aw Ye  
Pleasure in causes Godly  
Measured in clauses talking  
Treasure the pauses watching  
Whoever that John's calling  
However, Paul got his calling  
Whatever y'all gotta keep balling  
Wherever y'all want me I'm all in**

Thankful darkened earth and sky curved  
Through sight and swirl, transparent I became  
Thankful the turning wheel, unto angels  
Kingdom, King, through merciful giving  
Enlightened, Enlivened giving I became  
Thankful the God knowing one, outrunning all  
Seven planets beyond a glistering star I became  
You celebrated moon! Look and See I'm you  
'Cause your welcoming laugh a rose garden I became  
As in a game of chess, mind in silence, by moves speaking.  
From the King's Queen joyous and jubilant I became.**

**See a world in grains of sand  
And heaven in the flowers  
Hold infinity in your hand  
And eternity in an hour  
As Beloved resides in Lover  
Love unifies beings, discover  
Within existence's deep sea  
Beings lost within immensity  
Revolving the Sea of God's love  
Evolved selves in Heaven above  
Hear, we share your nature  
One essence of our Maker  
I saw Eternity within time  
Like Infinite endless light  
All this cosmos is suffused  
By me in form Unmanifest  
In me all Beings must exist  
Although in them i never rest  
Yet beings do not rest in me  
Behold our sovereign destiny  
Begin serving unborn beings  
The self, helping things to be  
We become like one's we love  
Those one's who are Beloved  
Being was always everywhere  
Begin seeing self in everything  
I can never be lost to thee  
He can never be lost in me  
Seeking thou i become thou  
Releasing me from self now**

## **Redeemed**

**The earth, the seas and the sky  
Sun, Moon, Stars, Planets shine  
Within clouds, silver linings find  
That presence always by our side  
The Creator of every being's kind  
Unconditional Loving all the time**

**It were a vain endeavor**

**Although i gaze forever**

**Seeking outer forms, victory**

**Is within our own inner glory**

**Rarely can the embodied soul**

**Attain the unmanifested goal**

**Not existence nor nonexistence**

**The formless is the Self itself**

**Through forms its expressing**

**The various forms of devotion**

**Uplifting into palaces of peace**

**We'll shine in gardens redeemed....**

## **OK**

**To thrive and be alive our spirit  
Really needs to do its natural living  
It needs to be present in its surroundings  
Tuned in to the time and space of here/now  
To touch the well-spring of the created soul  
We must act on what we know possible  
We need to experience how actions  
Effect the universe all around us  
Then people will feel the sensations  
Of personal power as that happens  
Growing from the presence's essence  
Present in each moment, in every second  
So, our deepest wishes and hopes surface  
For most of us are seeking a peaceful purpose**

## **ConfideD**

**In truth I confided  
In youth I resided  
For use I decided  
To choose to unify  
So, refuse to divide  
To improve our ties  
Mo' kinfolk as allies (life)  
More hope we'll find (light)  
More trust we'll find (like)  
More of us when we unite (right)  
More love meant this fine life  
More one extends its life-style  
More GOD reflects the high-life  
More walks went miles to see smiles  
More talk within rhymes free-styles  
More toasts fine feelings freeing minds  
Most forwards posted focusing sights  
Dope flows chosen grooving for vibes  
High notes spoken saluting all of life  
Kind guidance finds solutions on time**

## **Open-Minded**

**I'm so broken hearted  
Got no chosen partner  
No lover no wife of mine  
No woman by my side  
But I'm so open minded  
Loves fully woke inside  
All souls always in style  
So full of hope for more life  
Energy flows throughout life  
Empty of ego and false pride  
Solely free your own mind  
Don't need to control life  
Greed can never love life  
See through other's eyes  
Only see other soul's sights  
Only seek my own soul's light  
Souls speak in flows and rhymes  
Souls feel joy, enjoy being alive  
Holy people at home with all life**

**Oh I'm broken-hearted  
I'm So open-minded**

## **Closed Eyes**

**Yes again, we're finding our doves  
Again, beauty is uniting with love  
For the quietest anthems are hugs  
Where everyone's able to get along  
What we own won't need any locks  
To feel alive our hearts will be enough  
The reason of rhymes will be only love  
The season and time will be full of trust  
There, life's every word becomes a song  
Rhymes being the response of Love  
The time our lips are so filled with songs  
We'll find our delightful kisses will bond  
Us together like beauty coupled with love  
Lovers once more we're feeding our doves**

**With an open-mind I look forward,  
It's closed eyes we move toward....**

## **OtherSide**

**Hu knows the meaning of life?**

**Hu shows the seeing of light?**

**Hu flows the feeling of love?**

**Hu grows while being all-one?**

**Hu chose my body before time?**

**Hu proposed way ahead of her time**

**Hu opposed by knowing the other side**

**Hu's come out of life more alive**

**Hu's nearly died to the other side**

## **Pain**

**No matter the pain I caused you  
I know your love remains the same  
I know you'll be fine without me  
Don't think that I could say the same**

**No matter the pain I caused you  
I know your love remains the same  
I know you'll be fine without me  
Don't know if I could say the same**

**No matter the pain I caused you  
I know your love remains the same  
I know you'll be fine without me  
Don't think that I could say the same**

**No matter the pain I caused you  
I know your love remains the same  
I know you'll be fine without me  
Don't know if I could say the same**

## **PARADISE**

**I'm in Paradise kicking my feet up  
My pair of dice spinning to keep up  
One is Reason with rhyme, yuh  
One with Season and time, yuh  
It's Love hearing you rhyme, uh  
My Love's speaking its mind, uh  
One's speaking while lines rhyme  
I'm Done being a meme or mime  
I'm Gone with the wind's breeze  
The Non-being's needing to exit  
The All seeing seeking to co-exist  
That One reaches deep wisdom  
Its wisdom leaking into systems  
This kingdom's for every pilgrim  
This kingdom's for God's children**

## **Passion**

**Full as a dam at capacity  
My passion's about to explode  
I can't escape, it's surrounding me  
Quiet the storm that I need a shelter from  
Sometimes it's soft as a misting rain  
That gently touches my soul  
It cools the fire that burns in me  
And I simply lose control  
Quiet the storm that I need a shelter from  
I can't escape, it's surrounding me  
My passion's about to explode  
Full as a dam at capacity**

## **PAY Attention**

**Pay us some attention  
Dun playing around  
Y'all kidding around  
Better listen now  
Bet I'm getting down  
My pen is letting out  
Yes, I'm flexing loud  
Next I'm blessing crowds  
Set I'm stepping down  
Yet Ascending grounds  
When Transcending bounds  
Then extending out  
End pretending Now!  
Begin trending How?  
Beings investing counts  
Freeing interesting sounds  
Hearing interest surround  
Seeing Internet accounts  
Reaching into the clouds  
Speaking attentions amount**

## **LIFE's Page**

**Like life's page flips us  
Puts a period after thoughts  
To know they should stop  
Comma's after phrases  
In pauses have patience  
Actions are like Exclamations  
Questioning our Passions  
Less passive more pro-active  
With some you have to cut ties  
Others hold onto for dear life  
No never a time to criticize  
Happiness good times provide  
Lessons gained in the hard times  
Mother nature's seasons on repeat  
Father time's seconds don't repeat**

## **PegAsus**

**Bumming it till u be bumping this  
Drum Kits & Riffs Strumming hits  
I'm Jumping into a mosh-pit  
God's giving gift of gab  
Gotta be bridging gaps  
God's fulfilling all lacks  
Gonna be bringing you back  
Like lightning strikes the past  
Like the lighting of mics  
And the Uniting of minds  
Where words & their worlds collide  
These swords with those swords fight  
Sharpened pencils Sharpening knives  
Kids in the den entering the Kitchen  
Heaven's Oven & Paradise's Stove  
Seven's Eleven & AM PM's the store  
Sex with all of my X's and loving O's**

**The horse's mouth spoke: Famous Quotes & Fortune's Notes**

## **Perfectionist**

On the sandy gravelly beach  
On a large sketch pad  
barefoot with a glass of wine  
So very totally alone  
And where is that one-legged heron  
when I need him to whisper  
the great message  
that one perfect word or phrase  
he overwhelmed the wind sending to me  
No I will not erase  
I promise to scratch out and rearrange  
with arrows and side notes  
and thus I will preserve  
the thought processes  
and building blocks  
of engaged intimacy  
from inception to conception  
for your pleasure  
my one true love  
in the words I arrange

We don't speak any more than we need  
No, I won't seek any more than I need

## **PerFumes**

**Always high off the fumes of your perfume,  
Forever falling for the tricks of magic that you do!  
O Lord! Chased by the day's anticipation, night arrives  
On the eyebrow's altar we kindle the candle of our eyes  
Near and dear to me is learning proper vision  
There the soul becomes the body's prescription  
If you truly wish to gain the Eternal world  
Tell the breeze to uncover the veil, fold by fold  
And if you are seeking to renounce your will  
Upside down or counter-clockwise, have your fill  
The morning breeze and I, both revolving without end  
Drunk from your visual, virtual sorcery and intense scent  
Supremely Excellent Intelligent are the holy souls of poets,  
In this gray matter, none better lights our stardust particles.**

## **Countenance**

**When God made your captivating countenance  
With your coquetry my work became complex  
Peace left my heart and the songbird's  
It was time for the narcissus's garment  
A hundred knots slipped us into the rose-bud's  
Within the flower's breeze is this heart of ours  
Being connected to you I begin to become content  
The end's interests concerned with our contentment?  
I beg on my dark heart, please a knot do not cast!  
A covenant I've made with the knot-loosening scarf.  
O Breeze of Union! Thou thyself were another life  
Forgive my fault, in hope of loyalty to you I'll be right!  
I stated: "On account of my crime I'll depart the city."  
The Beloved said: "Amir, you can always leave freely."**

## **Stages**

**All of the world's a stage,  
Where men and women play  
Our exits and our entrances;  
And we play many parts,  
Our acts being seven ages.  
At first we are all infants,  
Puking on the nurse's arms.  
Then whining school kids,  
Who then become lovers,  
And then like toy soldiers,  
We're jealous in honor,  
In the mouth of cannons.  
And then the justice in courts,  
Lastly our second childishness**

## **Phases**

**Is it the noise that we make?**

**Or the unvoiced getting plays**

**Our choices are being made**

**Rejoicing while getting paid**

**Enjoying while getting laid**

## **PolyMorph**

Yo, so it's only fair to warn  
Our soul wears many forms  
We're more than any one form  
We're the soul of all our forms  
Both the known, unknown worlds  
Both the born and unborn worlds  
Life forms to become more whole  
Light's goal goes beyond your form  
While Love flows from soul to form  
While Love knows the road home  
And Life goes from form to form  
As Light shows us the soul's goal

As Light shows us the soul's goal  
And Life goes from form to form  
While Love knows the road home  
While Love flows from soul to form  
Light's goal goes beyond your form  
Life forms to become more whole  
Both the born and unborn worlds  
Both the known, unknown worlds  
We're the soul of all our forms  
We're more than any one form  
Our soul wears many forms  
Yo, so it's only fair to warn

**To my soul, I'm eager to seek you  
I'll be on the waves of your sea  
You're all my hopes and dreams  
Wish I could be one of your dreams**

**Ay, I've got a lot to say that I can't tell you  
I can't sleep cause of your perfume's fumes  
You can speak so warmly and I'm so drunk  
From your gaze that I can't hear my own love  
I'm happy I can't touch the night's moonlight  
Like the wall's shadow we're with moonlight  
I can't go past the peak of your mountaintop  
Away from you I'm burned in the night's gown  
Can't sleep like a candle burning at both ends  
The flower cries that I can't grow in the garden**

**To my soul, I'm eager to seek you  
I'll be on the waves of your sea  
You're all my hopes and dreams  
Wish I could be one of your dreams**

## **Prayer**

**All religions and wisdom traditions  
All of their singing is only one song  
The differences are vanity and illusion  
Prayer's meaning is more than its form  
As the human spirit is more than its form  
We've borrowed these clothes,  
These time/place personalities  
From a light and when we praise  
We're pouring them back into space  
Why not laugh like a rose?  
Why not spread good aromas?  
For I am a light within his light  
If you see me tell no one what you've seen  
The body itself is a screen  
To shield and partially reveal  
The light that's blazing in your field  
Anything you do every day can open  
Into the deepest spiritual place of freedom**

## **Names & Shapes**

The human shape is like a ghost  
Made of different cells and atoms  
The thirst in all our souls  
Is put out by water itself  
We belong to it, it belongs to us  
We can't help being thirsty  
Moving toward the voice of water  
You breathe without a body like a spark  
You grieve and I begin to feel lighter  
O God! You are the infinite ray of light  
I am the red rose of eternity  
Not made of water, fire, wind not earthly  
I play with these elements of the world  
When the soul first put on the body's clothes  
The ocean lifted up all its gifts  
When love first tasted the lips  
Of being human, it started singing  
Why not be fresh from the heart-spring

## **Pure Souls**

**Come much closer  
My soul seducing idol  
Come now my love  
Become One my Soul  
Under the world's Sun  
Our dance has just begun  
Only for you I have longed  
You right all my wrongs  
You write all my songs  
In my mind, find my soul  
In my rhymes, feel me flow  
Guidance of your wise words  
Alchemizes my heart of stone  
To realize it was pure gold  
Recognizing our values worth  
Reminding us our true source**

## **Promised**

**If I had to promise you something, what would it be?**

**I can't promise that you'll always be comfortable...**

**Because comfort brings boredom and discomfort.**

**I can't promise that all your desires will be fulfilled...**

**Because desires, fulfilled or unfulfilled, bring frustration.**

**I can't promise that there'll always be good times...**

**Because tough times make joy more appreciated.**

**I can't promise that we'll be rich or famous or powerful...**

**Because they can all be pathways to misery.**

**I can't promise that we'll always be together...**

**For separation makes togetherness wonderful.**

**Yet if you are willing to walk with me,**

**If you're willing to value love over everything else,**

**I promise that you'll be the richest and most fulfilled**

**I promise your life will be an eternal celebration,**

**I promise you I'll cherish you more than a king his throne,**

**And I shall love you more than a mother loves a newborn.**

**I hear only the HOLY SPIRIT in yoU**

**HU also speaks to ME through yoU**

## **QUEEN BiBi**

**Uh, come on now baybe

A Boss Lady in the streets  
See A Sea by the Beach

To me confess all your dreams  
Hopefully we'll fulfill our needs  
Life becomes what we make naked  
Kid around and get pregnant: baby  
Been down with yo' style freaking crazy

Come around I'll spend all my time pleasing
